Thats my MAL list, Its not fully done yet there are alot of animes that I watched but not on that list but thats most of them.

I hope the community could gather some animes for me, So I can fight my boredom, Please recommend one with not a child MC, I hate those.

Just one that is OP and badass as F

Would be nice if you added scores other than 10's and 1's.

I recommend you watch Death Note, it's a great anime and you can finish it in 2-3 days, probably faster if you get into it (it's only 30-40 episodes).

I always recommend the same anime: Full Metal Alchemist (Brotherhood), it's really good and people tend to avoid it. I would also recommend Parasyte since it's one of the best recent animes.
