Thread: [Omnicoïn listed on CoinWarz](#)

SIM-2015410 - April 10, 2015, 5:26 pm

Omnicoïn is now listed on CoinWarz.com

[Link](#)

This is another step toward large expansion and growth of the coin. Now miners outside of HF will be exposed to the coin.

OMC is steadily on its way to the moon ?

Saw this the other day. This is probably why there has been so much bursting lately.

NiktoKan - April 10, 2015, 7:25 pm

Congratulation. More miners know about OMC and more hash rate.

Vigor - April 10, 2015, 7:27 pm

Congratulations HF members and Omni! This is a huge milestone. I think I may celebrate by buying some Omnicoïn when I next get the chance.

This is more detrimental to the coin than it is beneficial.

If I recall correctly we have been there before but dropped under the removal limit. I don't think they have the top 100 limit anymore, though.

<http://www.coinwarz.com/cryptocurrency> ?

I think this is nice...but not really...people are going to mine and dump not giving two shits about the coin. Then again half of us already do that. but difference is. We care about the coin's growth.

Yes, we have been readded. I'm just saying that we have been there before.

I was referring to what you said about not having a top 100 list.

He said top 100 limit not top 100 list, I think he meant that if the coin isn't in the top 100 it would be dropped.

Oh, I see now. My bad.

that is really awesome its on the coinwarz list.

that should bring more popularity on the coin itself. i hope people stop doing bursts. since all of us are trying to mine the coin and later on sell it at the highest price in a distant future.
