I want to be in Nightfall because I wanna play games with people in the group, such as runescape (i've seen a ton of people in that group with runescape avatars). I also would be interested in playing League/Hearthstone/Halo with any of the members in the group as well. I think that it would be a great experience and it would be awesome if I could be apart of it :P.

Lil Durk - April 11, 2015, 1:05 am

Why do I want to be in NightFall?

Because I believe NightFall has the coolest userbar.

No, but the real reason, I've started becoming more active and I want to give away stuff more often. In general I'm not too sure other than I'm looking for a quality group that's forums are active so I can be active in them.

Fortune's group isn't really active in their subforums.

Basically I've become more active recently and want to help, chill, chat, or just play a game with some cool members.

Kraith - April 11, 2015, 1:05 am

Hello Jerv.

I don't want to make this long, but I want it to get my point across, so here it goes.

I'm taking this time to apply for Nightfall because I too am an avid gamer. I want to join another community of gamers within HackForums, there are many opportunities to do this. However, Nightfall has a bigger and better purpose in my eyes. To connect gamers, and bring out a big part of many people's lives, while still sharing common interests of general HF members. Because Nightfall is an official group, it has more attraction, you get a private subforum to discuss events and group happenings, and anything else you might want to talk about within the group. The attention brought onto an official group is what truly gives Nightfall it's better chance to succeed and thrive as a gaming community within HF. You will get more members with varying skills and talents who can help make your group the best, and it's because of this that you are given the advantage. And simply I just enjoy the social opportunity and experiences that could possibly be gained from becoming a member of Nightfall. That's all I have to say. I hope I got my point across, and would like to say I'm eager to hear your response.

Thanks for your time,
Kraith

HitSweMan - April 11, 2015, 1:20 am

Cuz i want to be in the most HQ group on HF.

You have the best userbar. You have the best Leaders.

Will be active in the sub forum and will happily help people out with their MC server for free.

Secret Agent Minion - April 11, 2015, 1:23 am

I have a huge wiener and I like to swing it around like a meat cleaver...

And that's what I can do, and if you found this slightly funny I don't see why it would be a problem for me joining.

<3

Hash G. - April 11, 2015, 1:23 am

I'd like to join Nightfall because I don't have any firends to play with, and you have a cool userbar.
I'm a chill user and love playing games such as Minecraft, LoL, FPSs or whatever games you will ask me to play. I'm active in the League Of Legends forum, meaning I'll certainly be active in the Nightfall subforum!

Naut - April 11, 2015, 1:32 am

Why I'd like to join:

Everyone in the group seems pretty chill. Wouldn't mind playing some games and getting to know you guys. I play pretty much everything.

Past:

I've probably got over 3k hours in total on Minecraft(across console and PC), and have done some huge builds including a football stadium, hockey rink, and a concert venue. I'd like to start a new giant project, but I'm down to build whatever. I've owned pretty much every console and played a ton of different games. If you have active Minecraft players I was playing on a yogscast server with a couple people but they slowly just quit playing and abandoned the server.. Wouldn't mind a fresh start. I have nothing but time on my hands, I can play whenever. I'm really hoping to also meet some Guild Wars 2 players, but there doesn't seem to be many here.

Future:

Once again, I play everything! So mostly I'm looking for new people to play with. Hope to put together a nice group and make something happen. If we play Minecraft, I like to build giant things. Huge projects. Eventually I'd like to find some people who would like to work together on something like that. If not I don't mind just simple builds either. Other games I play include Arma 3, DayZ, and Payday 2.

Other:

I'm open to play anything. My steam library is at 575 and growing. If I don't own it, I will soon. I'm currently building a new PC so I can play some more demanding games. Trying to get this thing built before GTA 5 drops, but I think i've still got at least another month. Feel free to add me on steam: <http://steamcommunity.com/id/Naut138/>

Hope I get an invite! ?

Muro - April 11, 2015, 1:49 am

I would like to join to get to know other HFers who share the same interests with me. I play League of Legends, Dota, sometimes old-school games like Counter Strike and some Minecraft. Hoping to see some gamers ?

Thehackerguy1 - April 11, 2015, 2:00 am

I really hope i am accepted in Nightfall.

Telstra - April 11, 2015, 2:02 am

Yo Jerv, was a member of the crew back in the days of Instinct. Love running a muck with you guys, joined in on the Twitch doxing and trolling fest a little while back, pretty crazy. Used to be super active in the Teamspeak and most likely will be again once I return from holidays this week. Inxy is my nigga. Also do my fair share of gayming.

oskar - April 11, 2015, 2:16 am

Hello Nightfall,

I am here applying for the gaming group Nightfall, because I really enjoy gaming and want to play more with people on HF. I believe it will benefit me to join the group so I can pursue what I want to do on HF and be apart of a cool bunch of people who I can game and have a good time with.

Let me tell you a bit about myself, I'm Oskar from Melb AU. I'm 20 years of age and am studying law at University. In my spare time I enjoy gaming, getting drunk and going to parties.

I would really appreciate having a shot to join the group, even though I am new I think I can benefit the group.

Thank you for reading my app! Cheers ?

I would really like to join the group, since it will be a new experience in HF for me.

I love playing videogames such as League of Legends, Battlefield 4(PS4), GTA 5(PS4) and more. I mainly play League of Legends, currently placed in Gold 2 on my Main and Silver 1 on my Smurf. I already got in contact with Vinnie about League of Legends. (Account gift)

I think that I am a nice person and enough mature for a group in HF. I am 18 years old and live in Europe West. I can speak german, english, french and albanian.

I hope I can join the group and I hope, I can make a nice acquaintance to everyone else in the group if I am in. ?

J. Lewis - April 11, 2015, 2:58 am

This is my application.

Perses - April 11, 2015, 3:12 am

I would like to join. I love gaming. My favorite game is halo. I loved the good old days of H2/H3, but I don't really play MCC because I think it's garbage.

Recently I've been achievement whoring on my 360, and running zombies on Bo1 on my PS3.

I am also getting sick of looking at this L33T user bar. Such an awkward color.

Paathurnax - April 11, 2015, 3:18 am

I'd love to have a spot in Nightfall because I haven't been in a group since I was in TBH about a year ago. I'm soon going to be upgrading my PC and I'd love to have a larger group of friends to play online with. In all honesty I'd just love to be able to kick back and chill out with everyone and enjoy my time more on HF with like-minded people.

Besides those reasons, Nightfall seems like a pretty badass group in my opinion.

Anyway, I'll keep it short and sweet. Have a nice day.

Hinch - April 11, 2015, 5:57 am

Do you consider yourself mature : Yes, I'm mature but I do enjoy having fun.

How many hours a day do you game :
4-6 Hours on weekdays and 9-12 Hours on weekends.

What games do you play & which games do you play most :

I play a large variety of games, the main games I play include the Call of Duty series, Grand Theft Auto, Minecraft and CS:GO I am not limited to the games I play and am good with all.

Are you able to capture gameplay or video edit :

Yes I am able to capture all gameplay whether it be on the PS3 or the pc as I do not encounter any sorts of lag on the pc as I average high fps 200+, and on the console I have recently bought a HD capture card. When it comes to video editing I am not experienced but I am decent at graphics design but there is always room to learn video editing if needed

What do you expect :

Well you can't always tell from first sight but I expect it to be of high quality, and from what I see it is. The main thing I expect are nice and very enjoyable sessions with other players who will not rage or be upset when it comes to gaming, and overall just have a fun time with others players, it will also be an opportunity to show my skills of to the community.

What can you contribute :

I can contribute many things, but I don't want to sound big headed and list all. The main things that I enjoy doing is modding games, especially on the Playstation 3, I am also able to do free recoveries. Overall I just want to make the gaming experience image change from a little kid raging and screaming back to how it was. I am nearly always on the forum so I can always keep an eye out on the threads. I often earn some income from modding but I would not mind giving some of it away with giveaways to help bring publicity.

Anything Else :

I have overall general knowledge of HF. I can get any game needed for free on ps3 and I bought Grand Theft Auto 5 on pc and can do pc recoveries

[Video: <http://www.youtube.com/watch?v=RgKAFK5djSk>]

Datageni - April 11, 2015, 7:15 am

Most-Played Game:

There are actually a few ones. I mostly play Counter Strike Global Offensive, Far Cry 3, San Andreas Multiplayer and Minecraft. I also have experience with Star Wars: The Old Republic, World of Warcraft, Runescape, Habbo, and a few more. I pretty much play decision-making games, mystery/drama and First-Person Shooter games. But of course, this does not stop me from trying out something new.

Why should I be accepted:

As I always seem to have free time, I feel that I am able to contribute more to the forum than just playing games on my own. Therefore I would be more than pleased to be a part of Nightfall. But let me begin with an introduction about myself.

I'm Psykotikum, an eighteen year old boy from Norway. I am studying application developer, pretty much just creating, coding and designing websites. I am currently studying HTML, PHP, CSS and in my next school year I will be studying Java - and much more. I've spent most of my spare time playing tons of games. Of course, I do have a job besides it. Luckily my job is not taking much time and I can continue playing the games I wish to play. I think this is one of the main reasons of why I am useful and a good additional in the gaming group.

My good skills and properties are that I am polite to everybody. Luckily I am never angry, not to anyone. Most of the time, I just laugh at the situation and step aside from it. I am also willing to help where I can help, such as guiding new gamers, give them some information, tips and so on.

Another good quality of mine is my ability to remain impartial when decision making, when I take up a role, I take pride in making choices I believe to be right and that are by the book, I have an attention to detail and want what's best for the group. I have a passion for gaming and creating stories and feel I'm an approachable person when it comes to asking for help. I would say I'm consistent in my ability to perform in a gaming position and more involved in leading by a good example in terms of game rules, good forum etiquette and being somebody who is friendly and approachable.

I do have one down-point, which is that I am disinterested fast. I want to do something. I can not just sit on a chair doing nothing, which I actually am doing in-real life. If you assign me a job to do, I will do it. To go in further on that, I am always doing my job as best I can. If I do something wrong, tell me, and I will correct it. As I wrote above, I am a quick learner and I do in fact learn from my mistakes. Not everybody does that.

I believe that I am dedicated yet not ignorant. For example, if someone feels a certain way about a situation, I'll allow them to explain whatever they're thinking and value their opinion. Though I am stable with my own beliefs, I'm extremely open-minded--a branch off of tolerance which is always a good thing for a gamer to have. As far as the dedication goes, it even expands out to tasks. If someone tells me to do something or even asks politely, I can do it without a problem and stick to that task until it's complete to one's satisfaction. This may sound nerdy, but I love to help out and do everything or anything I can. I believe that I'm extremely professional. I try to keep a calm and cool persona active at all times and I avoid most if not all arguments on the internet. From the times I've been involved in an argument, I've managed to either push it aside or just let the other person dwell with whatever gratification they get from "winning" said argument. If I know I'm right about something, I trust myself, and I don't let that interfere with my professionalism.

I have tons of experience in leading/co-leading positions. I've played games such as Star Wars: The Old Republic, World of Warcraft, Runescape, Habbo, and a few more. Most of them, I've had leading positions in or have been the owner of a guild/moderator or administrator of a roleplay. I have never been removed from a staff position due to unprofessional behavior or something of that case. I've either requested to be taken off or the roleplay/guild/faction closed due to events that were entirely out of my control. Out of my six/seven years roleplaying, I'd say that a good two of those years were spent in a position of authority. More specifically, I've been a senior administrator in a SAMP roleplay known as Insomnia Roleplay, so I have lots of experience with San Andreas Multiplayer.

I believe I should be accepted because I'm very dedicated towards gaming. I love playing with others, I also feel you can find out a lot about a person by playing with them. I want to join so I can share my love for gaming with others, it would be great to have more people to play with and expand my gaming to other genres such as racing and much more. I feel this is the perfect group for me as I know lots of members share the same interests as me.

I am, in my own eyes, a responsible person. My most defined personality trait is probably my hyperactivity as far as verbal interactions go. On Skype calls or in Teamspeak, I tend to loosen up around people I'm comfortable with; I laugh, I tell jokes, I talk loud and fast and I ultimately sacrifice a bit of professionalism in order to have a good time. It's something I'm toning down but it's still present. You can say that I am a fairly hard worker, and an awesome gamer.

Raymond Reddington - April 11, 2015, 7:23 am

I want to be in this group because "Nightfall" not only reminds me of this group but also some unforgivable sin of mankind.

I straight up just want to be in a chill group. All the others take themselves way too seriously despite not contributing anything (or much). Every Nightfall member I've known has been pretty fucking cool, and the group as a whole always looked like it had a great vibe. I feel like I'd fit in.

That'll be my short application, as I'm on mobile. Won't pretend that I'm here because I'm a hardcore gamer. I just want to meet awesome users and be part of a nice little community in which I can also contribute.

Why should we invite you into Nightfall?

I was previously in Nightfall for the minecraft server, and while I was there it was a very fun group. I hadn't gotten to experience any gaming nights but the people I talked to were fun and cool to chat with. My name is Chris, or GTH. I'm fifteen years old and skinner then Orchid.

Why do you want to join?

Like I said, it was a ton of fun and I will never regret joining. I'm sure there's more to come. I'm excited for possible game nights and the general excitement of being in Nightfall. The time I was in there was almost as good as being in Titans minus the big projects that I believe I could lead and help out with.

What makes you special?

I'm a gamer. I don't care what other people say about me but I'm a gamer. I play everything ranging from Nintendo shit to PC, the master race. I like to talk to other gamers, I like to make friends and just game. I love to talk and to laugh and play games with people whether it be recording for my channel or just general fucking around.

My old application into nightfall

Pimp. - April 11, 2015, 6:35 pm

I want to join. I will make signatures for the whole group so we can all look badass. I can also carry in csgo. Plus, every group needs a pimp. That is all.

But seriously. I am pretty good at graphics. I did a lot of free work, but everyone I made them for said I should open a shop, but I would do work for members for free of course.

I play a variety of games, from csgo to league. I'm laid back, and enjoy browsing the forums and talking about all sorts of topics. I love learning random new stuff that can expand my horizons. I am a networking student so I can help anyone with that kind of stuff. I have plenty of other perks, but if you have any questions let me know.

Cheers

Why I want to join NightFall

I am gonna keep this short but fancy, I want to join nightfall for these reasons:The userbar is the best of them all, I like the space theme a lot!

I generally love gaming like a lot, its sort of my life honestly, I own an XBOX 360, PlayStation 1-2&3, A gaming PC, Wii (lol) and I had a gameboy and a DSi.

I heard that the sub-forum is quite awesome & active and that would be amazing because I enjoy lounge and many people recommended me that I should join NightFall so I decided to post this!

What I can do for NightFall:Giveaway anything from Upgrades to website accounts. (I know The Afro from the buying of a lot of Nandos account haha)

Be very active in the NightFall Sub-Forum.

Help any member with: SEO, CPA, Cracking, Anything asked.

Some of my favorite games:

Console: FIFA 15, Destiny, Grand Theft Auto 5, Call of Duty's.

PC: Counter Strike:Global Offensive, Binding of Isaac: Rebirth, Portal 2, Garry's mod, Far Cry 3, Runescape, Minecraft and League of Legends.

Thank you for your time of opening an recruitment thread and reading + considering all the applicants!

Greetings, Jesse a.k.a CryptoWall!

I Would love a spot in nightfall, the user-bar is really awesome. i can help out the group with my area of expertise (pretty good with GFX), and yeah i love gaming and i would love to spend time in a gaming group, mostly i play callofduty and LOL, it would be fun to be in gaming community. Thank you for reading. :)

Trevor470 - April 12, 2015, 4:23 am

I'd enjoy a spot, I'm always looking for somebody to play stuff when. With the release of GTA 5 for PC soon, I'll definitely be needing somebody to play that with.

I mostly play Arma 2 OA, CS:GO (Currently Silver Elite), and I plan to slightly no-life GTA 5.

You also have the sexiest userbar I've ever seen.

Cyber-Hub - April 12, 2015, 4:32 am

I would like to apply to this great group.

I mostly play competitive games like csgo or some other minor like sauerbraten :)

Actually im playing ESO.

Thanks in advance

I would like to join Nightfall as I want to be a part of a group. I mainly play LoL but I also got games like BF and COD.

I am not that active with posting on the forum however I do try to post more on topics, most will be in the coding section as I am a coder.

morph - April 12, 2015, 8:37 am

I've not been on here for long at all, I know, but I'll post anyways, as this seems like a very nice group.

Why do I want to join nightfall?

First of all, it would be a great start for me on hackforums getting into a group.

Second of all, it seems like a really chill group, and I love gaming.

What can I contribute?

A chill guy, and a lot of fun posts.

I also develop various programs, however, I'm not sure if I can contribute anything because of that.

+One - April 12, 2015, 8:49 am

I play league of legends, and I have played for 2 years. I also play a lot of CS:GO. This is a great opportunity for me to play and rank up with people.

Why do i want to be in Nightfall?

I would like to be in Nightfall for different reasons, a few being i would like to meet new members, i would like to experience being part of a group such as nightfall and just begin to talk to more members to see if i could help anyone out with anything.

What have i done for HF?

I have made a few giveaways on Hack forums, one has reached over 1000 views and i received a lot of pm's which took quite long to send to each individual that wanted the list. Also, i have helped members with different social media problems and how to earn money throughout HackForums, i offered to help them at any time even when i was busy i tried helping members.

What can i bring to Nightfall?

I can bring more giveaways and offer help to different things if anyone needs it. Also, im quite good with gaming so if anyone needs any gaming advice or help such as joining clans, entering tournaments or playing with youtubers i would be able to help sort you out with them. I have experience with gaming and played against top youtubers so i can help beginners that are looking into getting in that field. Also, im good with business so i can help there too. Im a good member and willing to help people out in the group. Il be there for people to talk to, and il be a good member to keep in the group!

Any other information ?

Im 16 currently living in England, i like gaming and socializing. I try to be as helpful as i can!

ZuGgY - April 12, 2015, 8:52 am

Nightfall is one of my favorite groups on HF ever. Very active and funny inside the SF. Good luck to all applicants!

Doncaster Rovers - April 12, 2015, 8:54 am

I would love to be in this group because the 4 years I have been a member on HF I have never been apart of a group. I am starting to come back into gaming and Hacking and would love to surround myself with people who are passionate about gaming and hacking. I game on both Xbox One and PC (Mainly PC). Thank you for your time. ?

I was in Nightfall before, great and chill group overall. Was kicked due to my inactivty, which I didn't report, but would love to be added back. Always liked talking with others while playing some games.

Recruitment Message

I am somewhat new to HF but I will be growing very quickly. I have decided to make HF my home and joining a group would be perfect. I will be a great addition because I am soon launching my product "PPD Pyramid" which I will be stickying, setting up a \$100 contest, and more promotion details. This is one of many of my soon to be "Pyramid Products". I just need a chance and want to join this group and be part of people that will help me grow and I will be High Quality as I always am. Also I drive a hell sexy Dodge Challenger V8 which is off-topic but I mean maybe you think that cars cool and it will earn me some credit. Anyways, good luck to me and good luck to your group.

P.S I have played League of Legends for about 2 years now, I had an account in Gold V, and now my account is in Silver V and am working my ways up. I am really good though honestly, my K/D/A is very high as well.

GEazy's Nightfall Application

Hello, my name is Cory also known as GEazy here on Hackforums. For my application I'm just going to talk about myself and why I deserve a spot in Nightfall. I love to play Minecraft, Call of Duty and Fifa and a few other games. I deserve a spot because I am a really nice guy who knows a ton about Minecraft and I am here to help everyone in the group. I have a Youtube channel with over 4k subscribers where I upload a decent amount of Minecraft. If any other members are interested in starting a Youtube channel I can definitely help them out because I pretty much know everything about youtube. As I stated before, I know a ton about Minecraft because I have been playing for over 6 years! I can help many people and make Nightfall a better place. I would also love to meet new members that have the same interest as me which is video games! I feel it would be cool to discuss gaming in the sub-forum with only HQ members.

Thank you for reading my response and I hope I can become a great member of Nightfall :) Have a great day!

EthanX - April 12, 2015, 3:32 pm

I want to join because all I do is game and most of my posts and contributions on hf are related to games in a way.

I've been in before, I made it into last recruitment twice, but vinnie ends up kicking me every time.

I used to be only into minecraft but now I find myself playing csgo all the time.

Thank you for reading my application.

Also finding people to play with is pretty fun, since I've been mainly playing with .Ethan and some other people that aren't as active.

ArmDealer - April 12, 2015, 5:21 pm

I wish to have a spot because I wish to experience being a part of a group on HF after a few years being a member. I would also like to participate in the group's activities and what not. I'm also a gamer and play mainly games such as LoL, FIFA 15, CSGO and of course MC. I don't know what is expected of me but if help is needed, I will try to do what I am able to for all the members of Nightfall.

You're also an amazing gaming group which is something I'm super interested in. I play around like 6-8 hours of the vidya games a day I'd say. I play all sorts of games as well, CS:GO, LoL, Hearthstone, TF2, H1Z1, you name it, I probably play it. I'd love to be a part of the squad to maybe help you guys with whatever you needed and to make some new awesome friends as well! I could host giveaways in our name to increase our reputation as an awesome group and do whatever else is required to become as cool as you guys c;

Aboft - April 13, 2015, 10:42 am

Greetings Jerv and the rest of Nightfall that stand behind him,

I am here to be notable whilst being efficient and concise. The group, Nightfall, had overwhelmed with curiosity and aspiration. I have very little experience of being a part of a gaming group within HF, but I do have several years of actual HF and gaming knowledge. I was once in L'appel du Vide, and The Void before the change, for several months; close to a year before taking a hiatus from the forums. My skills consist of great communication, friendliness, selflessness, and intellect. Void was my family and I still keep in touch with them until this day. They helped me turn my life around, think of my future, and give back to the community not in donations of currency, but in knowledge and experience. My plan for this group is to be accepted and join another family whilst doing the things we all enjoy. Of course, I am not the best of the best within the gaming community, but I sure can hold my own. If you are wondering, I play most of the common games for PC and Xbox (360 not One). My daily life consists of mainly playing school, work, family time, then to finish it off; gaming. I enjoy FPS games the most, but I also play Hearthstone, League of Legends, RotMG, and some others. I would love for you to at least considering my offer of joining your group so I may prove to you my significance of my being. Thank you for taking the time to read this. In the case you do decide to disregard my post, or decline my acceptance, then I wish you a wonderful day.

Sincerely,
Aboft.

Application for nightfall

Why i would like to join nightfall:

I have been watching this group for a long time and i feel that this group would be something that i would fit into.

I have multiple gaming consoles. This includes an xbox (original), xbox 360, PS3 (Having some problems with it) and a gaming PC.

Would you be active in the group forum?

Yes. I love gaming and am constantly (almost every day) playing games such as counter strike, gta 5, battlefield (3, 4, and hardline), Dayz, H1Z1, Minecraft (Sometimes), CoD, League of Legends, and lots more. I also like indie games.

About myself:

I am 18 years of age. I work at Sonic (The fast food place). I hate the following: People that talk shit

and don't back it up and Fortune.

Why should you be accepted?

Because i don't like cheese.

One more day to get your applications in. Uhhhhh ?

Lovat - April 13, 2015, 4:01 pm

Hi. I guess I'm applying to join this group.

Well I suppose you could call me somewhat of a gamer. That's the nice word for it. In reality I have a crippling Runescape addiction that I can't seem to get rid of. I don't really speak to anyone at all. I play for up to 18 hours per day with private off and just enjoy the game. I feel like I'd enjoy it much more if I was involved in a group of people who also share my addiction and/or general gaming schedule. Every minute of spare time I have goes in to some kind of game. Runescape, being number one, of course. Other games I play include BF4, most Xbox One releases I suppose.

I've always wanted to play LoL but I've never had a group of people to teach me the ropes or play with. It seems like a really strategical game which really grabs my interest, but yeah just due to being a loner I've given up on starting. I hope that if I were to be accepted then I'd be introduced to games like LoL and alike, then eventually get myself in to the whole PC gaming niche. As it stands it's Runescape, BF4, sleep, repeat.

I have written many guides in the Runescape section, most have went un-noticed, as they have always been gameplay-related. The Runescape section is currently a tumour of threads all about botting. I brought hand-written guides on legitimate money-making, luring, general gameplay. I loved making an effort and seeing them being appreciated. However yeah, times have changed I suppose.

So here's about that point where I hit post and see how things go. This may seem pretty half-assed but in all honesty I just really don't have much to say about myself. I'm a Runescape addict who occasionally likes to socialise. Given the chance to socialise with like-minded people, I would offer you huge amounts of Runescape trivial knowledge. If that's something you'd be interested in, give me a shout. Much love.

Stellar - April 13, 2015, 4:05 pm

Hello, Im going to make this short and sweet. I would like to join Nightfall because I feel like I can inspire great conversations and contribute to members under Nightfall.
