Thread: [>>> How I learned to make money | \\$15 | Never buy ANY ebook again! | Learn A LOT! <<<](#)

Private Network - April 11, 2015, 5:50 am

Buy here: <https://payivy.com/v/Never%20buy%20any%20ebook%20again>

Why should you never buy an ebook anymore?

Because its all in Udemy (warez disallowed) courses.

Whats Udemy (warez disallowed)?

<http://www.Udemy> (warez disallowed).com/ is a site where you can buy and sell high quality video courses like for example this one:

<https://www.Udemy> (warez disallowed).com/youtube-money-making-secrets-revealed/

This is a \$560 course explaining how to make money with youtube, how can that be worse then a \$10 ebook???

This method will learn you how to get any course for free!

What can you do with this??

1. Start a service selling courses
2. Use the information off courses to make money yourself!

- You can get in 26.000+ courses for FREE while most of them are \$349+!

Buy here: <https://payivy.com/v/Never%20buy%20any%20ebook%20again>

Some examples:

Am I missing something here?

Just seen like 3 of these threads in the last hour.

Did somebody leak the method?

SIM-1550131 - April 11, 2015, 5:52 am

This method is publicly known and a monkey could figure it out.

Its publicly known on a black hat forum and I'm assuming they came here to sell it.

"Will never be patched" gives away the method.

Private Network - April 12, 2015, 12:49 am

I edited the thread a lot with diffrent things, examples and ideas.

Linkin™ - April 12, 2015, 2:56 am

Vouch for Jesse, I know him half personally and he sells HQ products

?reaking ?ad - April 12, 2015, 5:09 am

I assume this is different from the public "Register account > Click free preview > Quickly download the videos" method? Could you give some more information on what makes this better than the publicly known method?

Private Network - April 12, 2015, 5:29 am

And since when was this made public?

Thats just gay, ill close the thread.
