Thread: [Java expert \(Help Required\)](#)

roothunter - April 11, 2015, 9:55 pm

Any java expert here? Need to crack one s/w , its asking for username n password help me to crack if u can!!

whitewoolyhat - April 12, 2015, 12:47 am

Maybe give us all a little more information about it?
So we can actually attempt to help you out

Sacred Symmetry - April 12, 2015, 12:49 am

Please provide appropriate details and then i will be able to help you out

roothunter - April 12, 2015, 1:05 am

Actually i got droidjack v4.0 its in java lang , but it requires username n pwd so i have bypass that..!

whitewoolyhat - April 12, 2015, 1:11 am

This is the wrong section then.. you are looking for something hacking related; go to the hacking section.

roothunter - April 12, 2015, 4:06 am

its ryt section cz its programmed in java and only java xpert can crack it! so you have to knw programming to reprogram that..!

MrOrang - April 12, 2015, 5:05 am

I doubt people will help you since most members here are against cracking software.

Anyways try the simlle ifeq->ifne instruction trick. Might work.

??Austin?? - April 12, 2015, 5:17 am

Here is the source have fun looking through obfuscated code.
