I doubt anyone is going to end up randomly giving it to you? If it's been released a simple google search should be able to find it.....

Jokes aside. At least you used Google, which most other people on this forums dont. A quick Google search got me this:

<https://www.sendspace.com/file/rqhmec>

<http://www.index-files.com/79rar/54b6672b1f0b676a0f8b4579>

^The uploader of this one claims it is the source.

Warning: I have downloaded neither of those, so use at your own risk.

BTW: This was all second page of Google if you used the keyword:
njrat v0.7d source
