It's not a huge loss, but I work hard for my money and I recently moved out, so it sucks that I lost some cash leftover from my budget. I tried being fair and waiting way over the time he told me it would take (24h), but I guess that got me no where.

Also I would like to point out that his original thread stated he already owned the games, or he could grab them off his friend.. this doesn't seem to be the case. This user has obviously lied to a few of us and I would definitely buy/sell with caution..

He has also stopped responding to my messages, I was going to wait until tomorrow morning to post this but I've lost most of my faith. :\

I'm hoping this can get resolved ASAP..

EDIT: It appears that he has deleted his thread, so I have included his new one (which got junked too..)

I have read through the images and can confirm that this is a legitimate scam report until further notice.

The scammer delayed the transaction over multiple days before ultimately failing to respond after warnings of an upcoming scam report.

This is pretty sad how he just kept making excuses.. He went from saying you were third to sixth because of "alphabetical order" I would have opened a scam report right after he said that. Good luck getting this worked out.

This is why Aliens wont visit us.. Coz ppl r scamming for 16\$? That day aint far when ppl will scam for even a cent. Disappointed. I hope this is just a Misunderstanding and that the seller has a good reason for the delay, however looking at the chat, it seems very unlikely!

You really should've looked at his reputation before dealing -

If you paid with Paypal, open a case.

I can't say I didn't see this coming. But I'm sorry this happened to you too.

I got the same excuses, "I feel asleep" or : "I'm doing more than one order"

Such bullshit, RepFuck this guy already. Two scam reports in a week.

Be sure to link your scam report on his rep too.
