Grammar 10/10

Amazing, I didn't notice a single grammar mistake and it's a pretty lengthy ebook. ?

Content: 10/10

The eBook contains the method that WILL earn you money. I've read other PPD ebook before and they lack a lot of information, this one covers everything you need to know in simple steps. Everybody has a problem finding a niche but within this ebook is a step by step guide to find the perfect niche for you. It also includes information about several sites to help you choose between them, this will save you a huge amount of time researching them for yourself.

Originality: 10/10

I couldn't mark this down at all since this is the best PPD ebook I have read. It also explains how to find a niche and how to get traffic, most other ebooks fail to teach you one or both of these.

Layout: 10/10

Full marks again, I can't fault the layout at all. Like I already said, it's a lengthy ebook but its very easy on the eyes.

Overall: 10/10

You will 100% be able to earn from this, its a very nice way to make some profit. It's actually not that time consuming either, I always thought of PPD and similar methods to take weeks and weeks to see some small profit but the author explains it very well and I see users earning just after their first day. Also, once you've completed all the steps, you can do them all over again with a new niche to increase profit. There really is no end to the amount you could earn after reading this ebook.

Personal message

I strongly advise people to buy this method. I've avoided these methods in the past because other ebooks lacked vital information. We all know what PPD is and we can all find a PPD network but most ebooks don't teach you how to find a niche or how to get a shit ton of traffic, well ... PPD Pyramid does! He registered not even a month ago and he already had like 100 reputation, good selling eBook etc, something was definitely fishy about him. He PM'd me and Skype'd me multiple times with his selling threads, he was kinda annoying too.

I would like to point out that the ppd scripts that come with the level 2 and 3 package, are sonex's ppd scripts that are public in the cpa/ppd section. I don't like how he's trying to sell public scripts as a bonus. Even if he has sonex's permission to sell them.

I still do stand by my last vouch for his ebook. It showed me one site that can increase my conversation rate, so the main ebook is still worth the buy to me, but honestly, if I knew the scripts were pubic in the first place, I woulda nought the level 1 package. Being untruthful in your sales

thread isn't morally right to me.
