Holy shit this show is a trainwreck lmao.

I might make it a drinking game like I did with momo kyun sword though. I like the pink haired girl the best. She's cute.

I wasn't a big fan of it. I'm probably not even gonna bother with it.

It's made by the same people as HOTD, did you expect anything over a 3? You watch it for the tits not the plot.

I will probably watch this just for the Jiggle Factor and the WTF that comes with every part. Not sure probably just something I will watch because I have nothing else, I wont rate this over like 3/10

What was your drinking game with momo kyun sword? Cringed so much during the first episode, I just have to know now.

- 1) Take two drinks for the OP
- 2) If there is a scene that exists solely for fan service (Zooming in on tits, panning body during shower/spring scenes, etc) take a drink.
- 3) Take a drink for magical transformation scenes
- 4) If there are multiple instances of fan service at the same time, take a shot (Or like three drinks or something). (Things like MC and Demon-chan mashing their tits together and stuff like that)
- 5) If there is dude fan service, take 3 shots (We threw this in because we predicted it would never happen. We were correct.)
- 6) Take two drinks for the ED.
- 7) Try not to die.

Once you stop watching it for the plot, and start watching it to get fucked up with some friends it becomes much more enjoyable.

That actually sounds pretty funny. I'll try it.
