Icarus Crypter Free - Download

yo could you pm me this i would like to test thanks!

malo1992 - April 14, 2015, 2:51 pm

A free FUD? Why you do dis? You destroy potencial in so many ways :(

Thanks anyway, of course.

This is scantime and runtime FUD, i guess? Are you going to release the source after it has been downpulled to 53/59 within the next, say, 3 days? xD Then I'd crab this, probably.

>> And btw, not to fuck with anyone, but one may encrypt his own self-coded FUD crypter (plus something) with another self-coded FUD crypter..... Well, like, eh- you know.

No offense to OP personally, I totally don't know this guy (and reps say a shit), but as an armada of noobs scrambles around here everyday (a LOT more than back in "my days", around ~2012), I just wanted to point that out. If I had the skills, that's EXACTLY the way I'd spread whatever. Hearing them shouting "HQ and free? gief meh!!". Grinning. Laughing. You know.

"Oh, 12/59 now, pity... but logical, the crypt algo is detected. Still free and UD, so what...."

Please don't be pissed OP =P You anyway aren't going to lose money here

Felix. has no reason to try to infect members as he is selling on here so he would only lose out by infecting users. ???
