Thread: [Free \\$5 on Fiverr](#)

HACKED - April 15, 2015, 2:49 am

How it works:

Fiverr offers people who have not registered yet a free gig.

So, you have to send me an email which has not been registered yet.

The \$5 can be spent on selected gigs.

Post here or PM me in order to receive yours!

Draako - April 15, 2015, 2:56 am

Could you potentially make a fake fiverr account with 5 dollars and buy your own gig and get the money?
