How To E-Whore Using FaceBook

This Method Is Very Good And Can Take You Up To 1 to 2 Weeks To Get Fully Setup. Trust Me The Wait is Worth It. All This Method is Will Be You Being A Different Person To A Whole New Level.

What You Need To Get Started

- *Facebook Account
- *Picture Pack (With 60 to 80 Photos)
- *A Huge Friends List (4000 to 5000 Works Best)
- *Thinking Like A Girl

What You Need To Do

What You Need For This To Work Is Just Make a New FaceBook And Have Your Self Be a Girl. You Wanna Get Famous With Alot Of Friends You Can Just Hit [Add Friends] And Do That for a good 40 Minutes to 1 Hour. Once You Have a Bunch Of Friends You Wanna Just Find A Bunch Of Older Men Mid (30s to 50s) And Just Talk To Them For A While And Build A Relationship. That Or If You Wanna Get The Money Quick Tell Them Your " Bf " Walked Out and You Need Money To Pay The Rent

Hope you Guys Enjoy This Quick TuT

The type of ewhoring that would probably need a good VPN. I would include that.

Facebook bans you and ask for a copy of identity card, ask you

To recognize the friends, it' VERY HARD to ewhore on fb, this is more like catfishing and a lot of people are thick on fb because off the mtv show cat fish that practically calls out ewhoring on fb aka cat fishing.

This actually is not a good method. As you always add new RANDOM friends you are likely to get banned or they lock your account and you have to identify your "friends" from seeing their photos. And I'm 100% sure that you wont build that good relationship with them that you know them by face and name.

This method could work but in 97% it will get closed / locked.

Good luck tho.

great tutorial. simple method that actually works! Thanks OP!! :)

dede110 - April 19, 2015, 10:15 pm

this could work but like many memeber stated before, facebook is very strict with ewhoring account..you will have to be very careful and pray that you won't wake up one day to find out that your account has been locked, adding too many friends will certainly trigger facebook spam filters and you'll be faced with a locked account

I agree with this.

I have been banned off of Facebook numerous times, I think it's best to avoid it in my opinion.
