Thread: [<>\[GET EXPENSIVE ITEMS FOR FREE\]<>\[QUICK AND EASY\]<>\[A NEVER SEEN BEFORE METHOD\]<>](#)

AstroJack - April 17, 2015, 3:39 pm

Will buy a designer for the thread, you may suggest me good designers in the thread or in a pm. I apologize in advance for the current, poor design

Hello, I'm not going to talk too much about this on the thread, as the method and the eBook speak for themselves.

This method will help you get stuff like phones, earphones, jewelry, and other stuff for absolutely free, and with almost no work at all.

the method is grey-hat, which means it's somewhat illegal, but the risk is so low, you can actually say it's white hat, even though it's not.

I guarantee you that you've never seen this method here on Hackforums, and probably not anywhere else, as I've thought of it myself, and wrote the eBook without any external help.

The method does not include:

- 1) eBay, Craigslist, Amazon or any other buy&sell websites.
- 2) PPD/CPA/Affiliating market of some sort.
- 3) Long, hard work.
- 4) Saturated tricks.
- 5) E-Whoring.
- 6) Buy cheap and sell for a higher price.
- 7) Any initial investment of some sort. Which means the only investment is buying the eBook. (I know this one's crucial for many of you who don't want to spend anything more than for the eBook itself).
- 8) Basically anything you've seen or heard before. I truly believe this method is something innovative.

This things aren't even close, or has something to do with what my method has to offer you.

My method does include:

- 1) Getting items like phones, earphones, etc, for absolutely FREE.
- 2) 24/7 Support. Ask me anything about the method and I'll answer.
- 3) Worldwide availability - this method works in every country in the world.

I know it sounds like bullsh*t, as nothing good comes for free, but don't forget that this is grey-hat. It will work, but just so you know - there's a small risk.

The chances you'll get 'caught' are extremely unlikely, as I've done it before several times, and no one suspected a thing.

Payment

The eBook costs \$15, which is a really low price for what I'm offering you right here, as you can easily tell.

It also comes with 24/7 support, and when updates will be made, you'll get them instantly.

I only accept paypal. Please send me a private message before purchasing the item, and I'll send you my paypal mail,

and you'll send me back the transaction ID, and a picture of the payment.

Vouch copies

I'll give out 2-3 vouch copies to trusted members, who will write detailed reviews about the eBook, so I'll know what to fix (except for the design, which I'll improve later on when I'll find a designer).

The main reason I'm giving vouch copies is not only because I want to show you that my I'm sure you'll earn items from this method,

but also because I want to improve the method according to your preferences, and that way I'll know what to change, and what to add.

So the reviews are just as important as the vouch itself.

T.O.S

1) You may not share or leak this eBook.

2) You may not chargeback. All sales are final. (there are exceptions though).

Doing so will result in a scam report.

3) I have the right to deny refunds to anyone who I'll find not eligible for one.

4) I have the right to change the terms of service without any notification.

5) By buying this product you accept these terms of service.

Please pm me of what you think the method is.

I gave away two vouch copies, so I'm looking for customers at the moment.

Also looking for a designer!

I received a vouch copy from OP.

This method won't work everytime. Actually, this might never work unless you come across someone stupid.

It is indeed greyhat and if you get caught you can get arrested, so I'd be carefull doing it.

Also, you cannot get exactly what you want for free. If you try it and it works, it can be random.

Overall, I don't really recommend this method and the e-book is not worth 15\$.

I'll take a vouch copy if you still got some and ill write a review!

MysteryHF - April 18, 2015, 3:15 pm

This is seriously more black than greyhat. If you're caught, you can end up in a lot of trouble.

This is kind of pathetic lol, I wouldn't sell this method for \$15.

You can potentially make some money but in my eyes it is immoral and not worth the risk.
