Thread: [Clean Http Botnet Source Code and Ownership](#)

Nex+ - April 17, 2015, 8:03 pm

You will receive the source code and ownership to this botnet. You can then resell spots to it for \$50 or whatever price you want to and make a decent amount of cash. I do not have the time for this that is why I am selling.

Price: \$100 or best offer. PayPal or Bitcoins

A few of the many options:

Send command options:

Remove Bot

Shutdown PC

Lock PC

You should actually explain what you did other than change the css file.
