Thread: [Omnicoïn Paper Wallet](#)

SIM-2015410 - April 17, 2015, 10:12 pm

I have just added Omnicoïn to the source code of WalletGenerator.net and the site owners have merged the code, so Omnicoïn now has a paper wallet:

<https://walletgenerator.net/?currency=Omnicoïn>

Basically, the site lets you generate a private/public key pair online based on random mouse movements, and you can print it out on a nice looking paper wallet to fold up and keep.

Looks like the site is offline.

The updates have been pushed to <https://walletgenerator.net/?currency=Omnicoïn> so I have updated the OP. Enjoy.
