Thread: [GoT - Daenerys](#)

If you haven't finished the show to the end of season 4, I recommend not opening the spoiler.

Spoiler ([Click to View](#)) Was really sad watching her have to lock up 2/3 of the dragons, but they're acting crazy as shit recently.

Do you guys think she'll ever be able to fully control them as they get bigger and bigger?

I mean, she's proven us wrong about her plenty of times. Everyone says how unstable and shit they are.

They controlled them hundreds of years ago. But just her, and 3? Idk man.

What do you guys think?

SaulGoodman - April 18, 2015, 4:02 am

The time will come where she will control all three of them. Like every living creatur on the planet, the dragons are in their child/teenage development right now.

The mother of dragons, like every mother, have to show strength and that moment will come sooner or later

Nope. Daenarys fucked up by being a woman.

Men are the masterrace.

I'm really hoping so, but the beginning of season 5 isn't looking too promising.

episode 1 of season 5 ([Click to View](#)) She went to go see the two she has locked up and they tried to attack her. They went back to like primal instincts and stuff.

Also, the one still can't be found.

Not even gunna bother replying to the other commenter.

Do yourself a favor and find time to read the books. As much as I enjoy the show (specially season 1) they have seriously hacked the story to bits. There's so many amazing characters and details they didn't put in the tv series in favor of extra nudity and sex. I'm not a prude mind you, but they added stuff that isn't even in the books as cheap marketing methods.

That's HBO for you haha.

If you read the books True Blood (another "HBO original") is based off of, same thing.

Added sex scenes everywhere.

Especially the first book & the first episode.

There isn't one sex scene in the first book, but the first episode has like 3.

Riiiiight?! Like she has 3 dragons, and everyone says how bad ass they are, but they're not super bad ass unless only one person can control them!

And when no one can, they're just destructive and would have to eventually be killed.

Then when that happens, Daenerys will lose pretty much everything. Or at least a lot.

VYKTOR - April 20, 2015, 12:17 pm

Daenerys is one of those characters which I hate the most in GOT.

I don't know why but she just pisses me off.

Makes the wrong choice again & again.

I've read the books so I know what a big fuckup she is.

I didn't really have high expectations from her from the start.

Having dragons & planning to overtake Westoros when she can't even rule the region beyond Narrow sea properly.

Dread8585 - April 30, 2015, 11:09 pm

Yeah I think she will. The question is, which of the dragons will Martin kill off in book 6?

her!

She doesn't control the dragons and she doesn't strip!
So what is she good for???

DiZ0X - May 3, 2015, 8:46 am

Ah, I really liked Dany in season 2, but she's gotten so annoying recently.

sansa never married ramsay for instance
jaqen h'gaar or whatever was never mentioned again after he changed his face in book
0q9843q094 (he was NOT the man that arya met at the door of the house of black and white)
barristan was never killed (idk if he is in the serie either but looking bad lol)

etc. etc. etc.
there's a lot more but that shit might happen so yeah
hopefully cersei's nude scene will not be let out ?

dany is a child she doesn't know what to do
she's been doing what she thinks is right since day one
sure she's fucked up a bit but whatever

dany is a child she doesn't know what to do

she's been doing what she thinks is right since day one

sure she's fucked up a bit but whatever

That's one of the biggest reason why I hate her.

When it comes to making important decisions rather than listening to her advisers she takes the "I'm Khaleesi, the queen, mother of dragons, mhysa, bla bla bla....." attitude & fucks up everytime. I cannot count the instances this has happened (starting from when she saved that witch to the time when she told Jorah to fuck off)

When she fucks up after that, she begins her age old lamenting " But, I am just a child what do you expect of me? What do you want me to do & bla bla bla...."

Girl, if you are just a kid then the fuck you want to conquer Westoros. You can't even control the land beyond the narrow sea & you plan to rule over the Seven Kingdoms of Westoros.

Spoiler ([Click to View](#))

THis is why I support Aerys Targaryen who is raising his banners in The Dance of Dragons.

He is a better suited ruler then anyone right now.
