nerox - January 29, 2009, 8:07 am

are they coded in Delphi? or what
edit: nvm nod32 picked it up..

lemmerule86 - January 29, 2009, 8:10 am

sorry but all are vb coded...

BlackStallion - January 29, 2009, 11:42 am

Downloading now. If all coded in VB, that'll be a tremendous study tool.

naid - January 30, 2009, 1:21 am

Since I am studying VB right now, this can be really cool. Thanks.

Hey comeone dude these are trojan's what did you expect

Nonmod - February 17, 2009, 6:33 am

of course if someone is dumb enough to compile the source and then launch it on his/her pc.

elobire - February 17, 2009, 7:11 am

ok i just wasnt sure

HardOwned - February 17, 2009, 7:35 am

Already had most of those, thanks anyways.

Btw, is that Zangief in your signature? Or just the Hulk?

are there more open sources? Im learning VB imo and sounds pretty intresting

-=[Gizmo]=- - February 17, 2009, 1:32 pm

This Is awsome, Like Cheers :D

DEN1AL - February 18, 2009, 6:59 am

nice man

i was looking for some sources

thnx

answer your question black dude ?

scaryblackguy - May 4, 2009, 3:59 pm

Oh, lol guess I should have read it better :P.

and thats too bad, why is everything coded in vb nowadays :(.

KING-T - May 4, 2009, 4:24 pm

So...is it VB 08 or VB6?

Zeak - May 26, 2009, 6:38 am

Thanks! Works great!!! :)

Soul Collector - May 26, 2009, 11:51 am

wtf trojan in sourc codes ??? why you are such a .. :(

GoldStar - May 27, 2009, 1:18 pm

i rised the level of security in my AV and started to dig...

the rar file was curruped and 16 trojan detected... but got some good code ^^

thx...

TuzlHack - July 28, 2010, 2:52 pm

thanks man great work just keep doing your work
