So I finished the setup late Friday night then went to sleep. When I woke up on Saturday morning I had gotten 2 SALES ALREADY that totaled up to \$50. Throughout the day I received another \$27 sale, and went to bed happy I had made over \$70 doing nothing the whole day lol.

So I woke up on Sunday and hadn't got any overnight sales like before, so I just waited and played video games for like 6 hours lmao. The whole day of Sunday (yesterday) I got a total of 5 sales adding up to around \$180 I think. Really excited about my earnings with this as I only see them still going uphill from here ? .

Efficiency - 10/10

Some of the methods in this e-Book are ingenious! It may sound crazy, but if you aren't a complete potato you seriously can make up to \$1000 in a single day if you have the work ethic! Even if you use this method casually it can make you \$100s a day. I highly recommend this eBook to anyone who's looking for a second income, wants to support themselves, or for whatever other reason you're wanting to make some serious cash online. I've purchased and checked out quite a few eBooks, and I guarantee you have never seen the unique and efficient method this one uses. This is by far the best eBook I have purchased, and the best investment I have made in a while! [/color]

Layout - 9/10

The e-Book is extremely easy to read and, as far as I can see, has no grammatical errors. Easy to navigate, and gets straight to the point while still giving you all the details you need. eBook is clean and smooth, no complaints at all!

Originality - 10/10

The method in this eBook has never been seen (at least in my own experience) and can't ever be saturated. I have bought, received vouch copies for, and read MANY MANY eBooks and I can honestly say that this is the best one and most legitimate method so far.

Overall - 9.75/10

WOW, this eBook is worth it.. no matter who you are, how old you are, how skilled you are or whatever, if you have a little bit of extra time to spend online, this eBook is worth it.. It has serious earnings potential and I recommend it to anyone who is looking to make some cash online. I have personally made approximately \$234 at the time of this post and I have put around an hour and a half of work into it, the rest has been autopilot for the past 7 hours. I can see how you actually could make \$1k in a day if you went hard on the setups for even just a day, you could be getting that profit for a long time. The profit is so far consistent and I don't see any stops to it, might update with pictures later. So to those reading this review - do yourself a favor and invest \$20 in this sure-fire method, you can make your money back pretty much instantly after setup. Vouch for Scorpi0n and this awesome method!! I can't explain how glad I am I purchased this.. thank you

Overall: 9/10

Layout: 10/10

The book is laid out very well. The author utilized whitespace in a way that the reader can easily follow each step sequentially.

Ease Of Use: 8/10

This method will work, as the author promises it fills a niche. However it does have a bit of a learning curve on it. It will take about 1 hour of learning first, and then another hour to start making money. Each time you perform the method it will take considerably less time, until it gets to a point it should only take around 30 minutes. HOWEVER PLEASE dont let this deter you from buying this method. Real work means real money. If you are willing to put minimal effort into this, the first time performing this method will pay for book 10 fold. This method is completely legal, and really fun to do.

Overall: 9/10

The author is great, he communicates and helps in any way he can. This method requires work, but only the legit methods do. Youll never make cash by doing nothing, and never let anyone tell you that you will. I could easily see someone making upwards of 100 a day with minimal effort, or the promised 1000 a day if you want to put a few hours/days into it. Each time you perform the method it will be autopilot afterwards, meaning you dont have to touch it again. Overall I highly recommend this book to anyone!

Your earnings are defined by your work ethic, and a bit of luck. Making \$1k in a single day is very possible if you are actually committed to the method and have the motivation to make that. Making a couple hundred per day is more likely though if you're just going to be casually using this method. Lmk if you have any other questions regarding this, you won't regret purchasing this efficient method.

That's why I will take my time, learn more, try the method myself and come back here with a full review and hopefully after few days picture of some earnings.

It's definitely not one of your standard ebay, cpa, get rich over the night kind of things that never work. The method is really short, but it gives you information about the potential and what to do, you just have to put a little bit of effort in if you want to see the results.

But as I said, I will come back here within the next 24 hours to post a full review. My first impression of this ebook is good.

Grammar: 10/10

There are now no grammar mistakes in this book, if you know basic english you will be able to understand everything perfectly

Layout: 10/10

The book is laid out very well. The author utilized whitespace in a way that the reader can easily follow each step sequentially.

Ease Of Use: 8/10

This method will work, as the author promises it fills a niche. However it does have a bit of a learning curve on it. It will take about 1 hour of learning first, and then another hour to start making money. Each time you perform the method it will take considerably less time, until it gets to a point it should only take around 30 minutes. HOWEVER PLEASE dont let this deter you from buying this method. Real work means real money. If you are willing to put minimal effort into this, the first time

performing this method will pay for book 10 fold. This method is completely legal, and really fun to do.

Overall: 9/10

The author is great, he communicates and helps in any way he can. This method requires work, but only the legit methods do. Youll never make cash by doing nothing, and never let anyone tell you that you will. I could easily see someone making upwards of 100 a day with minimal effort, or the promised 1000 a day if you want to put a few hours/days into it. Each time you perform the method it will be autopilot afterwards, meaning you dont have to touch it again. Overall I highly recommend this book to anyone!

Okay, so I bought this method May 22nd and started setup immediately as I was really excited to get started. So I finished the setup late Friday night then went to sleep. When I woke up on Saturday morning I had gotten 2 SALES ALREADY that totaled up to \$50. Throughout the day I received another \$27 sale, and went to bed happy I had made over \$70 doing nothing the whole day lol.

So I woke up on Sunday and hadn't got any overnight sales like before, so I just waited and played video games for like 6 hours lmao. The whole day of Sunday (yesterday) I got a total of 5 sales adding up to around \$180 I think. Really excited about my earnings with this as I only see them still going uphill from here ? .

i was very very very very very very skeptic towards this, as i bought many ebooks on this forum, same shit everywhere. However this is looking interesting. A method never heard before, nor read. The internet keeps amazing me and how big the market is. In this case, if you are a person with good imagination, you are at the right place. He is providing you resources of everything. Traffic is driving automaticly into it. So literally, autopilot.

Yes, you have to work a little. But the effort you have to put in is actually, compared to the income, nothing. Once set up, the rest is autopilot. I will send proof of income as soon I got time to do it myself, however im busy at the moment.

oh, and about the question list, it does work worldwide xD

it doesnt regard ebay at all, nor payments will be always trough paypal, you can choose..

however 1000\$ a day will not really be possible from day one, you have to put work in it, a steady income is also not really possible, depending on how many sites you do it and if you choose the good **** , which the most request is for at the moment :D

overall the book has decent potential, you will make more the more time you put in to study and apply :)

ControllingNature - June 15, 2015, 10:18 pm

Never got my bonus content after asking for it twice and giving him 2 weeks. You need to learn quite a bit if you've never used these tools before. I have had this for 3 weeks and am starting to understand the basics now (although I only have an hour or so a day to actually do\learn this).

No there is no further investment.

Yes you could make money on this, but it will take time. It will NOT be immediate and those stating that they have made 900 bucks in a couple days are full of shit. Prove me wrong! Yes the bonus content is missing.

No you won't get a refund, going by what is being said in recent comments.

* Yes you need at least a mid-grade computer. Something that could play good games, but not on the high settings, if that helps.

I will still pursue this, but have resolved that it will take a long time to pay off as a passive income.
