Yes

<https://www.facebook.com/photo.php?fbid=>

take that adress above and add the second number part of the picture name.

Example :

fbcdn-sphotos-h-a.akamaihd.net/hphotos-ak-xpt1/v/t34.0-12/11160389_10206691820520000_2000333265_n.jpg?oh=21e50df58f6f30a1644fd506fc1bb5e6&oe=55356B9E&__gda__=1429565702_683ce204ac6844cb4c6948549dad41ee

name of the photo:

11160389_10206691820520000_2000333265_n.jpg

second number part of this photo:

10206691820520000

in your address bar you should type :

<https://www.facebook.com/photo.php?fbid=10206691820520000>

Note : This only works with pictures shared in public.

There is no other way to find a profil if the picture is private.
