Thread: [Babylon vs Darkcomet vs njRat vs Nanocore](#)

Binary Ghoul - April 18, 2015, 8:19 pm

Title says it all what is the best of the 4?

May i also ask what the main features are in all of these?

nigam0003 - May 21, 2015, 10:11 am

I vouch for babylon, though i have not use nanocore

supreme00. - May 21, 2015, 10:11 am

njrat and nanocore beats them all

Business - May 21, 2015, 10:16 am

Visit the sales thread for each product to view a list of features. Each of them has their own special qualities.

Philip_C - November 28, 2018, 8:58 pm

been testing the 3.

- njRAT has a black text with black background with a light blue highlighting... hard on the eyes. BUT you can delete the original .exe rat and the RAT will continue to operate because it embeds itself in other directories.
- Babylon is pretty straight forward.
- Nanocore is pretty stright forward.

PerfectStorm - November 28, 2018, 8:59 pm

Babylon for sure nancore yuck and comet yuck. Do not use them.

UpTheCrust - November 28, 2018, 9:00 pm

I expected more detail given that it took you 3 years to write this review

Philip_C - November 28, 2018, 9:28 pm

just found RAT's and just found this website. figured i'd throw up my 2cents for anyone still looking at this =P

Nanocore - Mostly backdoored, be careful

Babylon - Never used it but heard some really good things

njRat - This is another good one, but compile it yourself if you can find the source
?

PARDASI HACKER - December 30, 2018, 12:39 am

none core njrat and darkcomet rat best

189davidcameron - January 2, 2019, 2:46 pm

What crypter can I use for nanocore

CheckMyNuts - January 2, 2019, 5:13 pm

used darkcomet long time ago, liked it a lot

#Skyline - January 2, 2019, 9:35 pm

Old thread.

But outta all I say Quasar.

n0\$f3ratu\$ - January 2, 2019, 9:39 pm

All rats stated here are old and unmaintained.

ALL of them are detected on runtime no matter what crypter you plan to use.
