How do you get discounts on any item?

I'm guessing it's sort of a Buy 4 You where he buys it then refunds it, not sure though.

If this is the case this is sooo overpriced

Amazon refunding is NOT allowed here in any form as it is financial fraud. I'd suggest you close your thread before someone else does.

It's kinda obvious this user is buying the item and then refunding, NOT allowed, also if that is what you are doing I suggest changing the prices holy shit.
