Thread: [Thinking about starting a Python 3.4.3 Class](#)

Kroat - April 21, 2015, 1:28 pm

I'm wondering if I start a class to learn Python 3.4.3, how many people would be interested?

I would start at the absolute basics of Python and slowly progress our way to an intermediate level of Python. We would go over topics ranging from basic I/O to OOP. The way I teach I like knowing everything the code does, so because of that it would be a slow going class. Although you will be able to get a thorough understanding of everything the script is doing.

I would also have assignments, homework, lectures, and one on one time.

This of course would be free, I would not want any money for this class. This would just be purely out of the love to share knowledge.

Who ever would be interested in joining in this class post and let me know. If anyone else has any feedback on the class feel free to post, I'd appreciate it.

I can definitely add you to the class list. Once we get more people we will discuss the date that classes will start. I will also add you on Skype.

Konstantinos - April 22, 2015, 1:03 am

I want to join the class!!!

Please notify me

xtremegamer1882 - April 22, 2015, 7:25 am

I'm interested OP!

I'd like to improve my knowledge.

Kdog - April 22, 2015, 7:35 am

I would love to extend my knowledge in python! PM please.!

zionix - April 22, 2015, 12:07 pm

thx kroat how many people do u want before u start the class?

ZuGgY - April 22, 2015, 12:07 pm

I know nothing about Python, and would love to learn. Sounds really nice.

Kroat - April 22, 2015, 4:10 pm

Okay so far here is the list for the class.

I am thinking 10 students all together. I don't want to overwhelm myself with students and I want to make sure everyone in the class is grasping the material 100%. So there is 5 more available spots.

The class will not be ready for sometime yet I'm thinking about two weeks after I have 10 students. I still have to make the lectures, homework, and assignments. I would also like everyone in the class to either send me a PM with their Skype or post it please.

I'm going to have lectures in skype but if you do not like learning from lectures, I will also have the lecture in .rtf for download.

Kroat - April 22, 2015, 8:01 pm

Okay will do. 4 spots available.

NON- - April 23, 2015, 5:13 am

Good luck with this. I think it's good how somebody can commit their time to helping others and I believe that should be commended.

Kroat - April 23, 2015, 12:35 pm

Still looking for skypes from:

lulzcat - April 24, 2015, 4:38 am

I would like to get in on this, My skype is lulzcat1

Kroat - April 24, 2015, 4:42 am

Added you, tehbunta. 3 more spots left for the class.

SIM-2193483 - April 24, 2015, 4:45 am

I'd give this a try, sending my skype to you in a sec

Kroat - April 24, 2015, 4:54 am

Thanks VLuF. Two more spots available.

kgyl - April 24, 2015, 6:21 pm

I would like to learn a bit more of it. Sending skype name.

Light. - April 24, 2015, 10:02 pm

I'd like this too OP, let me know if there's space.

Kroat - April 25, 2015, 12:09 am

Light your in and too kygl. The Python Class is now full. All I need is everyone's skypes and I will start making the class material.

Gissel - April 25, 2015, 7:45 am

Where can i sign up for this? Sounds awesome ive already started the codecademy course. But im totally up for this

Kroat - April 25, 2015, 8:08 am

Sorry Gissel, the class is full.

coldxice - April 26, 2015, 10:17 am

I want to take part in this course too!

strawhatpc - April 29, 2015, 2:29 am

Hi man, thats sound good,can u add me too
skype name is bojant-kbc

lulzcat - April 29, 2015, 3:47 am

Pretty sure the class is full guys.

creepycreeper - April 29, 2015, 5:06 am

merely from the fact you speak about Python 3.4.3 it's quite safe to assume you aren't really qualified to teach Python. If you were you would know that there aren't any relevant differences in 3.x versions that could beginner meet...

I may be ofc too pessimistic, and you may be great programmer and teacher, but I doubt that...
Apart from that it's quite funny that somebody with no history here who didn't show a single line of code, comes and starts talking about starting a class straight away...

Kroat - May 27, 2015, 9:36 pm

I'm really sorry everyone. A lot of stuff has happened in the past little while. I'm not going to get into details. I'm extremely sorry for the inconvenience and once I get on my feet again I will open the class.

Adelphius - May 30, 2015, 1:21 pm

Do you think it would be possible for you to post the things you do in the class online somewhere for people outside of the class to follow along? I am very interested in getting into python but am also very busy and can't always be there for a class. (+ it looks like the class may be full) I am also going to be using other sources to learn about python but would really enjoy being taught from multiple different teachers with different teaching styles and I think many others would as well.

If not, no worries, I don't want to tell you what to do. Just a suggestion in case you think it is something you would want to do and I think many people could benefit from it.
