Thread: [Changed the info on a crunchyroll account and got a msg back from the person .-.](#)

OG Breezy - April 24, 2015, 2:46 pm

I just need help with additional steps I should take.

I already replied saying that I'm just a minor and that I apologize, got it from my friend who got it from a website, etc. but what else should I do?

The info he mentions only includes the email and the pw I used to edit the account. I already changed the pw to my email, but he states that he got the info from crunchyroll, which is the only thing I have to go on considering I can't login to the crunchyroll account and the fact that he emailed me.

The picture linked below was sent to the same email I used for the account, which he received somehow.

Also if anyone could tell me ways he got my email/if you can really face consequences for doing stuff like this I'd appreciate it.

Don't be scared of this guy. He can't do shit to you.

And crunchroll did not give him your information.

Perfectionist - April 24, 2015, 2:51 pm

He has your info?

Like what lol, did you leave you SSN and phone number in there? xD

Go with option #3; fuck him up

Aw man you are in big trouble, don't be surprised if the feds show up within 1 - 2 days.

Burn your HDD now before it's too late.

Do you know how much trouble you can get it in for using someone else's fucking crunchy roll account? Let me make it clear for you, CrunchyRoll (CR) fits in the same category as CP.

OP, tell that retard to fuck off. He isn't gonna do shit. He's some anime watching nerd, he doesn't have lawyers.

The Judge - April 24, 2015, 2:58 pm

Crunchyroll don't give out info about you lol. Probs got an email changed to: XXX@xxx.xx email.

Changing his infor is a dickmove tho. Just use it and keep everything the same.

Replying to his email might give him your IP. Depending on what email client you use tho.

Raz3r - April 24, 2015, 2:59 pm

Gunner? - April 24, 2015, 3:15 pm

You're a full blown retard for taking his account and then changing the info on it

M.4201 - April 24, 2015, 4:00 pm

Guy can't do anything. So what if he has your IP (probably not) the only thing he would be able to do is use a geo-locator which can be easily off by 10~20 miles.

It's not like he can call the cops and be like "This guy hacked my account his ip is: 127.0.0.1 go do something about it."

Next time you use somebody else his account don't go around changing the info. As long as you can watch your shit it's fine.
