Well, at least you gave me credit for "helping" code it. You LITERALLY just released MY EXACT booter renamed. The ONLY thing that you changed was the rounded fucking buttons on the shell page. Here is a list of my programs if anyone doesn't believe me: The original source (My booter, the one that I coded) - mediafire.com/download/xd9keg95zn38aoh/Shell+Booter.exe

Handy skype tools - mediafire.com/download/hcvj4wk7v1m68ov/Skype+Tools.exe

API Booter (By me also.) - mediafire.com/download/ymh522mp90vrmy5/API+Booter.exe
