About

Laser Generator is a brand new, exclusive web-based account generator that combines beauty, efficiency and ease of use, making it the best new account generator on HF!

Since the generator is brand new, the only available generator as of now is the TeamViewer generator, which generates a unique, 100% real TeamViewer account, most likely with online, connected computers! You can use these accounts to easily and quickly gain clients by uploading your RAT or keylogger, or even using a PPI offer to quickly gain cash! You can easily gain \$5+ per connected computer per account if you use the right methods, it's up to you how much you make!

More account generators will be added in the near future, including Netflix accounts and more!

Note: Buying the 'All Access' package now guarantees that you will gain access to the new generators when they are released.

No refunds unless I feel the need to give one.

Absolutely NO chargebacks will be tolerated. Doing so will result in a revoking of your license.

Yep some of the accounts are the same as teamviewer.ninja is no longer active. However most of the accounts are unique.
