Forum Icon

Sub forum Link

(This link will only work for members of the crew)

<https://hackforums.net/forumdisplay.php?fid=77>

Requirements

- Must be a member of HF for at least 6 months.
- Must have at least 500 posts.
- Must have a warning level below 40%.
- No spamming/low quality posting.
- No flaming of members.
- No Unresolved Deal Disputes.

Anyone who applies must meet the requirements, also do not message me asking can you still apply if you do not meet the requirements above.

There isn't any application layout. Just impress us with your application. Be sure to elaborate on your skills.

Note : Reserving application spots is NOT allowed. Post only when you're ready to submit the final application.

Leaders

[Bull™](#)

[Kill?Muvz](#)

[AnonNinja™](#)

What to do after you apply

1. Do not private message leaders if your application hasn't been reviewed.

2. If you have any questions feel free to PM them to the leaders.
3. Every application will be reviewed, So don't post 2 times.
4. If declined feel free to reapply on the next recruitment.
- 5: Do Not Apply via User CP or you will most likely not be accepted into the group.

Buy-ins for 150\$

MrOrang - April 26, 2015, 2:20 am

Great group to be in, I've been here for 6+ months now and really enjoy it. We're also working on all our little group projects so be sure to put some time into your application.

?homas - April 26, 2015, 2:20 am

Hey guys, this is my short and straight to the point Application for Specialists!

Username : Thomas

Your Profile Link : <https://hackforums.net/member.php?action=profile&uid=2339403>

Age : 14

Country and what is your time zone ? Aussie, GMT+ 10

What are your specialties? : Gaming, Humor, understanding people and much more.

How much time can you dedicate to helping on our helpdesks[b] :

[b]Why do you want to join The group of specialists? : I would love to join Specialists because of the unique quality the group has on HF, and I know it would be very beneficial to join and be apart of what goes on in Specialists.

Why should you be accepted? What makes you different to other applicants? : I am a very hard worker and I also like to have a joke and play around, my personality changes dramatically depending on what situation I am in, such as if something needs to be done I will become "a very hard worker" if everything is laid back and chill I will "have a joke and play around". Thank you for reading my Application Bull :P

Good luck to who ever applies, From what I have seen specialists is a great group.

Tonight - April 26, 2015, 2:22 am

Is it true the lounges in this group are actually 90% in Hindi?

ext6024 - April 26, 2015, 2:22 am

I'd love to apply for this group, hopefully I'll reach 500 posts soon

Bull™ - April 26, 2015, 2:25 am

Age : [b] : 19

Country and what is your time zone ? India , GMT +5.30

What are your specialties? : 1. Excellent Marketing Skills

2. Cracking of all sorts 4years+

3. Avid Learner

4. Faithful,Loyal and Serving for cause

5. In process of learning coding [JAVA]

How much time can you dedicate to helping on our helpdesks[b] : 4 Hours+ a Day

[b]Why do you want to join The group of specialists? : I have so many reasons that I can not jot them down all together. The best one being that it's one of the most respected groups around HF and the name itself suggests, its for the "Specialists".

Why should you be accepted? What makes you different to other applicants? :

I can devote time and my skills for the cause the group. I can mix well in the new environment and stay worthy of it. I have some of my upcoming projects too which I want to be sponsored. With all my dedication and devotion I shall live upto "Specialist". I hope I am taken in :)

P.S. - My Warning level being 40% for blackhat activities. I make it certain it will not rise again in the future.

(Apr 26, 2015 02:25 AM)Bull™ Wrote: [\[CITE\]](#) Maderchod , do you know Hindi ?
Good thing, even google can't translate that :D

Age :
18

Country and what is your time zone ?
Australia, GMT +10

What are your specialties? :

My specialties revolve around online monetization. I am earning the average persons income on autopilot online. I am always trying to bring in more cashflow, and always learning new methods to do so.

I also know how to fix the MYBB code errors in application format :')

How much time can you dedicate to helping on our helpdesks :

I will subscribe to all threads and be as active as possible, I can't guarantee an amount of time I can commit.

Why do you want to join The group of specialists? :

Well the main reason is for the quality it brings to the forum, Specialists is the group I see as Hackforum's most exclusive, and it would be great to become a part of it.

I have talked to some of the other members in different group chats, and I'd like to thin I get along with the most of you.

Regardless of how weird the videos Bull watches are.

Why should you be accepted? What makes you different to other applicants? :

I'm a funny guy, but also have a serious side. I can put my head down into group projects etc. and put in a lot of work ethic, but at the same time I also love a good laugh and talking to other members about random bullshit.

Username : Meow.

Your Profile Link : <https://hackforums.net/member.php?action=profile&uid=1500389>

Age : 16

Country and what is your time zone ? GMT +1

What are your specialties? :

I'm thinking about this and that depends on what this group is based on.I can engage in different discussions and try to give my personal opinions for different Stuff and try to keep it as professional as I can.I have skills in different areas like e-whoring,monetizing,cracking,gaming but I'll choose only the ones that suits this group best.

Mostly White Hat stuff (Malware/virus removal,...),I'm also decent at some games (LoL,CS:GO),HTML/CSS,little bit of VB.NET.

I can bring in good discussion to your lounge. I always found it a nice change from the spam that can be found in vast quantities, and I would be happy to talk with other members about everything from general day to day activities to refunding. I am always free to give other group members advice and help them out with whatever they need.

I also sometimes write HQ tutorials and often giveaway stuff.

How much time can you dedicate to helping on our helpdesks : I have a lot of time in my hands and I will always have time to help anyone. To answer your question I can dedicate 4+ hours to HF/helpdesk(s).

Why do you want to join The group of specialists? : Because I liked it in the first place,your work and members in the group.

Why should you be accepted? What makes you different to other applicants? : Idk,if you think I should be invited then invite me,I will not kiss your ass with how good of a leader are you and other stuff people do to get into groups.

Like stated previously, I want to learn from people and really want to help them out as well. Sometimes unfortunate for me, I come over as a person who has a lot of intelligence and that might be a pro, but also can be the con of people really relying on you and trusting you with the bit of information you give them. I always try to help but not to be the biggest influence in their decision. It is always you and yourself who makes the decision what to do with the information given.

Spoiler ([Click to View](#))

It will take five seconds to add me, and an additional five seconds to remove me if you don't think I'm good to be in specialists.

Also your application code is a bit broken. ?

MrOrang - April 26, 2015, 3:16 am

Just letting you guys know that e-whoring is not considered a skill by the specialists :p

Country and what is your time zone ? USA -5 GMT

What are your specialties? : Programming, GFX, Making money.

How much time can you dedicate to helping on our helpdesks : Depending on the day, 2-5 hours.

Why do you want to join The group of specialists? : Well, I want to be and learn from others who are 'Specialists' hence the name of the group. I want to dedicate my time to something useful. I've been in other groups and I can handle it.

Why should you be accepted? What makes you different to other applicants? : So far on my HF experience, I've been in Null, Nightfall, and Fortune. These groups have taught me so much and I want to extend my knowledge by being in this group, I have the time to dedicate by helping on sub-sections and even learning new things. I have the fee to pay if I get accepted and I'm active.

Thanks for the acceptance Bull :)

+One - April 26, 2015, 5:06 am

Username :

+One

Your Profile Link :

[Profile Link.](#)

Age :

18

Country and what is your time zone ?

GMT +1

What are your specialties? :

My specialties are GFX, marketing, general business managing, developing. I've been doing all of these for years and i think I'm on a level where i specialize those categories, besides that I really enjoy doing what I do. On the business part, it's going great, I make a lot of money form several projects on and off HF. The great thing is I can combine my skills and make things on my own, own thread design, make my own website, market and handle the business and advertise so I actually earn money from things I have made.

How much time can you dedicate to helping on our helpdesks :

I can help like 24/7, the thing is I'm really busy for the next 2 weeks, and after that school is done. I'm very dedicated to things i do, and it would be a pleasure to help other people and make tutorials in different subjects.

Why do you want to join The group of specialists? :

I feel like Specialists is a group filled with only people who knows what they do, and i think this recruitment will kinda destroy that. I hope not. The main reaon I want to join is to be part of a community or group that will help others and each other, also it being full with HQ people, like Bull, Anon Ninja, and Crypto miner. The group is very tiny and I hope I can fit in it.

Why should you be accepted? What makes you different to other applicants? :

I'm very active all the time, either on skype or on the sf, as i said before I will be very active in the helpdesk, I will bring quality to the group, i really enjoy talking to people and start new relationships, create new projects new things, I really enjoy doing business. Other than that, I have some few unique sides.

can vouch, I was in the skype chat - apply sir

Ninja - April 26, 2015, 6:35 am

I am Tyranitar, a programmer and enthusiast. I started programming in Visual Basic about 2 years ago, and in a few weeks I will graduate from high school and study programming. I enjoy programming and I see myself programming in the future. I already do some freelance programming work in my spare time, and I make around \$500 a month with 2 or 3 projects a month, usually bots and such. I never advertised any of my products here on Hackforums really as the offers I get make me laugh and it is not worth while for me. I usually get approached by private clients and such. I can show most of my projects on TeamViewer if you are interested. Also, I am always prepared to help people, and I always stick by the rules and let people know in a friendly way through PMing if they broke a rule by posting a thread or such. I strive to become a beloved member of this forums and to help make it a better place than it already is. I hardly ever nag about anything on this forums and never lose my temper nor swear at anyone; I am 18 years old and try to act like it.

This is as much information about me that I can think off. If I get accepted in the group I will do my best to contribute by releasing more source codes and tutorials and such and I will offer help to anyone that asks. Please PM me if I get accepted or not (kindly add the reason why (not)). Cheers.

Dean Winchester? - April 26, 2015, 7:55 am

the real question here is why would i take the time to apply to a group that i know nothing about, apart from the group description and amount of members?

convince me OP i'm pretty cool so you're missing out

Juicy - April 26, 2015, 7:58 am

Hey my name is Jake, and I have been a member of HF for about 4 years now. I am not going to spend too much time making a fancy application, as that is honestly just a waste of time as what really matters is the content. The extent of my specialties are not as much online as they are real life skills, but I am working on this. I am not good with coding, designing, or hacking. However, I am good with marketing. I know a bunch of members will say the same thing, but I have been selling things online since I joined in 2011. I am also great with investment advice, and I have been putting my money away in stocks since I was 15. Obviously I haven't done this all myself, I have had advice from my dads financial advisers. For this upcoming summer, I was offered an internship with an investment banker, as this is the field I will be going into in college. I am not some God marketer like Sonex, but I certainly am learning. I believe I would make a great addition to the group because I am easy to get along with, online all the time, and always willing to learn.

Thank you for reading.

NieR - April 26, 2015, 7:59 am

Specialty: Video Editing

What can you provide to the group?: Activity, dedication, and a fun attitude.

Why do you want to join?: I've had an interest in this group since I came back to HF, I've been wanting to join a group that has serious endeavors about helping HF (I've seen some of Specialists helpdesks) and I think by joining I can learn and help at the same time.

Here's an example of my work, when Vinnie was leader he had asked me to make this to be accepted into Specialists but I had taken a vacation ban for a month.

What i think i can contribute - In my time on hack forums, i have learnt a variety of things and some of my most prized specialities, due to how much they are present in my life now, are gaming, as nightfall has been a great home for me to both talk to people who have a passion which equals my own along with providing me with a place in which i can share my thoughts and ideas on gaming and both receive it back. And if accepted, i would then be able to pass on what i have learnt and take part in discussions with the knowledge of my own and hopefully expand it in this group, I know that isn't alot to bring to the group but as your group says, they are the best at what they do and that is exactly what can help me not only improve but to teach people myself as i learn from the best. Another speciality of mine i would say, is graphics, over the course of my time on HF it has allowed me to develop my skills into something i can call a skill, and i not only think that as i stay longer and get more active but that specialists can bring my full potential out. And a skill which i think is rare on hackforums is video making, i have a passion for it and would love to share it with the specialists. <https://www.youtube.com/watch?v=wZmPx8MDPts> - some of my videos.

Why this group? Well simply, your group offers something unique and not present with current groups, you have a focus on what your want to do and you are heading in that direction, and not to mention, your group has a great reputation, also because i would like to talk to some of the finest of each role within hack forums.

Availability - 15 + Hours everyday, and i would be willing to take part in anything should the group need me to.

What makes me different - Well, in terms of skill i don't have much which would put me ahead of others, but i do have a determination and passion which could rival those of which have applied. As this is why i am applying now, because i have that hunger to learn, and i know that specialists is the place where it can happen, and so am taking this opportunity to show you all what i can offer even if small. Because you wont get no where if you don't try. That is what i follow.

Bull™ - April 26, 2015, 8:12 am

We are still looking for members. Feel free to apply if you think you're worthy of being a member of Specialists.

What Am I Good In: Html , Css , Java And Learning Python

How much time i can dedicate on the help desk: 8+ Hours in a single day.

Why do i want to join Specialists: I feel i must join because i have very good talent in helping people, i am a HQ member, i am very active on Hackforums, i have great potential, i feel i can help the group in a very nice way, i want to be a very HQ member of Specialists.

I hope i'm accepted as a member of this respectable group, i promise to be HQ, and help as many people as i can and go out of the way to help if necessary.

Thank you.

The GRim - April 26, 2015, 8:36 am

One of the few HQ groups in the forum but I dislike majority of the members.

Good luck with recruitment.

+One - April 26, 2015, 8:52 am

I have so much respect for Bull, he is a great leader, apply while you still can, this offer is very rare. Thanks for making this thread Bull, making it possible for everyone to join. Cheers ?

Country and what is your time zone ?

Canada, EST

What are your specialties? :

I specialize in social media and marketing products. I ran a social media business matched by no other selling to Olympic athletes, TV show celebrity's and professional athletes. I am currently learning proper SEO and will be launching a new social media service soon [Not like every other].

How much time can you dedicate to helping on our helpdesks :

Basically the whole time im online which is 8+ hours as i work online.

Why do you want to join The group of specialists? :

Seem's like on of the only real exclusive groups that doesn't just let anyone in, knowing this, I know my chances but It doesn't hurt to try.

I also think bull is hilarious.

Why should you be accepted? What makes you different to other applicants? :

I can go from straight shit joking around posting to serious when there is a time for it, I am a laid back guy and easy to be friends with.

Hello Kitty The Java Specialist

Your Profile Link

Click [here](#).

Age:

18

Country and what is your time zone?

USA, PST-8:00

What are your specialties?

I'm a specialist in Java programming, I have 7+ years of project experience.

How much time can you dedicate to helping on our helpdesks?

I will be as active as possible in the helpdesks. I'm willing to put as much time as possible into the helpdesks. I have only 30 days left of highschool. Then I will have a lot of free time to help during the summer. I would also benefit helping out, because I'm a problem solver by nature. It makes me happy to help users, especially members on HF. It would be my pleasure to assist as many members as possible.

Why do you want to join The group of specialists?

I want to join this group, because I've heard a lot of great things about it. I believe that this group specifically could most benefit from my skill set. I'm very computer savvy and I'm a troubleshooter at

heart. I could use my skills to make software for the group. I'm also a very good at making graphics and webdesign. You can often find me helping out HF members in the graphic section.

Why should you be accepted? What makes you different to other applicants?

I'm a very fun guy and I love to help others. I know that I am a good fit for this group, because I am indeed a specialist in Java Programming. With more then 7 years of experience there's really not much competition. I also think differently from the majority of members on this forums. I like to think outside the box and have deep discussion about life, religion, computers, and relationships. I'm very open minded to new ideas, but I'm also very skeptical. I have lots of experience working in groups too and I enjoy doing projects with others.

Xepher The Cat - April 26, 2015, 10:21 am

By the way, the 2 leaders besides yourself are the same person according to redirect. I only see KillaMuvz or whatever his name is.

What are your specialties?: My specializations are marketing, social engineering and might not be a skill/speciality to some but online forensics. I consider these specialties to be necessary to be able to survive in life and not become apart of the system but be above it.

How much time can you dedicate to helping on our helpdesks: About 8 hours a day if necessary

Why do you want to join The group of specialists?: If you are one of HF's most finest why not join others that contain the same level of quality and thus become better by teaching and learning from eachother in an exclusive group. And some friends of mine are in the group as well, which increases my alacrity to join the group.

Why should you be accepted? What makes you different to other applicants?: I can bring and maintain quality for the group with both a serious and a funny side. I am willing to work for projects which is beneficial for not only me but others in the group.

Nex+ - April 26, 2015, 6:44 pm

[img]http://##/O3BFIB.png[/img]

What skill-set(s) do you have to offer?:

Marketing

Coding

Malware Analysis

Overall well-being to members

How can your skill-set(s) benefit our group?:

I am willing to help the group as much as I can. I can create some tutorials, as well as to do 1 on 1 training with those who need help earning money online or coding help. I can participate in giveaways with the groups name, make some marketing threads with the groups name, as well as help members find new niches to monetize them to the fullest potential. I can also do some giveaways with my software to help spread the name of the group. I can take on some members and mentor them in whatever they need more skills in that I am capable of helping with.

Any proof of latest projects/work:

[Galaxy Keylogger & Stealer](#)

[Galaxy Crypter](#)

Why should we choose you?:

I believe that I should be accepted into the group because I know the ropes. I have learned a new things as time goes on about marketing. I started from the bottom when I joined hackforums, starting off with Social Media, I owned a panel and would offer services to make my way up. As I got more and more money I would invest it into new projects. I learned the ropes the hard way as most people fucked me over for money, especially 80% of the ebook sellers. I found a niche and made a nice hunk of change on ebay when I was a seller on there. After making hundreds with my new niche I decided to invest in software. This is where I found my most success in marketing. It has been a long year since I started marketing, but my success shows the hard work I have put in. I am willing to put that same hard work into this group to help the members in need, like I once was. I have marketed many things, such as stresses, keyloggers, rats, ebooks, webhosting, crypters, and the whole nine yards. Being in such a high quality group like Specialists will only help me expand my knowledge even more, allowing me to help and educate the others to make money online, learn some coding, and have some knowledge regarding malware and encryption.

? ?Shiro - April 26, 2015, 6:45 pm

Application time

Hi IM shiro ill start with what im good at and things that I have an interest in.

Video games, love video games and anything to do with them, League, CS:GO, cod. This throughout time has lead me to try and make money in those games, weather it be video editing betting, ect.. I guess recently my most impressive feat was csgo I was a skin shop owner, and I had over 7k items in skins. All from csgo jackpot on that site i had a total earnings of 21k. I love anime, Im also huge into networking this includes routers and switches. Im decent with Linux machines. Im

active on hf and will be in the group im always willing to help people out if they need it, and im always looking for ways to make \$, im big into gambling. Not sure I have much else im not the most impressive person but I try.

What are your specialties? :

My specialties include online marketing, game sever developing (specifically, CSGO) and without a doubt learning. I am always keen to learn new and things, and am very fast in adapting to them. In regards to online marketing, I am constantly identifying new ways to make money, and put them to effect which increases my income.

How much time can you dedicate to helping on our helpdesks :

Pretty frequently throughout the day (few hours).

Why do you want to join The group of specialists? :

I want to join Specialists as I want to contribute to a group and without a doubt, learn from it. To add, I basically want to contribute to the quality that Specialists brings to HackForums, in whichever and every way I possibly can.

Why should you be accepted? What makes you different to other applicants? :

I have very broad skill-set, which ranges from gaming, to marketing, to learning etc etc. I also have a pretty small knowledge of other topics, but won't bother mentioning them as they are minor skills.

I am a very friendly guy, and am very serious when I need to be. I can see myself getting along with everyone in the group with no problems.

Hello Kitty The Java Specialist

Your Profile Link

Click [here](#).

Age:

18

Country and what is your time zone?

USA, PST-8:00

What are your specialties?

I'm a specialist in Java programming, I have 7+ years of project experience.

How much time can you dedicate to helping on our helpdesks?

I will be as active as possible in the helpdesks. I'm willing to put as much time as possible into the helpdesks. I have only 30 days left of highschool. Then I will have a lot of free time to help during the summer. I would also benefit helping out, because I'm a problem solver by nature. It makes me happy to help users, especially members on HF. It would be my pleasure to assist as many members as possible.

Why do you want to join The group of specialists?

I want to join this group, because I've heard a lot of great things about it. I believe that this group specifically could most benefit from my skill set. I'm very computer savvy and I'm a troubleshooter at heart. I could use my skills to make software for the group. I'm also a very good at making graphics and webdesign. You can often find me helping out HF members in the graphic section.

Why should you be accepted? What makes you different to other applicants?

I'm a very fun guy and I love to help others. I know that I am a good fit for this group, because I am indeed a specialist in Java Programming. With more then 7 years of experience there's really not much competition. I also think differently from the majority of members on this forums. I like to think outside the box and have deep discussion about life, religion, computers, and relationships. I'm very open minded to new ideas, but I'm also very skeptical. I have lots of experience working in groups too and I enjoy doing projects with others.

You are accepted into the group.

Zink - April 27, 2015, 11:12 pm

Name : DoctorSheep

Profile Link : hackforums.net/member.php?action=profile&uid=1844751

Age :17

Preferred Communication Skype or Teamspeak

Basic Skills :

Marketing/Buisness

Graphic Design

Networking

VFX

Learning C++ VB.NET

What are your specialties? :

During the time, the first thing I wanted to work on was Graphic Design, so I spent almost the entire summer & Holidays working on it.

I opened up several services in creating Signatures, Avatars or Logos for any member that post their request on the Thread. Opening the service, helped me get better and being able to achieve obstacles I never would expect I could reach.

Learning Graphic Design not only helped me in all my personal assignments I needed to get done on advertisements of my products, but also helped me save money instead of wasting it on average designers on HF.

Graphics Service

<https://hackforums.net/showthread.php?tid=3986465>

<https://hackforums.net/showthread.php?tid=4208314>

I am also great in Online Monetizing. At first I was still learning from basic methods that were in purchased ebooks. I know it was a waste of money, but you are still able to learn a few things about the economy and the way PPD, PPC, EWhoring, and several others work in order to make money by yourself.

After a while, I wanted to try something new and thought of several ways to making money. Opened up new products, services, & made new friends that were able to help me increase my variety in making money online. In order to make money, you got to be willing to spend money was my motto.

I can imagine how many investments I have made, but they all been a successful risk that I do not regret making. Learning through your experience is a better teacher.

How much time can you dedicate to helping on our helpdesks?: I'm not going to lie and say 24/7.

Depends, During the weekdays I can be on randomly after school, but I can at least put in 1-2 hours then on the weekends it can be more if needed.

Why do you want to join The group of specialists? : Honestly, I want to be able to know what takes place in the group. The activities in the group, the communication between members of the group & to know how far ahead the group is when it comes to working together. I hear a lot of positives things about Specialist, I hear few comments about specialist. I want to see for myself and hope it's a great group to be a part of. Plus I am a Sheep of many talents that should be in a Specialist class group.

J. Lewis - April 28, 2015, 12:53 am

Username : J. Lewis

Your Profile Link : Click [here](#) to visit it.

Age: 23

What are your specialties?: Graphic Design ~ Including drawing, painting (mostly abstract art, mostly looking up to Picasso). Graphics Design includes logo designs, full branding services, thread designs, shirt designs and all Youtube and Twitch as well as Hackforums graphics.

How much time can you dedicate to helping on our helpdesks : I rarely check other sections than GCGD, FGR and Graphics Market so I'm sure I will be able to help in any helpdesks when I'm online, so that means about 3-4 hours per day.

Why do you want to join The group of specialists? : I have a feeling I could contribute to this group

as a graphic designer, because to be honest, you don't see much designers joining groups these days. I could contribute people of Specialists with very cheap branding service for their products even including logos and I could open a graphics helpdesk and be very active in it.

Why should you be accepted? What makes you different to other applicants? : I think my most precious virtues are generosity and helping nature. I have made over 30+ free designs in FGR section and even gave money FOR FREE to people who needed it. Here are some proofs:
<https://hackforums.net/showthread.php?tid=4719686&pid=45869886#pid45869886>
<https://hackforums.net/showthread.php?tid=4786780&pid=45790062#pid45790062> (PM him for proof)
<https://hackforums.net/showthread.php?tid=4794896&pid=45870978#pid45870978>

I could have sworn my rapping skills would get me in.

Cory™ - April 28, 2015, 7:54 pm

[img]http://#/O3BFIB.png[/img]

Name: Cory

Username: GEazy

Country/Timezone: United States/EST

Age: 15

About me:

Hello, my name is Cory also known as GEazy here on Hackforums. I am a very HQ and active user with many useful skills especially marketing. I am only 15 which makes me the youngest marketer on Hackforums. I am a very friendly guy that likes to have fun and meet new people. I have been a member of Hackforums since 2013. I love gaming, skateboarding, video making/editing and making money :)

What skills will you bring to the group?

I have skills in many things that I can contribute to Specialists. First, I am great at marketing and making money online. I have been on many forums and websites ever since I was 13 years old, creating products and finding ways to make money and I have become very successful. I can help many Specialists members by teaching them the ways around marketing and making money online. I have a couple products and services on Hackforums which have made me a decent amount of money such as my Account Generator. It has been open for only 3 weeks and I have over \$1,500 in revenue already because I know how to advertise my product and run business online. I also have my Social Bot which I just released last night and I already have over \$200 in revenue!

Second, I am great with social media. I have a couple large Twitter and Instagram niches that I am building up and I would love to share my knowledge with other Specialists members. I also had my Tweetdeck RT service which built up many Twitter accounts. I also have a decently successful gaming Youtube channel that I have been working on for almost 3 years!

Why Should I Be Accepted?

I should be accepted into Specialists because I am a very active and HQ member here on Hackforums with many skills. I am a Specialist at what I do and I can definitely help many members in Specialists with the skills I listed above and even more! I will be very active in the sub-forum and I think it would be a great experience joining a great group like Specialists. I am willing to do anything to help out the group such as marketing products for members or sharing my skills to others.

Latest Projects And Products:

[Account Supplier](#)

[Social Bot](#)

[Fiverr Firestorm](#)

[Tweetdeck RT Service](#)

Thank you for reading my application and have a great day! This application took me a lot of time and effort and I hope to talk to you soon :)

???Senpai - April 29, 2015, 10:01 am

Username: [Senpai](#)

About me:

Hello, my name is Senpai, I've been on HF since October 2013. For the most part, I've been living in the VFX and GFX sections. I'm 17 years old. I live in Europ and speak three languages. On my spare time, I play PSP Paintball. I'm on a professional team in my country.

Skills:

I know my way around Photoshop, Illustrator, Adobe After Effects, Sony Vegas, GIMP and C3D. I've been doing graphic design for about two years now.

Why would you choose me

I think that you should choose me because I am a very outgoing and active person, I have respect and I am mature. If I were to be accepted into Specialists I would not disappoint, I would be extremely active in the SF and I would above all; be respectful to my fellow members.

How can I contribute to the group:

Being active in the SF goes without saying, but I would also be able to help the members with any GFX or VFX related problems, any questions regarding fitness (as I used to work as a personal trainer) and or relationship problems. I want people to know I am always there for the people in need. Now, I know this makes it sound like I'm applying for Unicef or something, but I just wanted it to be clear and straightforward.

Anything else you would like to add?

I would like to add that I've been waiting for specialists to open a recruitment thread as I have for a while now, wanted to be in the group. It would make me extremely pleased to be invited into this HQ group.

Thank you for taking the time to read my application, and I wish all the other applicants the best of luck!

Kody?? - April 29, 2015, 10:10 am

if you want activity in the sf, i can help with that.

thats my app, im not going to tryhard.

Prince™ - April 29, 2015, 10:39 pm

[img]http://#/O3BFIB.png[/img]

Name Prince™

Age: 22

Country/State: India

Profile Link: <https://hackforums.net/member.php?action=profile&uid=903914>

Your Specialties?

I'm a fan of Gaming, Online Monetization, Networking. I've been earning a decent amount of money during the days when PPD ruled the Internet. So, I have my experience. Lately, I went into gaming. Although, I'm looking for an opportunity to hit back some monetization or anything that would earn me some bucks.

Reason you'd like to join:

I believe Specialists is a HQ group that has some unique specialist people themselves who not only represents the group's HQ but also they add quality to the forum themselves. So, I'd like to meet, form as a family with the specialists of such an HQ group and lead myself in the same way the group does as well.

Anything else?

Yup, I hope peace hits Nepal soon. They've been through a lot for the past few days. Let's pray for them!

Tyler The Creator. - April 29, 2015, 10:58 pm

Name: Hawaii

Age:15

Country/Sate:USA

Profile link: <https://hackforums.net/member.php?action=profile&uid=2086189>

Your specialties: Well o know how to rat this was the first thing I learned and later I learned how to SQL inject websites manually and moved on to kali to know how to do more advanced things like defacing , later I learned how to dox and how to code in batch after that I learned how to bruteforce rdps and a few accounts and how to use and make a booter off a vps and later learned to make websites thus I helped some friends with a website which I am an owner of (aquahosting.net) and thus it brings us to now in which I am learning vb,Java and don't forget c++.

Reason you'd like to join:

I'd like to join this group because I feel like within this group I can gain more knowledge and more skill and expand my knowledge throughout.

Anything else?:

Well I hope I get in this group seems to have some talented individuals and I hope to part of those individuals.

- (Experienced) Computer hardware/upgrade

As I always seem to have free time, I feel that I am able to contribute more to the community, rather than just browsing around and helping where I am able to. Therefore I would be more than pleased to be a part of Specialists. But let me begin with an introduction about myself.

I'm a seventeen year old boy from India, but I live in Norway. I am studying application developer, pretty much just creating, coding and designing websites. I am currently studying HTML, PHP, CSS and in my next school year I will be studying Java - and much more. I've spent most of my spare time browsing the forums and programming websites. Of course, I do have a job besides it. Luckily my job is not taking much time and I can continue my daily routine. I think this is one of the main reasons of why I am useful and a good additional in Specialists.

My positive skillset and qualities

My good skills and properties are that I am polite to everybody. Luckily I am never angry, not to anyone. Most of the time, I just laugh at the situation and step aside from it. I am also willing to help where I can help, such as guiding new community members, give them some information, tips and so on.

Another good quality of mine is my ability to remain impartial when decision making, when I take up a role, I take pride in making choices I believe to be right and that are by the book, I have an attention to detail and want what's best for the group. I have a passion for programming and creating projects and feel I'm an approachable person when it comes to asking for help. I would say I'm consistent in my ability to perform in a group position and more involved in leading by a good example in terms of rules, good forum etiquette and being somebody who is friendly and approachable.

Negative sides of me

I do have one down-point, which is that I am disinterested fast. I want to do something. I can not just sit on a chair doing nothing, which I actually am doing in-real life. If you assign me a job to do, I will do it. To go in further on that, I am always doing my job as best I can. If I do something wrong, tell me, and I will correct it. As I wrote above, I am a quick learner and I do in fact learn from my mistakes. Not everybody does that.

Another negative side of me is that I can be confrontational if I don't have a resource to vent on. If I wasn't trying to keep myself calm and cool, I more than likely would've went hey-wire on that person, but I had someone to vent out my frustration on and that person made me feel better. After all these years in lead positions, it is something I'm getting very used to very fast and it's not exactly the most evident anymore.

My experience

I believe that I am dedicated yet not ignorant. For example, if someone feels a certain way about a situation, I'll allow them to explain whatever they're thinking and value their opinion. Though I am stable with my own beliefs, I'm extremely open-minded--a branch off of tolerance which is always a good thing for a member of Specialists to have. As far as the dedication goes, it even expands out to tasks. If someone tells me to do something or even asks politely, I can do it without a problem and stick to that task until it's complete to one's satisfaction. This may sound nerdy, but I love to help out and do everything or anything I can. I believe that I'm extremely professional. I try to keep a calm and cool persona active at all times and I avoid most if not all arguments on the Internet. From the times I've been involved in an argument, I've managed to either push it aside or just let the other person dwell with whatever gratification they get from "winning" said argument. If I know I'm right about something, I trust myself, and I don't let that interfere with my professionalism.

I also don't let my gender get in the way of my judgement. Not only my gender, but my relationships. I feel as though I shouldn't even have to say this but I'm sure people are thinking it. I'm easy to communicate with and I can easily make people comfortable around me. This even goes as far as to have some people maybe...disclose a little too much about themselves to me regarding their personal life after a short time of knowing me which, as a very trustworthy person, I don't have a problem with, but it goes to show you. Because people are often comfortable around me, they tell me more or trust me more or befriend me and that kind of positive connection in the community (even if it's because of my gender) is always better than a circle of negativity!

I am, in my own eyes, a responsible person. I accept the punishment for my reprehensible actions and I will acquiesce it if I made a wrong move. This is something not everybody does. Further into that again, I will accomplish whatever I have to achieve, especially if I have started doing it. I do not mind to spend some extra time on getting it accomplished, as long as I get it finished. My most defined personality trait is probably my hyperactivity as far as verbal interactions go. On Skype calls or in Teamspeak, I tend to loosen up around people I'm comfortable with; I laugh, I tell jokes, I talk loud and fast and I ultimately sacrifice a bit of professionalism in order to have a good time. It's something I'm toning down but it's still present. You can say that I am a fairly hard worker.

Everything in a nutshell:

- I am active and willing to contribute.
- I am coding HTML, PHP and CSS.
- I am a quick learner.
- I have a fair amount of spare time.
- I will do whatever I am told to do.
- I will put one hundred percent of effort in everything I am doing and everything I am going to do.

Enforc3r - May 1, 2015, 3:12 pm

I don't have 500 posts and I won't try get another 450 posts to apply because they will be low quality

posts. I don't have ub3r or even l33t because I don't believe in paying for a promotion or rank. I won't do a pretty application because you will most likely judge 70% of it on looks.

Age: As bad as asking someone their race.

Skills: Bull, you will know I have learned fast. "like I said, you're smart but not that smart"

I am knowledgeable and don't punt BS - I am a specialist in my own way. If I am somehow accepted don't expect me to vouch for products or rep users on request. I would be happy to review or advise on things I have knowledge on.

I am a terrible salesman but I know formations and work on analysis and forming trends among other things.

Xete - May 1, 2015, 5:22 pm

Xete's Application

You should accept me because i am WAAAY to active on HF
Not that many posts but i am on HF ALL day looking around.
I love giving back to the community

And i really hope this beautiful thing will be mine soon ?

What experience do you have?: I am mostly into CSGO Cheating and account cracking

Do you have any professional experience?: Me and my friend is soon gonna release a CSGO Cheat, people sometimes hates me for being too positive ?

How much time can you dedicate to helping in your sector on a weekly basis?: Probaly around 4-5 Hours, not sure.. But most likely

Why do you want to join this sector?: Because i am interested in this project and i think it sounds cool! Always wanna try new stuff, and i wanna help and get helped!

What can you bring to the sector?: I can help people, and i am always positive

What are your specialties?: CSGO cheating, video editing and being positive

Why should you be accepted? What makes you different to others?: Well, i dont think iam diffrent from others... I wanna learn something new and contribute to this group! But i will always try my best to stay positive and help of course!

[img]http://x.hackforums.net//images/modern_bl/groupimages/english/specialists.png[/img]

Username: Himmayn

Age: 18

Profile link: <https://hackforums.net/member.php?action=profile&uid=2033591>

Location: Scandinavia

Your Specialties?I have a grade in Vocational Qualification in Business Information Technology

Operatingsystem knowledge, especially in Windows and Windows 2008 servers

Gaming and gaming gear: started playing counter-strike whe i was 11 and got maybe too much knowledge on that aspect xD

Computer Hardware (not too expert)

Databases and other server managment

Basics of few coding languages, c++, HTML and php

I had best grade in documentation so that can be useful as well, i guess

Almost forgot lol, I can also do pretty nice work with photoshop and sonyvegas, not a expert but can do pretty advanced stuff.

Many more information specialties which arent too important but can be useful

How much time could you dedicate towards the group?

I use most of my time on internet and you can guess already that most of that time goes in Hackforums

and if i would get opportunity in group like this i would be more than glad to use my time on it, so except much love ;)

Tell briefly about yourself.

I am a pretty normal guy who likes to spend time online doing various things like using Hackforums on daily bases.

people tell me that im nice person but im not so sure why is that, maybe cause i understand others and try to help if i can.

I could even call myself a "perfectionist" cause i see always these little issues on myself or on my setup and i always try to improve and be better,

this habit mostly comes from counter-strike cause i wanna be the best and im always looking something where to improve.

I think this aspect is nice but sometimes bit annoying.

What can you bring to this group?

I can bring positive mood, information, help and try to forward my skill and mind set to the group. even if i dont get picked to this group you can feel free to pm me, if you got any questions, i dont mind helping out if i can :3

Why should you be accepted? What makes you different to others?

I should be accepted to this group because i can bring professionalism and many more things to you which i have listed above,

its hard to prove anything with text but i can tell that by accepting me you wouldnt be disappointed also this could be my first group and maybe even last one, i like to stick with things which i like ;)

group name is specialist and im some what special and different from others, i have this passive style usually but still focused on important things and ready to teach and learn.

MrOrang - May 2, 2015, 11:03 pm

We'll be going through the apps shortly, and to those unserious apps just please do not even post.

Matt AH - May 2, 2015, 11:05 pm

Huge vouch for this group. I used to be in it and it was nothing but professional. One of the better groups I've joined.

Extensive experience in marketing

-Studied marketing in college

-Former co-leader of The Marketers

Skilled VB.NET Coder

<https://hackforums.net/showthread.php?tid=3438753>

-Coded the above tool, co-ran it with Codevade, 22 pages of satisfied customers.

<https://hackforums.net/showthread.php?tid=3530319>

-Custom coded my VPN client, not OpenVPN, managed my VPN project which included providing amazing customer support (IMO)

Highly skilled systems administrator & network manager

-Managed multiple web-hosting projects

-Skilled in server administration, Linux & Windows

I consider myself a jack of all trades, there isn't much in the I.T. world I haven't done.

o??ervan? - May 5, 2015, 8:15 am

I would like to be part of this group because it attracted my attention in the first place. I have seen so many groups and this is a group I have stickied for myself. This group is considered as a top-tier group and obviously a group that fits me. I'm a person that likes to share his knowledge (though I don't have that much..) to others. Helping others is something I have done for years. (Not that I'm a psychologist but w/e). Outside that, I just play games with friends and open Photoshop once in a hour to try something out by following tutorials.

That's me.

That is correct, because the section is basically dead. I only program on request usually so I don't have much source that I can release here. If you want a (double) linked list without memory leaks just use Google. Tons of source there if you want.

(May 5, 2015 09:20 PM)Bull™ Wrote: [\[CITE\]](#) Accepted, apply via userCP and you'll be added into Specialists.

I don't want to be rude or a nag, but can you tell me why you defined my as a learner and not a specialist? I can code those things Andrew Downsend coded with my eyes closed in 10 seconds (VPNs are too easy. Stressers are a joke.).

?

So have I, and I also manage scripts and servers and such. I partnered with Abhijeet a while back and sold Battlepirate hacks which made me around \$500 per month (I got a %40 cut). I have made a RAT before and sold it privately and thus had to keep it updated and FUD regularly and help with server setups and of course do customer support. I have been in this game for years as well. Not trying to bash on your accomplishments or make them look like nothing, because they are not, and I give you props for that. Just want to let you know I can do that too.

Cory™ - May 6, 2015, 7:01 pm

Updated my thread a bit on page 8 :)

Thornzzz - May 6, 2015, 7:02 pm

About Me

My name is Will, I'm a 17 year old High School student from the US. I'm fluent with the English language. I'm sure you don't give a fuck about my personal life so I'm not really going to mention it. I've been on HF for about 2 Years.

What do I Specialize In?

I'm not going to be the guy to talk about E-Whoring. Well, I'd say I Specialize in Advertising products and I've sold a couple products on HF before, but my most successful would be my [Minecraft Alt Shop](#) which I held in the name of the group Infamous. I sold over 2,000 alts and still get PM's to this day about them. I've also taken classes with Java coding use Minecraft to learn it at [Villanova university](#). Here's my diploma Spoiler [\(Click to View\)](#) of course my last name is blurred out. I'm also skilled in the Java Language.

Feel free to apply if you think you're worthy of being a member of Specialists.

@ Fortune memebers : Please don't waste your time to be apply for the Specialists since all fortune members are blacklisted

haydrazs - May 7, 2015, 6:11 pm

Specialists is really worth joining, met some great people and I've actually learnt stuff too.

Kung Fu Kenny - May 7, 2015, 8:13 pm

Tyler The Creator's application.

Name:

Tyler/Tom

Age:

17

Country:

United States

What I enjoy:

I enjoy advertisement design and economics. I am currently looking into going for a double major in both accounting and graphic design as soon as I get into college.

What I can offer to the group:

I can do free designs to the members in Specialists, I can help people with money situations, and I can be there for someone to just talk to if need be.

My accomplishments:

I won a \$20,000 scholarship from H&R Block's budget challenge, I have made a few thousand dollars online (graphics, personal methods, etc).

Why I want to join Specialists:

I believe that if I joined that I would learn a ton of things I would initially have little interest in. I love learning new and interesting things. All your members seem very knowledgeable and trustworthy.

A little bit about me:

I am a 17 year old high school student currently in my junior year of school. I have won scholarships and have already completed all my English courses that I would originally need to take in college. I was able to do so due to a dual enrollment program available at my school for students who do well in their classes. I really enjoy talking about science and religion because you always hear new opinions and it just really interests me to the point where I keep wanting to learn more and more. I also enjoy meeting new people as well as sate and play some video games with friends when I have free time.

Thank you for reading my application, have a nice day/night.

-Tyler/Tom ?

Enronitis - May 7, 2015, 8:59 pm

Apply while you can.

Fantastic group, been here for a long time.

As a side note to applicants: Don't just say "I'm a good marketer"
PROVE IT. Give us some examples of products you've sold or anything else that shows you're skilled. Simply saying you're a good marketer, isn't very good marketing.

Viktory - May 8, 2015, 2:23 am

Sorry I'm not big on eye candy. Use your imagination, it's the best graphic card you can get =]

What do I specialize in: I specialize in the fields of website security penetration, and cryptography. Still much more for me to learn (I'm in Elusive as a beginner), but I'd say I'm better than the average HF joe.

About myself: I'm 16, and I'm from India.

What can I contribute to the group?: I'm willing to help out other members out with anything I know about. Have a ciphertext you can't understand or you're looking to learn more about website hacking? You can talk to me.

Why am I applying?: I'm applying so I can find more like minded people and expand and spread knowledge.

Thank you for reading!

Raz3r - May 8, 2015, 4:43 am

Raz3r's Application

Name: Raz3r

[img]http://#/O3BFIB.png[/img]

Profile Link: <https://hackforums.net/member.php?action=profile&uid=2524964>

Age:15

Country USA

What Am I Good In:

Web forensics

Malware removal

SST work.

Minimal SQLi knowledge (learning)

Account recovery

Help Desk Hours: Easily 5 hours a day.

Why do i want to join Specialists: I believe that I'm skilled in certain sections and would make a great addition to the group. I'm an overall easy going person, I can have a laugh but I know when to work.

I posted my app last night, I got up this morning and noticed a typo.
I then removed the post before anyone noticed, then fixed & replaced it.

(May 8, 2015 02:54 PM)Raz3r Wrote: [\[CITE\]](#) I was on an iPhone, It's hard to look through all the text on a small screen.

I use my iphone 24/7 ever since my computer has broken, I get little time to use my moms computer at all.

If you would like to discuss further dont do it on this thread, it is bad enough we are spamming it. Just pm me if need be. Sorry Bull.

DigitalDesire - May 9, 2015, 9:05 am

Spoiler ([Click to View](#))I'm terrible with graphics and design, so this application is going to look horrible

Hey, I'm DigitalDesire. My specialty is pretty much everything involving high quality audio, although I have a big preference towards headphones. I either own, or have used nearly every moderate to well-known monitor, amp, PSU, DAC, headphones, and IEMS. As a self-proclaimed audiophile, and owner of a high-fi audio store, I can contribute quite a vast amount of knowledge on the subject, as well as my opinions and experiences with specific equipment.

Bull™ - May 10, 2015, 5:53 pm

We are still looking for members. Feel free to apply if you think you're worthy of being a member of Specialists.

Business - May 12, 2015, 4:18 am

Username : ?usiness

Your Profile Link : <https://hackforums.net/member.php?action=profile&uid=1705027>

Age : : Will share privately.

Country and what is your time zone ? US, Central.

What are your specialties? :

#1: I am basically the only "RAT Expert" award receiver left that is active. I think that I perfectly fit the idea of the Specialists group. I am one of the most prominent users that frequents the RAT section.

#2: I am excellent with marketing and online monetizing. I have been in other groups in the past such as Illuminati and Innovation. I have been hired by several users to promote their products, and they will all tell you how much sales rise after I start.

How much time can you dedicate to helping on our helpdesks?

6-9 Hours a Day

I think that your group description encompasses who I am here on Hack Forums. I am know as the guy from the RAT section by most of you, which means I am already a specialist in a way. I chose to specialize in RATs, online monetization and marketing because I have always had a passion for it

and Hack Forums offers me a great outlet to practice my skills.

Why should you be accepted? What makes you different to other applicants?:

I am a very active user. I can assist with helpdesks usually around nine hours a day. There may be a day or two per week where I can only do 6-7, but that is still a fair amount. I have already proven that I can man a helpdesk for extended amounts of time. I have one of the, if not the most, [successful RAT helpdesk](#) on all of Hack Forums. I am a very social person, and I would have a lot of talent and enthusiasm to bring into the group. I also know quite a lot about art and literature. Thanks for reading my application, if you have any questions feel free to PM me.

Mad76e - May 12, 2015, 3:20 pm

Mad76es application

Something about me

My namne is Mad76e and i live in Sweden. Im married and i have 2 kids (and the third on its way). I live in a small town in soutern Sweden and im 35+ old. Im currently unemployed at the moment. I started with hacking sometime in the 90:s and have done this on and off during the years. it first started with cracking and then advanced from there to hacking.

So whats so damn special about me

my "home" here at HF are the wifi section where im trying to help others, and i have done that since ifirst registered at HF. I have written many tuts regarding wifi hacking areas aswell. I have been in the Specialists before, i think it was a half a year ago just before i left. I love to experiment and try new things and think outside the box, as you're going to see in future tuts

Givn back

Im releasing my E-book regarding Wifi hacking sometime next week, Totally free for all. 50 pages or so! more info about that next week

Skills

Oboy, Theres a bunch learned through the years.. But my passion that i follow today is wifi hacking

So..

All types of hacking regarding Wifi and networking, spoofing, EvilAp etc. and with that follows a bit of pentesting, some social engineering doxing and shit that's not worth mention.?

Contributions

Well. As i said before i do Contribute to the HF society by writing tuts from time to time. Here are some of them.

Well i have posted this links before, so here :D

Official Usergroup Application

[img]http://s10.postimg.org/gi7bq7k7d/splitter.png[/img]

Introduction

Hello,

My name is N1nj4Styl3. I am a young adult person who loves to communicate with others, give advises, suggest, improve and help.

Member since December 1st, 2013 and not so active at first.. I started as a simple person who liked to lurk in HF. First places that I posted were Lounge, Innuendo sections. Used to help a lot there by giving advises and such.

My specialties vary from section to section as my knowledge on something specific is not the same on everything.

In short, I love lurking-posting in hacking, programming, lounge, innuendo, youtube & MP3 & premium sellers section.

[img]http://s10.postimg.org/gi7bq7k7d/splitter.png[/img]

Specialties

Coding in Visual Basic & C#

Marketing

Ideas and future plans developing on marketing

Understand & Solve problems (Human, computers)

Computers (hardware & software)

Phones (Android, iOS)

[img]http://s10.postimg.org/gi7bq7k7d/splitter.png[/img]

In real life activities

Mess with Electronics (Mostly engineering)

Marketing

Plan, schedule, think & discuss about Marketing & Potentials

Read books (Psychology, Literature, Technology)

Gym, sport activities such as Biking, Basketball, Jogging, etc

Share time with friends, family, girlfriend

Hi,
Yes I know. I just wanted to show that I'm not only lurking, but giving away as well.

If my specialties can be considered as my skills then I hope I can get accepted.

I can help in Phones (Android & iOS), Electronics (Engineering & Solutions), Computers (Hardware, Software [Windows]), Programming (C#, Visual Basic), Psychology & Solutions on human behavior (Lounge, Innuendo), Marketing & Potentials (Future plans, Profitable ways).

Thank you. ?

aristant - May 16, 2015, 10:20 pm

Application to join Specialists;
Alright so I don't have gfx skills so i cant pimp my app out like other people i see doing x.x

But here goes nothing?:

Age: 17

Hobbies: Soccer, Gaming , Managing my Minecraft server, Making people laugh, And enjoying life.
Why do i think i deserve to be in specialists?: I think i should be in specialists for a lot of reasons,

One being that i am a active HF'er for quite some time and i try to be as HQ as possible while slipping a bit on idiots ?. I am a pretty competitive person and don't really like failing and I try to do what i can to not. Some contributions Ive done are give out a free vpn that was premium and no logs (doesn't really work any more) and a lot of guides on how to make money online etc. I plan on eventually learning java(coding language) and making some cool stuff and i have started to learn to basics but and currently breaking because I'm busy with my Minecraft server etc.

Why i want to be in the group: Firstly i like the user bar and the name and what it stands for. I want to be apart of a HQ group and have an area to talk to HQ people, and help out with what is needed.

Welp i guess thats what i got, Good luck to all applicants, and hope to be apart of the crew soon!

This is one of the things that make me go crazy sometimes. I tend to never think outside of the box. I was always taught to be serious to strangers and once I see signs of 'accepting' my 'party-animal' behavior then I can proceed on.

I'm fun at parties, I swear. I have drunk 10 tweety juice bottles in one night.

Anyway, I got your point. In general, I'm chill both IRL and here. Never mind, since I already applied and got declined obviously, I'll re-apply the next time.

Bull be ready, I'm going to wear my red bra next time.. Sorry, I mean socks. Get ready to be provoked.

Raymond Reddington - May 17, 2015, 1:43 am

Exactly, that's what I was talking about :D If you are really really good at what you do, and be it even one field, you will be accepted.

I think that's what the specialists byline says.

Endonium - May 17, 2015, 9:55 am

How about someone who specializes in going around embargos, sanctions and does so because he's plugged into governments at security service level all around central asia, persia and east africa and can help you use the "tools" and schemes at your disposal to turn them into multi-million dollar making enterprises ?

Discretionary word of warning: not a joke, but if you want me to take you down this path, it's the kind of stuff that will get you at the head of OFAC lists and into the CIA's scope faster than you can say "it wasn't me".

Davy - May 17, 2015, 10:56 am

Name : Davy

Profile Link : <https://hackforums.net/member.php?action=profile&uid=673728>

Age : 18

Interests Windows/Networking/Cracking

What experience do you have? :

Whitehat

I have a ECDL (European Computer Driving License). I work almost everyday with Cisco labs. Can work with servers, and I know a shit ton about windows. Also my school, I learn a lot at school. About different operating systems, networking, datacommunication, I can really do a lot with computers. I also am starting to learn Linux for about 6 months now.

Blackhat

The only blackhat thing I still do is cracking. Can make my own Sentry MBA .ini's have great ways of gathering proxies/wordlists. About a year ago I was in my "hacking" period. Worked with Java Drivebys, Rat's, Phishers, just your standard stuff tho, was good at it notheless.

Do you have any professional experience or certifications? :

I work at a company called "student aan huis" which means basicly I travel around fixing peoples computers. I learn a lot from this to. I also have a ECDL, and a cisco certificate.

How much time can you dedicate to this sector

A lot, as long as I keep learning from it I will always enjoy it.

Why do you want to join this sector? :

Want to learn, a lot. I have heart for computers and I want to never stop learning. My hope is I will have to work a lot harder to accomplish things in this group, which I learn even more from.

I recently got kicked form the group "Brotherhood" not because I was a bad member but they kicked almost everybody. I really liked the idea of being in a group and now I am looking for another group.

I will be active in the subsection and try to help people as much as possible.

What can you bring to the sector? What are your specialties? :

Like I stated previous. Datacommunication, Networking, Cisco, Servers. Can also do a bit of Python. But I started learning this like 1 year ago.

Why should you be accepted? What makes you different to other applicants? : This may sound a bit arrogant, but I fix 90% of the problems I encounter. I love learning about computer and I think I would be a great asset to this group.

GL to other contestants, and my english might be a bit on the bad side, I am dutch.

Edit: Decided to add some posts in which I helped people. (As if my application wasn't long enough..)

What brought me to the forum?

I originally came to the forum to find more people to play games with, after doing some digging through the graphics section though I decided to take advantage of this sites resources to teach myself new skills. Currently I'm teaching myself about web design. I mostly continue the use the forum for that reason, and to help new members during their time here.

Why do I want to join Specialists?

I'm always looking for new things to do, and more things to learn. The group has always been a little mysterious to me, but the members I see within the group are typically highly knowledgeable users with a lot to offer.

Why should I be chosen to be a part of "Specialists"?

When I put my mind towards something, or see things that have potential to be improved, then I invest my time towards it. There is always something that can be done to make something 'great'... greater. I have spent the past 4 years displaying my dedication to this forum and I take pride in the contributions I've brought to the community. I also enjoy meeting new people, and I haven't had a chance to socialize with a majority of the group.

Experiences:Former Complexity Leader

Former Skill Leader

Former Guardians Leader

Original Author and Founder of the HFNT's Gaming News

HFNT Site News Journalist

Former Moderator of the Halo section

Anything Else? Thanks for the opportunity to apply, the group has been very exclusive and I'm going to assume that applicants will be reviewed carefully before being considered for selection. Nonetheless, thanks for the opportunity.

nique ta mere - May 18, 2015, 1:33 pm

What are your specialities? Mainly gaming, not really a speciality but I enjoy learning new things.
Why do you want to join The group of specialists? It is a group that's different to other, I think it'd be a good experience and it'd be fun in all honesty.

What makes you different to other applicants? Once I start to do something I stay on track, I am dedicated to what I am into. I believe this question is more for you to answer than I tbh, thanks for reading, kept it nice and short..

[?????????FREE SIMPLE SIGS!! SERVICE????????????++?](#) by [Starstruck](#)

What brought me to the forum?

I originally came to the forum to find more people to play games with, after doing some digging through the graphics section though I decided to take advantage of this sites resources to teach myself new skills. Currently I'm teaching myself about web design. I mostly continue the use the forum for that reason, and to help new members during their time here.

Why do I want to join Specialists?

I'm always looking for new things to do, and more things to learn. The group has always been a little mysterious to me, but the members I see within the group are typically highly knowledgeable users with a lot to offer.

Why should I be chosen to be a part of "Specialists"?

When I put my mind towards something, or see things that have potential to be improved, then I invest my time towards it. There is always something that can be done to make something 'great'... greater. I have spent the past 4 years displaying my dedication to this forum and I take pride in the contributions I've brought to the community. I also enjoy meeting new people, and I haven't had a chance to socialize with a majority of the group.

Experiences:Former Complexity Leader

Former Skill Leader

Former Guardians Leader

Original Author and Founder of the HFNT's Gaming News

HFNT Site News Journalist

Former Moderator of the Halo section

Anything Else? Thanks for the opportunity to apply, the group has been very exclusive and I'm going to assume that applicants will be reviewed carefully before being considered for selection. Nonetheless, thanks for the opportunity.

Accepted
Whalecum to Specialists ?

Stellar - May 18, 2015, 8:32 pm

Age: 17

What I love doing: Graphical Work, Advertising/Promoting, Contests.

Short summary about myself: I am 17 years old and I have a great passion for doing graphical design. I have been doing GFX for about 2 years now and I would say I am skilled in the art.

Why I should join: I believe I can be a great attribute to the group. I have a prime instinct to make people happy and have a great time.

What I can do for Specialists: I can assist and contribute to the members under the name of Specialist and to be honored as one of the elite to finish tasks and please. I wish to help using my passion for graphics and expertise.

Ideas: I have an idea to possibly do free GFX for all specialist members for a period of time. I also working on a project to bring designers together.

My thoughts on the group: I think Specialists is, well special. It is unique in ways and very well thought out. I appreciate the opportunity to apply. Thank you.

WinnerDinner - May 20, 2015, 5:21 pm

Hi,

i am 18 years old,i've been member here since 2010.My first hobby was virus removal,i used to help other ppl when their pc's got infected,i was an avast evangelist at avast official forums,i studied a bit at the geekstogo online "university",my mentor was essexboy,another avast evangelist.After 3 years of assisting people in avast/malwarebytes/geeks2go forums i got bored of it,i switched to reverse engineering,i began cracking simple "crack me's",when i learned the tricks i swithced to malware analysis,i usually cracked ransomware samples etc.At this time,an employee from kaspersky published my research on a specific virus @ his personal blog.A year later i stopped all these things as i had to study to get into university.At the moment i am studying applied maths and physical sciences and i help people here at hf with their math/phys h/w,i am very active at educational section.I also play games,mainly cs:go and lol,i am also very active at the cs:go section.

Business - May 21, 2015, 12:27 am

My Specialists Application

Name and Backstory: Business

I chose my name when I decided to get into monetizing my experience here on Hack Forums. I prefer to handle myself in a more professional manner when doing business, and I really like the whole suits/honor/money theme that people think of when they hear the word business.

Time Zone:

US, Central Time (CT)

IRL Hobbies:

Advertising: I have been interested in advertising for a very long time. I have had two jobs involving marketing/advertising. One was for a food company, and the other was for a import/export company.

Gaming: I do not play games too often, but I do play CS:GO every now and then. I am DMG/LE. I like finding fun free games to play with people as well.

Smoking: As you can see by my awards, I do support the usage and legalization of Marijuana. I do not use it excessively, but I do smoke oil extract on a semi-weekly basis. I am not the kind to be greatly impacted by THC, and I can handle myself as I would normally. I enjoy talking to others about their smoking setups, what they smoke, favorite strains, etc.

Movies: I really enjoy watching and analyzing movies. I have studied cinematic form in a couple of classes, as well as Visual Art Form and Literature. I enjoy discussing varying topics from paintings, to movies, to popular culture.

Hack Forums Hobbies:

RAT Section: As many of you know, I am very active in the RAT Section. No, I do not go around calling myself a hacker. I have been on many product teams here on HF, including jRAT, Babylon RAT, a site I owned for direct link generating, and I ran an Exchange Shop awhile ago. The reason I am in the RAT Section so much is because when I started learning about them, no one helped me and it was a struggle to learn without any guidance. I now offer free setups and paid lessons that have gotten nothing but positive reviews.

The Lounge: Just recently I started getting into The Lounge. I think it will be a great place for me to start expanding my HF friend group.

Premium Sellers: I always have one or more products here on HF, and I intend on adding more soon. I am currently on the support team for Babylon RAT, and I run the lesson service that I mentioned earlier.

My Best Threads:

Member of Black Diamond

Why Should I Be Accepted?

I am a very passionate person. When I really want to be great at something, I work at it until I am confident with my results. I am currently working and taking Computer Science classes. This group would be a great fit for me. I can provide the group with giveaways (I supply funds) along with help desks and other threads under the group name. I am on almost 24/7 as my work and classes allow me to do so. I have been trying to branch out and broaden my friend group here on Hack Forums, so this would be a great opportunity for me.

whyso - May 21, 2015, 2:51 am

I'm Specialized in Graphics, There is nothing that i cannot do in graphics or ART.

Kioshima - May 21, 2015, 11:01 am

[img]http://#/O3BFIB.png[/img]

Username: Kioshima

Profile Link: <https://hackforums.net/member.php?action=profile&uid=2265259>

Country and Timezone: United States, PST

Age:20

Specialties: Graphic Design, Gaming, (Currently developing my own site)

Experience: Around 3-4 years doing graphics

Reason and purpose to joining: I am a very experienced graphic designer and strive to learn and help others improve. Also I can help coach people in some games such as CSGO and League of legends. Furthermore, I plan on being very active in order to help this group flourish.

Portfolio: <https://legendarydesignstudio.carbonmade.com/>

How much time I am on: 5-6 hours everyday on weekdays, 10-12 hours on weekends. (Summer soon so even more free time)

Why I believe I should be accepted: I am pretty hq and active on these forums, and can help other users with problems. Also I can work on group projects and strive the best for the group. I am friendly and provide a positive attitude toward things. I feel I have great potential to do my part in this group.

'Ben - May 21, 2015, 12:06 pm

[IMG]http://#/O3BFIB.png[/IMG]

Username: Ben

Location: United Kingdom

Age: 21

Lived in the UK all my life. Currently training/working as a Motorcycle Mechanic with plans of opening up my own shop within the next few years.

On the side I spend a lot of my time either working on bikes OR Internet Marketing. Always nice to earn a little extra money. Currently experimenting with CPA. Not making much yet but we all have to start somewhere.

I'm chill as fuck, easy to get on with and always up for a laugh

So what can I do?

Ill be honest with you, not a fucking lot but what I lack in skill I make up for with my determination and sheer willpower.

Don't get me wrong I'm not completely useless ?

Web Design: Although my knowledge is currently limited I have been learning HTML & CSS. Will be moving onto Javascript shortly. Always wanted

to be able to design and create my own website(s) from scratch. Due to various reasons I never had the time to actually sit down and learn the languages

that would allow me to do so. Recently things have changed, I have the time and I plan on making the most out of it.

Gaming: Mainly an FPS gamer but I do jump into League of Legends now and then. CSGO & COD4 (Promod) are my games of choice. I enjoy being in a

competitive environment. Having some sort of team whether its serious or just a group of friends makes things a lot better. I'm a natural FPS gamer.

I pick up game mechanics easily which allows me to adapt relatively fast compared to most.

Graphics: Have used Photoshop/GIMP on and off for years. I wouldn't call myself an expert or anything like that, just someone with a little experience that knows their way around the programs.

Professionalism: I like to come across as professional as possible. I take the time to write good quality posts if required. I like to think my English is better

than the average user, we all make mistakes now and then. Nobody is perfect.

Why should I be accepted?

I strive to be as high quality as possible. I speak my mind regardless of who you are. Unlike the majority of this forum I don't think how much rep & flash icons you have decided whether you're a trustworthy person. If you're wrong, ill let you know. I have very rarely tried to make friends on HF. Having a few mates to talk with, game, code (in the future) would be pretty awesome! I'm active daily plus I

have never been in a group before. ?

Ruby - May 21, 2015, 7:27 pm

Name and Background: Ruby, Programmer & Network Analyst

I've had a few different names since joining hackforums, but I've finally settled down in to my current name "Ruby." I chose this name because I 1. program in Ruby and 2. Ruby just sounds like a nice, fresh name. I came onto Hack Forums mostly to get into SST. From there, I developed a lot of networking and SST knowledge. It also gave me a practical approach for practicing socket programming.

Hobbies:

Programming: I've programmed "seriously" off and on for a few years now. My practical experience is mostly with Ruby and PHP.

Gaming: I love to game, and I really should start being active on the gaming section of Hack Forums. These days I've been spending most of my gaming time playing GTAV (PC) with friends.

Languages: I spend a good amount of my free time studying new languages. I know some Norwegian and Korean.

Examples of my Work:

[Windows AMP List Filter | Filter AMP Lists on your Windows PC! | Anyone Interested?](#)

[PHP "API" SCRIPT | Stop Function | Multithreaded | Secure | Fast | \\$20](#)

[NBS Script | Scanner | 3x-6x AMP | Now \\$25 or \\$50 with Support | 6/6 SOLD \[CLOSED\]](#)

[MedusaBoot | 100%Custom Source | 200Gbps+ | 20K+ R/S | PayPal and BTC Autobuy](#)

Past Group Memberships:

Echo

Fortune

Why Should I Be Accepted?

I generally work hard to achieve greatness in my areas of interest (programming, gaming, languages, SST, etc.) I also try to be helpful and give back to the community when someone needs something that I can provide. I think Specialists would be a good fit for me because it would allow me to surround myself with other "specialists" and create something truly amazing.

Many thanks for your consideration.

Nullware - May 22, 2015, 7:40 am

About Myself

I'm Neyox, I'm an avid gamer & entrepreneur. I enjoy creating projects and making high quality services. I've been creating businesses and services for years, and have been very fortunate to work with some very high end companies. I know the in and outs of marketing, and have past experience as a Support Representative with some of the largest companies in the game hosting industry.

Hobbies

Gaming

Since I was very young, I always enjoyed gaming. It's what built my whole life, and I wouldn't be the same without it. I love playing, and expressing my opinions on many of the thousands of gaming forums.

Coding

At this time I'm learning multiple different coding languages, such as HTML/CSS/JS and Java for Bukkit API. Although I'm new to coding and have much to learn, I strive on creating amazing projects and hope and plan to become very

Support

Over the years, I've been very fortunate to work with some of the largest gaming industry's in their support department. I enjoy assisting clients to insure that the product or service is working great. If you'd like a list of the companies I've worked for, I'd be more than happy to send them over PM.

Previous HF Work

Please keep in mind, a lot of my projects and work are done outside the ranges of HF. And only some projects have been produced via HF. I'd be more than glad to provide a list of all my projects outside HF via PM.

I have a lot of experience with Networking so I am able to offer my knowledge to help the community with there problems. Being in a group with many different subjects will better my self in more skills and will allow me to spread and teach others around and the share time sharing my skills and knowledge with other members. I can contribute to the group by participating in Giveaways and Contests in any way possible.

Moeseph - May 29, 2015, 6:32 am

Still taking on some more applicants!

tornmage - May 30, 2015, 12:20 pm

Name: tornmage

Age: I'm currently 18 years of age.

Gender: I am a male.

Religion: I am a Christain.

State/Country: Georgia, United States

Time Zone: Eastern Standard Time (EST)

Explain, with detailed examples, what your skills are:

Fitness/Bodybuilding - I have been absolutely intrigued by everything to do with bodybuilding for a couple of years now. I have learned a lot about my body and the human body in general. I train a couple people at my gym, and have recently started helping people any way I can in the health wise section of Hack Forums. I believe that this could be one of my unique "specialties" for this group.

Java - I became interested in the language of Java a while back and have been using it on and off ever since. In late 2011, my friends and I started my first major project. The project was an independent voxel RPG called Horde. This project continued for around eight months until it completely collapsed. The game was never completed. I then turned my attention to Minecraft. I took on various coding jobs for an abundance of different servers making tons of plugins and to be honest not that much cash. One of the jobs I am most proud of is Bash Craft, a very popular Minecraft server as well as YouTube channel.

Gaming - I've been playing video games for as long as I can remember. I enjoy playing all types of games with all types of people whether it is competitive or casual. My favorite games that I play currently would have to be Minecraft, Team Fortress 2, Grand Theft Auto V, and Madden 2015. I also enjoy playing games such as League of Legends, Starcraft, and DayZ. I consider myself much better than your average Team Fortress 2 player. I would gladly play with members of Specialists if I am accepted.

Team Fortress 2 Montage ([Click to View](#))[Video: <https://www.youtube.com/watch?v=6ZqwNLBbqsg>]

Websites - When I joined Hack Forums my intentions were to come an elite hacker. After about one month, my intentions had changed completely. I desperately wanted to run a successful website. I have run four websites. The two most recent being <http://www.assistforums.com> and <http://www.freexbl.biz>.

Communication/People Skills - I have excellent communication skills. I have the ability to get along with almost anyone. I work very well with others, which is something that most groups look for when recruiting. Communication skills are often overlooked by employers/groups, but they shouldn't be. Communication/People skills can be crucial when working on a project with others.

Athletics - I have a life outside of Hack Forums as well. I play football, baseball, and I wrestle. I've competed at a national level in wrestling and hope to be an olympian some day. Here are some pictures of my medals. As odd as this may sound I think the fact that I am an experienced wrestler is another reason I should be accepted into the group. It has been said that wrestlers make the best employees on Forbes. <http://www.forbes.com/sites/stevecooper/...employees/>

Which section are you most active in and why? I am most active in the lounge. The lounge is a great place to get to know all of the wonderful members of Hack Forums. I met my best online friend in the Hack Forums lounge.

Why do you want to join The Specialists in particular?: I would like to join The Specialists because I've see every member that is a part of the group being not only being extremely nice and well-mannered, but also professional in nearly every situation. I want to join this group because I would love to meet some new people here, definitely get to know more people, and just enjoy the family aspect of a group that you don't get when you're without one. I want to learn from The Specialist's userbase as well as spread my knowledge throughout it. I've recently started looking up to The Specialists and it's userbase as a sort of a role model for what I should try to be on here. The Specialist's actually motivate be to become a better member and learn more.

Why do you personally feel you deserve to and should be accepted into The Specialists?: I'm not going to write you a half of a page on how "high quality" I am. Instead, I am going to briefly discuss with you the amount of work that I can and will put into improving this group if I am accepted into it. I plan to gain and spread knowledge within The Specialist sub-fourm and partake in numerous projects that I will give my best effort on. In fact, I already have some ideas!

What caused you to stay active and be part of the community on Hackforums after first joining? I stayed because many of my internet friends pushed me too. I constantly heard from them about how great it was and I was curious to find out for myself. I now stay because of the people, the entertainment, but mostly the unlimited amount of knowledge that Hack Forums can give you.

Anything else you would like to say: Thank you for your consideration! If there is anything that I can change about my application for the better, please let me know!

masterfan - May 31, 2015, 6:44 am

HackForums Journey:

As you can see, it's my sixth year here on HackForums. I've learned a lot of stuff here. During my six years here, I was highly ranked member of RAT's Crew (position just under the leaders), and I was one of the co-leaders of Respawn group. While being part of those groups, I really dedicated my time into improving them. I'd provide tutorials with skill sets I had and also help every member individually. That's what got me to those high positions.

Skills:

Java

JavaScript

HTML

CSS

JQuery

RATs

Cryptography

Monetizing

PhotoShop

WebDesign

BodyBuilding

Nutrition

Gaming

These are the skills I'm really good with. I'm an IT student and I have A from programming course which includes Java, and another A from Web & Mobile Apps course which includes JavaScript, HTML, CSS, JQuery. I always like to work additionally, regardless to my courses. I'm also a fitness addict and have been working out for 6-7 years already. I have plenty of experience regarding the workout plans or nutrition. Since my semester is finished I have some bonus time to spend it here on HF. That's the reason I'm applying to your group. I know that Specialists are HQ group and I see this as a opportunity to learn new stuff, and also share my knowledge within the group and group members. This summer I'll start with my Java RAT/Crypter project. It would be great to share ideas and experience with you guys, or even have someone to join me on my project!

Thank you for reading my application!
Best regards,
masterfan

Name ~ James

Username ~ ??? ? ??? ??? = ?????s???

Link ~ <https://hackforums.net/member.php?action=profile&uid=151920>

What I want to contribute ~ I've been here for roughly ~5+ years, so I have learnt a multitude of things and some of my most prized passions now revolve around computers and technology!

Video Games ~ I have a serious passion for gaming; if accepted, I would then be able to pass on what I have learnt over 15+ years of gaming and take part in discussions with the knowledge of my own and hopefully expand it in this group. I would also create never before seen tutorials for my favorite games. I've also been playing almost all my life!

Giveaways ~ I love to give back to the community, if you check my threads you can see this for yourself!

If accepted, I would consider posting some of my most private and prized possessions for specialists eyes only!

Why this group? ~ Your group offers something unique and not present within current groups; you have a focus on specializing on what YOU want to do as an individual.
This is a creative approach!

Availability ~ 20+ Hours daily. I live on the computer!

What makes me different ~ I'm creative. I love to write songs with my guitar. I also love to stay healthy and cook delicious meals; I'm a self-proclaimed fitness guru after all!
I am also pretty passionate about psychology & philosophy.
Deep conversations are my favorite.

Hope I am accepted, chao!

Xepher The Cat - June 1, 2015, 12:24 am

My application isn't too flashy, but here it is.

I'm Xepher and I'm 16 years old. I know a bit of PHP and VB (.NET not VB6)

I play league of legends, and there's honestly nothing special about me apart from being a god at league of legends.

0xBB - June 1, 2015, 11:09 pm

Username: ibennz

Age: 22

Location: Canada

Timezone: GMT -4:00

What skills can you offer our group?:

Coding : C++/C, C#/Vb, PHP/JS/CSS|HTML , bit of delphi and asm.

Friendly and like to learn/share.

How can you benefit our group?:

Skillset speak for itself, aside I would love to see a group project created. Im active and super HQ

Recent on-site Projects:

[Slice crypturr \(bout to hit 3 years old\)](#)

[Cool theme I did in .net](#)

[snapbrute I did for arrow](#)

...

Why should we choose you?:

Because YOU NEED ME. And I always like to meet new people to share/speak with. Hope to hear from you soon.

Katie Stevens - June 1, 2015, 11:13 pm

Would love to be here!!

We are still looking for members. Feel free to apply if you think you're worthy of being a member of Specialists.

Cory™ - June 4, 2015, 10:55 am

If we were denied before for being in fortune can we re apply?

Bull™ - June 4, 2015, 10:58 am

(Jun 4, 2015 10:55 AM)Cory™ Wrote: [\[CITE\]](#) If we were denied before for being in fortune can we re apply?

Yes , You can apply for the group now.

Cory™ - June 4, 2015, 5:25 pm

[img]http://#/O3BFIB.png[/img]

Name: Cory

Age: 15

About me:

Hello, my name is Cory. I am a very HQ and active user with many useful skills especially marketing. I enjoy gaming, skateboarding, video making/editing and making money :) I have been on different forums for a while but I just became active on HF this year. I am only 15 which makes me the youngest marketer on Hackforums. I am a very friendly guy that likes to have fun and meet new people.

What skills will you bring to the group?

I have skills in many things that I can contribute to Specialists. First, I am great at marketing and making money online. I have been on many forums and websites ever since I was 13 years old, creating products and finding ways to make money and I have become very successful. I can help many Specialists members by teaching them the ways around marketing and making money online. I have a couple products and services on Hackforums which have made me a decent amount of money such as my Account Generator. It has been open for 2 months and I have over \$4,000 in revenue already because I know how to advertise my product and run business online. I also have my Social Bot with over \$300+ in revenue and my Twitter Turbo with over \$150 in sales!

Second, I am great with social media. I have a couple large Twitter and Instagram niches that I am

building up and I would love to share my knowledge with other Specialists members. I also had my Tweetdeck RT service which built up many Twitter accounts. I also have a decently successful gaming Youtube channel that I have been working on for almost 3 years!

Why Should I Be Accepted?

I should be accepted into Specialists because I am a very active and HQ member here on Hackforums with many skills. I am a Specialist at what I do and I can definitely help many members in Specialists with the skills I listed above and even more! I will be very active in the sub-forum and I think it would be a great experience joining a great group like Specialists. I am willing to do anything to help out the group such as marketing products for members or sharing my skills to others. I have many great skills that could benefit the group. If anyone needs help with anything I have experience with, I would gladly help. Joining Specialists would be a great experience and I would love to meet new HQ members :)

Latest Projects And Products:

[Nero Twitter Turbo](#)

[Account Supplier](#)

[Social Bot](#)

[Fiverr Firestorm](#)

[Tweetdeck RT Service](#)

Thank you for reading my application and have a great day! This application took me a lot of time and effort and I hope to talk to you soon :)

Did abide write that sentence for you?

Silence - June 5, 2015, 8:02 am

Name , age and location : The Law , 18 and The Netherlands

Why do I want to join : I am looking for a group to be closer with other group forum members and discuss various subjects and support group projects if any.

My skills : I am not a complete expert at one thing but I can make decent graphics , knowledge about windows server (What I learn at school) , a little monetizing , knowledge about Cisco , overall a decent IT student and everything that has to do with IT and I think pretty logical.

What I achieved : I have passed the official exams of Cisco networking and Windows 70-410 with ease last year.

And some money with GFX designs

How active am I: I always check HF for new messages and keep it on in the background as a tab at home and school and respond to posts that quoted me or PMs. As for active on the forum like 3+/- hours a day so I can reply to anything pretty quick if I am not sleeping

Stop the harassment. Not funny. Show some respect. ?

Despiracy - June 5, 2015, 12:09 pm

UN: Art3MiS

UID: <https://hackforums.net/member.php?action=profile&uid=2469697>

Age: 16

Country, Timezone: EU, Finland, GMT +2

Why me?: I own YouTube's LARGEST Bass channel! 7th biggest YouTube channel in Finland. I'm the top notch of my field, and I'd love to join the elites or the purpose. ?

Note: I might not have 500 posts, but I hope I have the potential to be a member. ?

??? - June 5, 2015, 7:12 pm

Why do you want to join?

I want to share my knowledge (mostly in programming) with the group members and hope to learn some new stuff ?

What do you have to offer?

I'm a programmer with experience in in
HTML, PHP, CSS, Sql, Visual C# and C++/CLI - I love what I'm doing so I'd be happy if I can help anybody in your group further, no matter what the task might be. ?

What have you lately contributed to HF?

My last release was the [Data Crawler](#) which is written in Visual C#

What else can you tell us about you?

I'm 21 y/o. and from germany.

I give my best to get friends with everybody, respect is important for me?

Flaming/Scamming/Begging/Leaking or any other childish move is nothing you'll ever see me doing.
?

Thanks for taking your time.?
Have a nice evening! ?

+One - June 6, 2015, 10:37 am

Awesome group the be a part of, this opportunity is a great one. Good luck to everyone. PS: All the members are great.

Havoque - June 6, 2015, 6:04 pm

Application

Who I Am

Currently an academic studying Digital Forensic, Cyber Defense & Information Assurance, Forensic Accounting and Arabic.

What I've Done

I'm a frequent traveler and I've seen at least 13 countries. I was a magician who's mastered the craft of the performing and entertainment arts for over more than 10 years. I speak fluent Italian, and know a little from other langues.

Most of my interests in crime, scams, and criminals dip into my knowledge of hacking or deceit in magic, and sometimes mix together.

What I've Brought to HF

I like to provide people my insight and knowledge from what I've learned during my travels. I help people out in innuendo, education and SRPP section.

Rarely, I'll post in the health & fitness sections since I lift.

I currently post informational threads on Criminology and Human Behavior.

I also post educational guides to help people out with their performing or presentation abilities.

I may eventually post some of my trade secrets.

Hope to eventually get into creating threads on different cultures.

What I Can Offer

My knowledge and life long experience.

My advice on various topics.

My up coming knowledge or experience.

My skills or tips on obtaining my skills.

I can also be a translator.

Why I Want to Join

Honestly, I just want to get to know new people.

Help people out and be part of a community.

Learn new things from new people.

Mr.Luce - June 6, 2015, 6:05 pm
