Hope to see you there!

Very excited to be a part of this community. It has a great flow, and we will constantly be working on making it better!

Updates will be coming up which include many things. For right now it is gaming only though!

I have registered an account on the board as I enjoy being a part of communities which are in the process of gaining activity. It's always nice to watch a small community with potential grow into something much larger with a lot of success. Best of luck to you.

Thanks for registering! We aspire(hehehe) to be a big, strong community

Theme isn't really appealing to me, I don't see this going far. Sorry. But good luck

Hey look an "original" gaming forum claiming to have a giant budget like that matters wow >_>

A giant budget does help when it comes to running a forum.

Can't resist being active within smaller communities. I don't know what it is that I like so much about them. ?

Well aren't you the special little snowflake with empty pockets

Nice custom theme you have there.

L?gic - April 28, 2015, 5:38 am

I highly like the design! I love the dark look with the yellow/orange colour added to it. The art work done for each forum group icon is awesome! Is really nice overall. GJ

Yeah cuz Javascript is your creation and your creation only. I nearly borrowed it until I finish a more optimized version.

You're using the old theme of ForumCamp, moron. How dumb can someone be?

Dark Energy - April 28, 2015, 2:03 pm

I love the theme of this website, I wish I knew more custom coders
Good luck with the website !

Which user? Flatink? I tried resolving the situation with him, but he still thinks he is the creator of jsript

If you're attempting to troll, you're not being very good.

Im just trying to showcase my website here, nothing more nothing less.

Im not using an old theme from forumcamp, this was my creation and my creation only. The only exception is that I borrowed jscripits. It will be removed very soon with original ones

No, this is the old forumcamp theme.

All you did was edit it, please do not say you created it.
