Seems like a legitimate report i guess! He had a nice try with the whole paypal \$1 thing. I hope this gets resolved for you!

Everytime i look at his profile, i see him still online and not banned. It makes me sad to see that nobody cares about this. Look at the date, 3 days without anything happening.

5chn4pp - May 3, 2015, 12:09 pm

Its been 8 days since the scam, why does nobody care about a scammer? I clearly have all the proof and he needs to be banned.

Sorry for the loss man.

Staff won't do anything about it, you can see him running around here for years without getting

punished for it.

No. Staff don't get involved in scam reports. You'll probably get rfd if you pm them.

Unless they multiaccount or something they won't get banned.

5chn4pp - May 10, 2015, 4:25 pm

I forgot to add him to the deal dispute database :HeHe: its fixed now.
