Thread: [Animated Signature Shop \[Cheap Prices\]](#)

Offering a fast and affordable service in which I will create a personalized animated signature for you.

Spoiler [\(Click to View\)](#) If you have a unique idea, I may be able to accomplish it for you for the right price. I don't typically create brand new animations (I can do some however it's not something I particularly enjoy) BUT I can do a lot with gifs that are already made, for example the header to this thread. It was originally just 8 Bit Jason with a forest background.

Keep in mind the 500k limit HackForums has on Signature Images. If the GIF is too lengthy I will have to make the text smaller or shorten the Gif to minimize size.
