Thread: [I need help. Again. Body writing](#)

Epuppete - April 29, 2015, 12:55 pm

One guy asked me to write his name on my e-whore body. I know there's one gimp tutorial, but I can't find it. (I don't want to use photoshop , because.. idk ;d)

Or maybe you can write Joey on this body.

I am not familiar with Gimp. If it's similar to Photoshop. Get the idea from the tutorial and try to recreate it using Gimp!

Hope everything works out.

I have Gimp installed on Linux MInt, but really hate it. Photoshop is hard for me, Paint is OK.

But Gimp is just impossible, I need to learn it maybe...
