Thread: [SEO and Internet marketing/Affiliate marketing help](#)

Notorious™ - April 29, 2015, 2:11 pm

Hello, I have a few questions about SEO and marketing that I would be thankful if someone could offer some of their free time to help me out about understanding more about this topic, either by PM or skype, w/e :)

I want to get started and I have already read some articles but they seem a bit "fake" to me and I don't want to get mislead :/

htmnile - April 30, 2015, 3:15 am

Hi Notorious,

I help quite a few people from HF with various aspects of projects and website launches and I would be more than happy to help you with this also.

If you wanted some background on my knowledge, i've got a degree in Software Engineering specialising in Search Engine Algorithms and Self learning systems, I've then launched and now run a UK based SEO and Digital Marketing agency with a full office and wealth of experience and a complete range of B2C and B2B, national and international clients including Franchises, E-Commerce, Affiliate, Promotional etc types of sites.

The only thing I ask, as a lot of messages end up leading to: "SEO my site", which when I charge a flat rate of £75 an hour is out of budget for most HF members, is that if you have questions that are answerable then my question and answer time and knowledge is free for all HF members, however my actual time and services will cost unfortunately.

Look forward to hearing from you

Notorious™ - April 30, 2015, 10:31 am

I don't want to purchase any services because I'm not planning on starting a website, however I have some interest in learning about SEO and I have some questions that I would like if someone could help me.

If I end up liking it and wanting to create a website I will put 100% of my own effort into it.

I will PM you later thanks.
