Just bought this miner, the hashrate is epic on amount of bots I have.

Big vouch for this, awesome product. ?

MidasRU - May 2, 2015, 12:10 am

I've seen the power of this miner, and it is of the utmost quality! I would recommend you get this if you're looking to mine :)

Good luck with sales, friend :)

Depends on the slave quality.
If you have gaming loads you can make way, way more than \$.

Send me a private message or contact me on Skype.

Any x11 support in there?

If not, it's something to look in to adding, since most x11 coins are fresh on the market but still selling pretty good (DASH [NOT DashCoin] is going for \$2-3 at the moment)

I do have a private mining software with 5 mining engines (bound to be released later, upgrading)
