Where's the official release on there? Can you link it?

I'm searching but i can only find on visualstudio.com on the news part, is there some official comment on msdn or something?

Slavoj Žižek - April 30, 2015, 11:58 am

ughhh... now i'm gonna have to uninstall 2013 then download this on my shitty internet, any way thanks for telling me and others about the new version :D

He B TeMy - April 30, 2015, 12:04 pm

Well, personally i'm gonna wait a couple weeks till some bugs come out and then i maybe switch...
D

What should I choose? Enterprise or Community?
Mhm...

Nicktron - April 30, 2015, 1:06 pm

Yay, I love when a new version of visual studio comes out. :)

.NET Native is included in Visual Studio 2015 RC.

I dunno, unless I'm missing something it comes with it?

Also comes with .net 4.6 RC, or at least what the page says.

Never gonna swap out my VS 2010 :D I'm so conservative ^^

Kogan - May 2, 2015, 4:42 am

Excellent release for Microsoft to move forward in terms of refreshing their VS.
