Thread: [Free Thread Design I made](#)

Royal Crowd - April 30, 2015, 7:54 pm

Hey guys!

Well I made a thread design and I plan to use it if I need to, but I also want to give it away!

Preview:

Spoiler ([Click to View](#))

I am not the best at making them, but maybe someone would like to try it out.

If you want to download here it is:

<https://www.dropbox.com/s/ntyzluy7lcxvzbz1/AuthixThreadDesign.psd?dl=0>

It's a .psd so you can edit it and also if you can't or don't want to edit it yourself I'm willing to do it for free if you're upgraded and \$0.10 if you aren't.

PM me if you need me to do it for you or if you got any questions at all.

Have a nice day! ?

you should make the background like glass that it reflects a bit of the actual design
