I highly recommend you to use the service of this user, out of my personal experience I can guarantee you that he won't dissapoint you.

Not only that, he then finished my Physics work which was 15 minutes of work in about 4 minutes. Also, the quality of his work is VERY good, compared to many of the service providers here on HF.

Thanks for all the work, once again :).

That seems pretty cool.

Do you happen to do debate, as I am going to do that in school next year and would like an advantage.

Had an assignment and he told me he would get it done til friday and it's sunday now.

Also the user Aiba did not answer my PM's since 2 days back, he read them and ignore me after he gave me his words, "Fair enough, ill get it to you finished on friday"

He probably had a hard time or something irl, if so I completely understand him and will edit this post whenever he answers me.

Also sorry to post this post, just posting so u can answer me.. because I have to send the essay in 2 days.

Thanks alot and I hope you PM me as fast as possible.

EDIT: Essay is completed thanks!
