Be right back.

Hopefully you enjoyed this quick release.

testkroket - May 2, 2015, 1:42 am

Well I'll bother and will say your link for stub is not working.

matt - May 2, 2015, 1:44 am

Kudos for getting the detection rate low, although Avast is a major.. I'd work on that if I were you. :-P
Just some friendly constructive criticism.

testkroket - May 2, 2015, 2:26 am

With resourse hacker is a no go.

Altho I get 3/35 with no icon changed.

3/35 with no icon is good ^

Vouch from me :)

When you make a stub and get 0 detection on av i really think you should sell the product and as the guy above me said, 3/35 is very good for a free crypter, good work

I think you need to update the stub op, people have been uploading to distributing sites and it has 10/34 on the free stub, possibly you could code a private stub for a price :)
