HexArmageddon - May 5, 2015, 9:47 pm

How does one make money off of this?

lawrence1998 - May 6, 2015, 8:00 am

Call me a huge retard, I used this on some friends to test it. (The skype adder) and it didn't work, I tested on 4 friends. I then tested it on MY skype, and it only worked on mine. I've been getting calls, messages and contact requests all day. It works nicely for me but not on anyone else, also there's a bunch of errors spammed when I open it. Any advice?

ps i can't PM anyone yet

dobo101 - May 8, 2015, 1:39 pm

just a question as a beginner, what does "spread your rat on the mean"

Motautronic - May 8, 2015, 2:53 pm

@dobo101 they are referring to spreading the rat/virus/trojan/worm/etc across the internet to its victims. i couldn't see who wrote that and what context it was used (it seem like a incomplete sentence) but that is what they are talking about.

lavic2001 - May 8, 2015, 3:13 pm
