Looks great, but one problem (imo), the white particles takes up all the attention, try dropping the opacity on the white or changing it closer to a lighter-grayish color.

It looks really good. I think some lighting adjustments to make the middle of the banner stand out more would make it look better

really good. very good effects.

Looks really nice, but as someone above me already said: try lowering the opacity of the white pieces

AnnihilationLee - May 5, 2015, 2:39 pm

Looks good but it's abit too bright for me. Not bad!

BLCKBRD - May 5, 2015, 2:41 pm

It's... awesome... more then awesome...

Its a pretty simple design, but it's alright. Personally I would look to add more texture to the background

i dont know about this one like it's cool but there is something about it

Gearmixer - May 6, 2015, 9:23 pm

I really like it man. Keep up the good work!
