What level are you all guys on? I'm on 7 atm. Seems easy enough but I don't have the key for the encryption.

And op you never answered me, how many levels are there right now?

LogoiLab - May 6, 2015, 4:42 pm

HINT FOR #4

what is alliterative with "four" and is an element?

HINT FOR #3

I got a blank %20 baby, and I'll write your name.

HINT FOR #2

If you don't get this one you might as well stop trying now.

HINT FOR #1

you truly are an idiot.

@OP I hope those hints were appropriate and worthy enough for you xD

It's fixed, you will still get the error, but it can't be exploited.

What you are seeing is a warning.

Grats on the win BTW.

I removed the XSS attempt on lb so dont worry lol

%20 is the encoding for space from UTF-8

It's because I prevent XSS with htmlspecialchars

It's doesn't have anything to do with the levels.
