im sorreh this is not correct. this can not be run on linux, it is dependent on solely being run on [FlexOS](#) on an IBM Model 5150

romanw - May 5, 2015, 7:40 pm

I ran ghost.bat to install like it said but everything on my desktop was deleted.

I can't find use the client either. Did it have force op?

yus fully funtioning force op. it deletes u desktop to make it more ghosty. u desktop is now a ghost. it will slowly make the rest of u computah a ghost too. also, u cant see clint bcuz it ghost

yus, it has fully workin force op
