Thread: [Any Free IRC Bots That Work and Functional?](#)

Black Scorpion - May 5, 2015, 3:33 pm

I'm Looking for Some Free Functional IRC bots that DDoS, Download/Exec, Visit Website, botkill. Those are the main Functions i need/want for a free irc bot

Use the search function.

I'm sure there are lots of them available if you look.

He want's a bot that can do more than an http bot can. He wants the ability to do commands like '.t' when somebody posts a link. HTTP bot is used solely only for ddos.

He does know that if developers re the stub they have his channel AND irc uses more resources

What even? You do realize that HTTP bots can do more than DDOS right? The only difference between the two is how the bots are managed...
