Make sure to watch the 2015 random Utilize get BXB.

Video description:

Kid gets salty because i raped him with needler flamethrower and missile pod so he raged and kept bagging. His rage after the games we played were beyond belief. The kid really thinks if hes on my team and deranks in 2015 that it'll matter LMFAO.

Background behind this game was teammates were garb and enfear was destroying everyone. So after he ate needles 8 kills in i gave up and messaged him in game telling him he was to good because they were perfect needles and more than 9(the required amount) to kill him. Utilize didnt like the past games of me raping him he always bagged and thats the only time I bagged waas after he got shit on.

Use the backfire glitch to BXR someone or just use the BXR and post it....

I guess some people just need some attention when they don't get it at home.

Have you been able to double shot on MCC(I was never good at H3 double shotting)

I sure haven't be able to I think I might have to get on 360 to get good then get on x1 and try it

I'm not sure how you bxbbed that guy you were not missing any ammo and didn't have any nades so I'm kinda shocked that h3 has 3 bxb methods

Latina Girl - May 7, 2015, 8:05 pm

Cool clip man. I don't think I could do that. I've always been bad at those combos moves lol.

I dont know if the old way works with the ammo missing. I use this one because it always worked post patch.

So i just beatdown and y button(at the same exact time!) at the exact moment he beats me down. The weapon automatically switches and you get to beat down right away with your secondary.

And it can only be pulled off host.

Too greasy for Utilize and his randomness. LOL

Nice clip though for real.

I forgot about this one lel I did this in 07-08 and called it blocking beatdowns because back then his wouldn't count if done right lel such a H3 kid I was....

feeling like an idiot

BYLXYB still works in MCC btw Ive done it 3 times in testing.

The timing on LX is harder tho...

If you want to practice off host glitches and stuff hmu

I gotta work on my bx reloads on H2 and my H3 glitches

Mentality of halo players summed up in two sentences.

If I'm better they are total fucking trash.

If you're better than me you're a fucking nerd.

?
