Why do you come on HF? Mainly I read about Security, Anti-Virus, etc now. But I used to do a little eWhoring, brought no success.

Why do you want to join Echo? This is my first group ever applying for and Echo has a lot of great members already in it and I would love to be apart of the echo community.

Plan on releasing products/more products? I hope to in the future. Got a few eBook ideas in mind.

Age: 16

AND SOME STUFF ABOUT YOURSELF: I am 16 years old, I play baseball and love Runescape. Yes I love Runescape. I currently do some work but prefer to keep that private. I specialize in PayPal (Their Security System and stuff like that). I'm a nice guy with some interesting views on life. I can be an asshole as well, but that's only if you're a complete fuck boy. Anyways that's really all about me I'll release to the public. If you wanna know more about me, shoot me a PM. Thanks.

Why do you come on HF? Mostly to sell a few things, lurk the lounge, talk to a few close friends.

Plan on releasing products/more products? Sadly, no.

Age: 19

AND SOME STUFF ABOUT YOURSELF I like to play xbox and watch anime in my spare time (I know, embarrassing). Other than that, I don't really do much else.

Sorry if this isn't a fancy app, but it's an honest one. Thanks for reading.

Ooze - May 6, 2015, 8:32 pm

Why do you come on HF?

To be honest I was a noob and wanted to be a L337 hax0r however after being on hf for a while and creating friendships and enemies I realized it wasn't just a hacking forum but it is a community. And I have enjoyed my time in this community and would love to expand my relationships.

Why do you want to join Echo?

Because I love the lounge and its so laid back, however lately a lot of threads have been pretty LQ and dumb, and I would love to be in a group with other members who have this save love an mentality about the lounge.

Plan on releasing products/more products?

Honestly if everything worked out like it would I would have some products out, sadly people pull

out last second. But to answer the question I have no official plan for a product but if I found some interested members I definitely could see something coming out in the future. (Think like Summer time)

Age: 15

Country: United States

Who Is C0deZilla?

I casually play Xbox (YO Understalker IM still waiting on that FIFA game PM me bro!).

I have a deep passion for soccer and I watch and Play at a club level. (Ya not as great as the HF member who's a pornstar but its something)

I also love to code and have made several small websites for local business including the gym I workout at.

Tutorials from Echo? Where?

Magicmann - May 6, 2015, 8:52 pm

I come on HF because I get bored and this place entertains me. Originally came to learn from other people in the fields I enjoy, and that generally didn't happen. Echo seems pretty decent because I actually have an idea of what the leaders are like. In about six months, I'm going to be getting into large scale online cryptocurrency exchanging, while simultaneously working on a start-up hosting service, primarily catering to developers in Texas. Proceeds from both will be going towards funding a privately owned museum which I'm currently planing to open.

I'm eating cheap Totino's pizza with extra cheese added to it. I wish it were delivery.

Application:

Why do you come on HF?

Mostly to learn. I am currently trying to get into the coding scene. I know SQLServer, VB, HTML, and other languages that go along with that(HTML). I also, in general, like the people here. Even when there's a controversial post, people on here will debate, instead of argue, and I love that. I am one for respect and most users have that on this forum.

Why do you want to join Echo?

For the same reason I come onto Hackforums, to learn. I would also love to get to know you guys through Skype, and would probably be on there while I'm doing my homework(Which envelopes quite a bit of my time as I am currently going to college).

Plan on releasing products/more products?

Yes, very soon. I'm working with a member on here as I would like to start a stressor service in a couple months. Hopefully I'll get a job over summer, and by the end of it have enough money to start up the service.

Age: 21

AND SOME STUFF ABOUT YOURSELF

As said before, I am currently going to a University. My major is Information Systems, and there's a new minor coming next semester that I might get as well(Cyber Security). I feel like with that minor it might boost me up in the job application process after college. I like playing CS:GO and a couple of other games. I am also my fraternity's treasurer, so I know how to handle a budget of >50k per year.

I feel like I am knowledgeable in many different fields, and contribute what I can to this forum.

Why do you come on HF? Honestly, it's a place to just chat. HF is a place for me to be me without being entirely rejected. At school, nobody talks to me. I'm nervous and I'm antisocial and I love being here. Why do you want to join Echo? Honestly, from what I've seen, Echo is cool. It sounds like a lot of fun to just stay and chat with everyone in Echo. All of you guys have great humor and honestly, I just want to be a part of it. And who knows? Maybe I'll learn something. Plan on releasing

Why do you come on HF? - I wanted to learn 'hacking' like most of the people who came do join here. And I think I pretty much achieved what I wanted to.

Why do you want to join Echo? never been in a group before, so I'd like to join an active and leading group to make friends/help them, etc.

Plan on releasing products/more products? Yeah I have a couple products in mind. I'm not talking about ebooks, more like programs, etc.

Age: 17

Country: India.

AND SOME STUFF ABOUT YOURSELF - Well, i'm good with programming and stuff. And hacking too. I've been planing to release a few products including a stresser, but I don't have the investment that is required yet. Echo seems to be a cool group and I'd love joining it.

Why do you come on HF?

I come to HF because it's a place where I can show my true self, None of that social stuff where I need to be like the others. I've met many friends here and hope to make many more.

Why do you want to join Echo?

I want to expand what I know and the people I know, and it seems joining groups is one of the best ways to do so.

Plan on releasing products/more products?

I hopefully plan on release some sort of CSGO related product eventually.

I'm an avid gamer along with musician. I've only been in one group here before and that was Polyman before that died instantly. January 2015 - It's been 1 week since the destruction of Zero began - new members were pouring in as Syrah started selling buy-ins for a mere \$50. Literally everyone and their grandmothers could join. I couldn't stand this - Zero was being lead to the depths of hell - there's nothing saving it at this point, everything is over. Emotions were overflowing, and I cannot deny that it took control of me. Depressing, dark thoughts clouded my brain. At this point, I felt like suicide is the only way out. There's nothing saving my favorite internet group. I gave up and turned off my PC, and went to sleep.

I woke up the following day - groggy and unmotivated. Why do I bother getting up anyway? To see another faggot get added to Zero and ruining it further? Oddly enough, I felt different that day - as if I knew something good was going to happen. I booted up my PC and loaded up my Skype chat. I hovered my mouse over "Zero Skype Chat", and hesitantly clicked on it.

" HAAAAHA NICE MEME Xd "

" I'm a huge faggot and I type on the internet like I'm speaking to my employer. "

Fuck me, I'm not even surprised at this shit anymore. I PM'd Haris, Dan and Arrow - begging them to accept me into Echo - the most exclusive hacker group on Hack Forums. They weren't having any though - fuck off, you're not a hacker - is all they told me. It's true, I'm not a hacker, I just want a group of friends who I can trust, who I can enjoy my time online with. It's been far too long since I felt that since Zero has been destroyed.

Suddenly, Arrow replied with - "apply via userCP". Those words resonated in my mind for hours - I'm finally in. I finally do not have to bear the idiots of Zero. was greeted by our lord, Dan HAYDRAZS, and he smiled at me - "Welcome to Heaven.", he said. Haris followed with a "stfu dan u dumb cunt", and we all went on to have endless hours months of fun in the chat that day.

If only the true OGs in Zero can join Echo too - then we could have the best group on Hack Forums again - without all the drama and faggots. And oh boy, was my wish granted. Under the great leadership of DAN HAYDRAZS, he managed to convince Haris to convert the group into the next new lounge group, and all my friends were invited - Funtage, Junior, Billie, and more. It was truly the happiest moment of my life.

Months on by peacefully - Echo was a true brotherhood - no, a family. There was nothing that could break us - be it money or lust, we had each others' back. We would back each other up on scam reports, we would participate in illicit activities such as throwing many apples at one person, being ForceOP, harassing other groups as one. I was happy, everyone was happy - Echo was happy.

Was.

Be it fate or not, Tick was soon added to Echo - Tick was an old friend of mine, I believed that we could still be the peaceful Echo I knew. Everything was alright, and I heaved a sigh of relief - everything will be fine, I told myself. But, oh was I wrong...

The Judge - THE JUDGE. He was soon added to this group, and drama erupted. Bonds were broken, sides were taken, insults were thrown. Everything was in CHAOS. I cried, and I cried. Happiness is a lie, and The Judge was the devil. He ruined everything for me. EVERYTHING. I feel

nothing now, only emptiness.

Everything is temporary, nothing is forever.

Muggsy - May 7, 2015, 6:58 am

Why do you come on HF?I use to come to Hack Forums to learn more about Website Hacking. I got out of that scene and now I just pretty much hang around in the Lounge and talk to people.

Why do you want to join Echo?I am just looking for a chill group to join and meet some new people in the process.

Plan on releasing products/more products?I am actually planning on releasing something that is currently classified as of right now.

Age:20

Country:United States

Why do you come on HF?

The same reason why people do sports or any other activity, for the enjoyment. At first I came for the one purpose of becoming a hacker lol. But as I kept going deeper and deeper into Hackforums, a whole new meaning came to me. Hacking no longer became an interest to me, but learning and having fun is what drove it away.

Why do you want to join Echo?

Echo seemed like a chill group and one of the most active ones too. But my main priority is to recognize more members and meet new people. I feel as if a lounge group will be an experience to communicate with others.

Plan on releasing products/more products?

I've been wanting too really soon, but none as of yet.

Age:

16 turning 17 next month?

Country:

USA, in the Midwest

AND SOME STUFF ABOUT YOURSELF

I joined HF about a year ago and didn't really like it at first, so I took a two month break or so. But towards September/October HF really started to grow on me. The enjoyment of learning and entertainment. I'm more of a laid back and funny guy. Not usually a dick or abusive. And I love watching movies and TV shows...lots of TV shows.

Hydraulic - May 7, 2015, 7:05 am

Why do you come on HF?

- To chill with ma niggas and laugh at skids, make some cash cash and be a sik kunt

Why do you want to join Echo?

- Last group I was in was Empire, feel like getting back into a group again, so echo is my game gang gang

Plan on releasing products/more products?

- I plan on with the assist of echo members, we can release some cool shit and i have a few ideas

Age: 18

Country: Denmark

Some stuff about myself: Well I'm 18 years old and a student of the international baccalaureate programme. I like to go to the gym and chill with ma nigs, as well as making dollar billz. I think this is the third time I'm applying for echo, and ive done video applications for both recruitments with no luck so i cbf to spend valuable time again if it will end up as it did the previous times.

peace homes

The Dragon of the West - May 7, 2015, 7:50 am

Dragon of the West's application to Echo

Why do you come on HF?

I came to HF thinking I was going to be making a shit load of money by hacking like most others. Then I just got addicted and make some money now and then. But the reason I keep coming back is because of the community and all the fun to be had by either watching trolls like vinnie preying on people, or looking at the lounge just to see whats going on.

Why do you want to join Echo?

I want to join Echo because it would be a great time to get to know a few more members and grow my contacts a bit more. Also, I would like to see what the group is all about and if I would like it.

Plan on releasing products/more products?

No,at least not anytime soon. I don't like selling things on HF at all. I choose to make my money with things outside of HF,most people I've dealt with has tried to scam me. Some of those members where very notable members on hackfourms but I never could get enough info on them to open a scam report.All in all, I don't like making deals with most Hackfourms members.

Age:

17 years young.

Country:

I live in the land of the plenty where my brain is never full and belly is never empty....But ya america.

a little about me:

I love watcing tv shows, movies, and sometimes playing video games. I have collected a huge amount of blu-ray movies and new gen console games lately for some odd reason. I also love Greek and Roman mythology.I tend to not get in fights with other hf members much and try to be a good guy with good humor.

Ya we both know you love this application am I right....I expect praise any moment now.???

my name is dean and i'm an alcoholic

everyone says "hi dean" in unison, in a slightly lower-toned voice because they realize i have had troubles during the last 15 years of my life

i start by presenting myself properly, shitting on the entire "alcoholics anonymous" concept and tell them about the work i had, the wives i've lost, the kids i've lost to my lost wives

i pull up the usb drive that i had in my back pocket, it left a slight itch in my left buttock

i push it into the computer and turn the projector on

a picture of my son pops up

i press enter

"rest in peace haydrazs"

i'm sorry son

i'm sorry

on the projector you heard a wirring noice, such as the ones from old movies

you see arrow, pregnant

we're checking the sex of our child at the doctors

i zoom into the screen, and as i see the tiny penis i give a short laugh, and i smile to my wife, arrow, with a tear in my eye

she smiles back

a second of black screen

when the picture regains its light, i hear a loud "aww" from most of the people in the meeting

it's you

it's you haydrasz

you were only 3 days old, so you were basically just laying on your back, but you were so cute

i tell the people that i chose not to bring the clips of you growing up, and i see that they all have a tear in their eye

the next scene that shows up is your gravestone

i couldn't hold it in, so i started crying, unplugged the usb drive and sat down on my seat, where i sat for the rest of the meeting

CUT SCENE

as everyone was about to leave the room we were in, one particular woman gives me a long stare
and i see a slight move in her lip, as if she was subtly giving me a little smile
i drive home and i check my voicemail
it's her
i hear in a deep, monotone voice
"hi this is understalker i would like to invite you into our hq group echo"
i say thanks, look at the picture of haydrazs that hangs beside the phone
i give a subtle smile

Why do you come on HF?

In all honesty I still keep up with HF because of the fun of it. I've been here for many years now, and I don't expect to be tired of it anytime soon. The fun of posting, reading interesting shit, meeting new people and such. I luv it. I use HackForums wherever I am, it's like a FaceBook thing, entertaining and fun imho.

Why do you want to join Echo?

Echo sounds like a one-of-a-kind group and a group that fits me, as person aswell. I love Lounge groups, as I feel like we have the freedom to post and have fun, without being spanked and kicked. It's entertaining and I like to meet new people like me. ?

Why do you come on HF?

I joined Hackforums in the summer of 2013. I remember when my friend told me about this forums, it was the only forum I have ever been on. I had no idea what to do but I started offering my graphics for free because I was trying to get better at Photoshop. I went inactive for a while but 2 years later I am here applying for Echo :) I mainly come to Hackforums because it is just a place that I can talk to others and have a great time, learn many different skills, and make money with my love for marketing. I am only 15 which is pretty young, but I am still a very mature person.

Why do you want to join Echo?

I would like to join echo because it seems like a very HQ group. I have seen many Echo members that are very funny and nice. I have so friends in Echo that are always talking about the sub-forum and such and it makes me really want to join Echo and see what it is like. I would also like to meet new members and just have a great time in the sub-forum and in Skype chats.

Plan on releasing products/more products?

For sure, I am always releasing more products whenever I get a great idea. I am a great marketer and also the youngest marketer on Hackforums. I have been on many forums and websites ever since I was 13 years old, creating products and finding ways to make money and I have become very successful. I would love to represent Echo products and create some with other members also!

Why do you come on HF?

Can't remember the exact reason, but can imagine it was because I was interested in learning some more about coding and basically just about computers.

Why do you want to join Echo?

Echo seems like a really great group, where people seems like their are serious, about everything that is happening on HF. Echo just overall seems like the perfect group where I would fit best in. Maybe not the most active member here, but if I become a part of this echo "family", it should be no problem to be active here. So to meet some new great members in Echo would be amazing, and just having a great time with the other members in the group.

Plan on releasing products/more products?

Not really. Don't really have anything going on right now that can be sold on HF. But I got no problem in being a part of other projects, or help people with their projects.

- Been a part of the HF community for almost 5 years.

I also wish to join Echo so I can consult like minded individuals regarding Hip Hop bars especially within the UK scene.

Why do you come on HF?

I come on HF because I enjoy the time I spend here, I like some people here and I have found good friends here I really like to talk to. And let's not forget HF is a big market place where the possibilities are infinite.

Why do you want to join Echo?

I am looking for a HQ group where I can talk to HQ people and help them and recieve help, find partners etc.

Plan on releasing products/more products?

Not a product but a exchange service, I will be exchanging to OMC, BTC, LTC and more. I am always up for new business ideas.

Why do you come on HF? I have been coming on HF for basically 6 years. HF has always been my place to vent and to explore other people passions and creations and to let myself be myself with the minuscule judgment of others.

Why do you want to join Echo? I want to join in on the community. For probably the last year and a half I have just sat back and not really taken part in anything and I would like that to change, so whats better than joining a group?

Plan on releasing products/more products? I would like to release products in the future I just haven't made an attempt. I mostly just lack the current funds for a start up project.

Why do you come on HF?:Well, i had known about hack forums for awhile, but i never really looked into it until at about the November time in 2014, a friend of mine told me to join. So i did. Ever since then, i have been having a great time on the forums.

Why do you want to join Echo?: Well, besides my interest in various topics around hack forums, i feel that i need to prove myself to Understalker.

Plan on releasing products/more products?: Yes. I have about 3 projects in the works currently that i am working on with a team of people.

Age: I am 18 years of age (19 in 11 days)

Country: I currently reside in the United States of America.

Stuff about me: I am an active member on the forum. I usually lurk and report posts and then go on to post around in the Rules, Announcements, News, and Feedback section. My post count is just under 500 due to the fact that i strive to be as high quality as i can be. (With a few exceptions).

Side notes: I enjoy gaming (BF3, CoD, RS, WoW, Minecraft and some other games) and chilling with groups of people. I am always in my groups TS (AnimeFAN) and am active on the skype chat aswell.

A note to Haydrazs and Understalker: I know that a while back i applied via user cp and got neg'd for it. I am sorry about that. I actually find a bit of humor in it now. I hope you can understand.

Thanks for taking your time to read this.

Also they could just copy a sentence like this "sorry we don't need you atm in our group, feel free to apply to next recruitment.". One day, I was in hackforums giveaway section.

I was just a skid then, but I had high hopes and dreams. Inspiration from the rare pepe I seen (cannot reveal cause if I did it wouldn't be rare anymore). I needed to know how to dox modems, cause when you do that you become a top kek deedoxer.

Looks like this

[img]http://image.shutterstock.com/display_pic_with_logo/5479/99328751/stock-photo-disguised-computer-hacker-99328751.jpg[/img]

I started posting in hundreds of free dox program threads and finally got what i needed.

[img]http://thumb101.shutterstock.com/display_pic_with_logo/79405/79405,1306476263,3/stock-photo-mountain-view-ca-may-google-announces-mobile-payment-system-google-wallet-will-begin-78049627.jpg[/img]

As I found this wonderful invention unbeknownst to man. I quickly started to deedaws my targets.

I used this button to send hell

[img]http://thumb9.shutterstock.com/display_pic_with_logo/797209/175298696/stock-photo-ddos-attack-on-red-button-on-black-computer-keyboard-175298696.jpg[/img]

Months passed by, as I went into every game on PC master race and shown my true power. Millions of internet thugs bowed down to my almighty power. Never to talk shit or get hit again.

There was only one final test, the Echo test. I qualified and was in, I showed them all my ultimate deedawxing skills and they were amazed. The group chat on skype was looking up to me and begging for LOIC program download link virustotal 0/35 non crypted for their havoc. But I declined, as I had a 0day java exploit for HOIC the ultimate IRC athena program.

A few days later, Omniscient PM'd me saying I had earned the most prized possession. Hackforums SQL deface page

<https://hackforums.net/shell.php>

I added it into HF forever and will always be known for my 1 inch ddos punch

Thank you and goodnight.

Why do I come on HackForums? I find HackForums endless amounts of entertainment. I love living in the lounge. 85% of the posts there make me want to kms and that to me is entertainment. I first joined HackForums in 2013 to learn more about ratting. I was decent at getting slaves and did well but stopped all malicious activities such as ratting and now i'm clean.

Why do I want to join Echo? I love the userbar, I love the humor the group has and I love the name. I also live in the lounge and feel like i'm echo material.

Plan on releasing products/more products? As of now, no. I don't really buy or sell on hackforums too often. Right now I have a small "shop" selling some Original minecraft names.

Age: 18.

Country: United States, Dallas Texas.

Extra:

I mainly play video games. I love counter strike and anything PC related. I'm currently in L'appel du vide and love it here but I want to be in a bigger variety of groups here on HackForums.

My favorite section on HackForums would have to be the lounge. I check out the lounge numerous times a day on average and find it the most entertaining subsection here on HackForums. I have over 1000 posts in the lounge and it's my most posted subsection yet I don't consider myself one of the low quality members in the lounge. I mainly post to help people out or if I find something interesting.

I'm currently almost 19 years old and as of right now, I have 3 weeks left of highschool. In the fall i'm off to college to do my basics then do something IT related in the future.

Some of my favorite things to do would be fixing computers and playing video games. I'm knowledgeable in Windows and i'm known as the "smart computer nerd" as I know quite a bit about fixing things.

If you need to know anything else, just let me know.

Echo Application.

Why do you come on HF?: Originally I came to HackForums for the sole purpose of Minecraft. I was a young kid who dedicated his life to the game and looking back on it I quite enjoyed myself. Then after a while I figured out that HackForums wasn't just a gaming site but much more. There were loads of intelligent people with knowledge to share and obtain. So I branched out into the news sections and the lounge for a bit until finally finding my favorite section the "SRPP" or science, religion, philosophy, and politics. This and the L'appel du vide sub-forum are where I spend most of my time now.

Why do you want to join Echo?: Well to put it simply I love discussion. I especially love discussion with intelligent, fun, and charismatic people. Adding another group to my profile will help me branch off and become active in other sections. I'm on almost everyday and sometimes the sections I enjoy are a little slow moving, so I figure why not give myself another place to continue discussion with more intellectuals.

Plan on releasing products/more products?: I don't code or make products unfortunately. However, if I find fun and easy methods I usually share them. I also giveaway some cash now and again along with proxies of all sorts.

Age: 18

Country: USA

About me: Well I'm Intelligent Sin and I've been a Hackforums member since 2011. I came to this forum originally for the minecraft and griefing section like I said before. I used it just to download clients and talk about the game. However, I quickly became bored with that and started helping people in the regular minecraft section and straying away from the griefing section as it's full with scum. I then started to branch out into other gaming sections and lost interest rather quick. I then discovered the SRPP section and fell in love. I'm an Atheist and hold belief in logic and reasoning. So being there for the little time I have has really opened my eyes as to how many ignorant people fill this forum. It's also let me pick out the few that are intelligent, hence why I'm typing here

considering I love discussion and would love to branch out into other areas of the forum. I'm a literature fanatic! I love reading, writing, poetry, theater, and any art having to do with skill. I read quite often, mostly non-fiction titles however I tend to enjoy the occasional work of fiction. I really enjoyed reading Richard Dawkins and his title "The God Delusion" and the well known title "The Theory Of Evolution" written by Charles Darwin. I really enjoy doing graphic design in my free time. I draw quite often, and am constantly improving. Not much else to say here other than I make almost anything, while continuing to work at it until I'm satisfied.

Thank you for reading my application and taking the time out of your day to do so. :Yeye:

Why do you come on HF? To learn about things that I am completely unaware of. Learn monetizing methods and moreover have fun and meet people :)

Why do you want to join Echo? Besides being a part of a group that is very active and has very HQ members , I find ECHO more intellectual and mature than many other groups on this forum.

Most of them fix buy-ins for making money to themselves , but unlike them ECHO IS HQ

Plan on releasing products/more products?Oh yes , I've had various products on this forum and they all have run pretty good :)

I have a few more projects on the way , probably will be related to Instagram jacking , maybe. But I definitely have alot in mind :)

Age: 19

Country: India

19 years old Indian guy , who loves Arrow and Stephen Amell. I have alot of interest in learning new stuff and helping the community out here. I was a complete noob about everything when I first came to HF. I learned a little Photoshop and After Effects. [Also tried to help people here](#) .

Besides making money online , which I treat as a hobby , I enjoy doing outdoor activities and helping people as much as I can.

I believe that if you take any job to be a need of yours , you'll never succeed , but if you make it a hobby of yours , you'll have success running after you. As much as I enjoy wasting time (watching sitcoms and movies..) , I try to utilize it by doing something constructive , or maybe just learning

some computer language. I find pleasure in helping people with the stuff that I know of , because that helps me learn more and improvise on areas that I am not good at.

Thanks

Why Choose Me? Why do you come on HF?

The real question is why not choose me, i have had experience with many groups currently i am in null and nightfall. i am almost always active and i try to be a of great contribution to all groups. I am one of those people who spend around 6 hours a day during school days, watching movies and tv series. There is no specific reason i come to Hf if i had to choose it would be as it is a great learning oppotunity, nad its fun you get to meet new people and build good bonds with them.

Why do you want to join Echo?

I want to join echo as i feel that it will also be a great learning oppotunity, thats what we are all here for right, learning and having fun. I feel that echo is special as i have not seen anything sceptical with the users in the group and i have come to know some of the members/ex-members and they have all been really nice people. I feel that i may be able to contribute some of my limited knowledge :) also i applied for leader on the other thread but hey its not a big deal i thought i wouldnt be accepted so you didnt break my heart :)

Plan on releasing products/more products?

Planning on releasing product is something i can not answer if there is a spot in the market and i can fill it then yes i will make a new product but i dont just make products like most members who are out just for financial gain.

Age?

I am 16 but im kind of mature for my age but i do enjoy Banter :)

Anything Else?

I can contribute many things, but I don't want to sound big headed and list all. The main things that I enjoy doing is modding games, especially on the Playstation 3, I am also able to do free recoveries. Overall I just want to make the gaming experience image change from a little kid raging and screaming back to how it was. I am nearly always on the forum so I can always keep an eye out on the threads. I often earn some income from modding but I would not mind giving some of it away with giveaways to help bring publicity. I have overall general knowledge of HF. I wont promise things that i cant achieve, so lets stay vague.

just relax with. I would like to join Echo to find business opportunities as well as have a fun
experience with other like-minded individuals.

About me:

I am a new face on HF. I've heard alot about the forum and decided to join. This site is something unique and has a very interesting marketplace as well as hacking forum on it. I do small recovery jobs for people, from facebook accounts to emails and have earned a decent revenue from that. I study Global Business and plan to pursue a Masters in it. It would be a great opportunity to expand my connections as well as meet generally relaxed and like-minded individuals.

Hope to become apart of Echo and thank you for the opportunity to apply. ?

The stuff I said I wasn't joking about, besides saying reef.

The video AKA V for Vendetta mask was a joke.

Why do you come on HF?:

I come on HackForums for entertainment purposes mostly. I do help people out every now and then, and some of the programs here are nice.

Why do you want to join Echo?:

Because why the fuck not?

Plan on releasing products/more products?

I dont sell anything.

Age:

I am 13 years of age, but no one believes me. :'(

Country:

I live in the United States.

AND SOME STUFF ABOUT YOURSELF

I collect weapons of all kinds. I have a three legged cat. I can shoot a robin hood (put an arrow through another arrow) at 15 yards away. I play soccer as goalkeeper in real life.

It's just terms/words describing something.

Why do you come on HF?:

I come on HF because one day I hope to become a pro hacker. Once I reach my pro hacker status I will use my skills to hack the NSA and their mass surveillance. Once I am in I will get the nudes to the hottest celebrities and fap til I become swole. I might also call up some people like Jimmy Carr and make him tell me jokes.

Why do you want to join Echo?:

It's 7AM, I've been up all night. I hit view new posts, seen the recruitment and I figured.. why not. I'm feeling spontaneous, I have a sense of humour, I think. Sick jokes make me giggle. I hear you guys are pretty funny.

Plan on releasing products/more products?:

Nein. To do so would require me to be good at making something or owning something and nah that's not me. I'll stick to watching tentacle porn and going on forums for entertainemnt.

Why do you come on HF? To lurk through. Because HF is one awesome place like that. Especially Innuendo & Lounge threads where people go all crazy, HF is really epic just like that, in it's own way. At the end of the day, one thread from any of the section will make the day for me. ?

Why do you want to join Echo? Well, Echo is one group that I might actually fit in. So, I'm willing to join it and have fun with those lounge gods. ;)

Plan on releasing products/more products? Haven't really have anything right now.

Why do you come on HF?: The marketplace is what originally attracted me, but now I'm here for the community. I've met tons of people here and always keep up with what's going on by reading the HF news.

Why do you want to join Echo?: Mainly for the lounge threads. I was in Nightfall and Zero at one point. They both had nice and unique lounges. I want a chance to experience the lounge of a new group.

Plan on releasing products/more products?: I buy and sell lots of OGs and stats. So if you consider that a product, then yes.

Biggie or Tupac? This was a question in the last application for Echo, but alas it was closed when I thought of my perfect answer. Nowadays everybody want to talk, like they got something to say, but nothing comes out (except me on HF) when they move their lips, just a bunch of jibberish and the motherfuckers act like they forgot about dre!

Thanks!

NieR - May 12, 2015, 6:54 pm

Why do you come on HF? Mostly for groups, I like meeting and talking to alike people. A lot of times I find myself procrastinating and this site provides a really good place to blow off time when you're bored or you just wanna talk about random shit in the lounge. I sometimes like going into the SRPP section even though there some people who dedicate their lives trying to prove how they saw god while taking a shit.

Why do you want to join Echo? Looks like a fun group to be part of, I don't really do much on HF besides occasionally sell/buy/trade online accounts so that's that. I don't really know anyone in the group and I join groups primarily to meet people and talk about whatever comes to mind.

Plan on releasing products/more products? No, or at least nothing currently.

Some Stuff about me: I joined HF when me and my friend were looking for og gamertags on XBL. I've since sold sold my Xboner (it fucking sucks dick Halo has no future). Since then I kind of stayed because I find a lot of the shit that happens on HF really entertaining to read about. I play yugioh on Devpro/YGOPro (game is way too expensive to play irl) because I don't have any games on my PS4 yet and everything on the 360 is dry as hell.

dunno what else to write about so I'll end it here.

thnx for reading

Why do you come on HF?

I come on HF because this forum is awesome! Talk about anything here, from hacking to monetizing, from monetizing to innuendo, from innuendo to groups. I mean, what else do you want in this forum? It's the most complete forum I ever visited.

Why do you want to join Echo?

"Echo is a self described lounge group for talented individuals." Lounge is my most active section in HF and I think it matches with me.

I think so. It will probably be something "doxing" or "footprint removal" related.

Q: Why do you come on HF?

A: I come on HF to have a laugh in the lounge section or just chat with other members. If that's not the case I usually wander off into other sections such as the CS:GO section.

Q: Why do you want to join Echo?

A: Never heard a bad thing about Echo, only great stuff. I think I saw an Echo v. Fortune type of thing a while back? Shit was hilarious.

Q: Plan on releasing products/more products?

A: Anytime soon, no. Sometime in the future probably.
