Group re-brand or just looking for new people

I'm actually excited about this. Brotherhood was one of the groups I find interesting in the lot of them. Whenever I see one of their members I always wonder. Probably one of the coolest groups imo.

I even have them as my HFES bar:

What I will tell you guys for now is that instead of having a gazillion sectors, the "new" group will be focused around 2-3 things only, one of them being computing.

Aura said and I quote: "I cannot fucking stand Roger, I'm done."

You may think I'm kidding but I'm actually 100% serious. He did in fact say that.

From the outside and what I've heard, it's a lot better than what it was with having a ton of "friends" take up 80% of the memberbase and be inactive. I'm glad things are working out for you guys :)

That is correct, thanks.

Also a few updates,

We purchased an SF earlier this month and it will be used for one of BH CPUs program's ran by Roger, Aura, and a few other of the guys.

We will also be purchasing another SF for a program ran by xFlat related to business.

A BH product line is also in the works.

Awesome to hear, if you're accepted into Roger's program, will it be possible to join xFlat's as well?

We'd prefer if people stuck to 1 thing so they can completely focus on that and complete the program, after that they can try another program if they wish.
