Are you feeling lucky?

Why not try your hand at some provably fair blackjack with your Omnicoin?

Simply head on over to omnicha.in/casino/blackjack to get started!

Big thanks to [Sh1eld](#) for providing the script.

Cameron - May 7, 2015, 7:46 pm

Come on Abe, do you really want me to win all the OMC in there? ?

Can't wait to try it out!

Haha good luck. I put 25K in there so have some fun.

I've also enabled the free OMC option. It's currently set to give away 1 OMC free so you can test it out with some money.

VRUMM - May 7, 2015, 8:05 pm

Bought that script a while ago for \$300 then I didn't do anything with it because I was busy. Thanks Abe for utilizing it.

Grim - May 7, 2015, 8:29 pm

"provably fair blackjack" looks like a nice way to use the rest of my omc i dont need :D

brian188246 - May 7, 2015, 8:37 pm

The game looks great, also is a lot of fun :)

Will be buying some OMC to play.

Pharcyde - May 7, 2015, 8:45 pm

Decafe - May 7, 2015, 8:54 pm

Just bought some OMC to play. Enjoy the 2k I'm about to lose ?

Mr. WAVES - May 7, 2015, 9:08 pm

What's the rate win/lose behind this?

Abraham Lincoln - May 7, 2015, 9:32 pm

(May 7, 2015 09:08 PM)Y?O?L?O?n??li??n3?_? Wrote: [\[CITE\]](#) What's the rate win/lose behind this? That's very hard to calculate as part of it depends on how the player plays.

If you play perfectly you have a 49.36% chance of doubling your money.

severos - May 7, 2015, 9:35 pm

well, the free OMC image doesn't refresh when I click it, and it's not accepting the old captcha too :/

pfff, look at this:

I really think it should have given me a chance to hit, I might have gotten super lucky and got 21 to make it tie.

Dealer wins ties. Impossible for you to have won in that situation.

Still nice af gui, Abe did you code the gui or just the php html etc.

severos - May 7, 2015, 9:49 pm

Gotta say the luck is totally screwed up here, lost 10 games in a row, then black jacked 5 in a row
O.O

Funds are returned after a tie, actually.

blackjack is the highest. You don't have blackjack so you lost.

Abraham Lincoln - May 7, 2015, 9:52 pm

I started with 1 free OMC and I'm up to 1K now...

I'm trying to lose but I can't stop winning....

Purist - May 7, 2015, 9:53 pm

Well, it's the same way if you get a natural blackjack. The deal can't hit. So it's fair.

Well, it's not like I'm loosing anything. I'm just winning my own money :P

And I just lost it all to 5 natural blackjacks in a row from the dealer :P

severos - May 7, 2015, 10:25 pm

Did the game crush from too many players or something??

it's giving me 404 error.

Can't wait to try this out. I enjoy counting cards in blackjack at Vegas. Curious to see if the game is "Provably Fair" and if it is how will you stop us from counting cards
