Thread: [HF TRUSTSCAN || ADD THE TRUSTSCAN & DEAL DISPUTES BUTTONS ON THREAD'S POSTS](#)

Hash G. - May 8, 2015, 10:30 am

Hey guys !

I'm sure you all love the new feature of HF, the "trustscan".

But I'm sure as well you are tired of clicking on a profile page, then on "Trustscan" to see the trustscan of a member.

This userscript is made for you ! It will add a "Trustscan" button next to the PM button to make your scans easier.

Preview : [\(Click to View\)](#)

How to install it : You will need to install a script manager : For Firefox, use GreaseMonkey : <https://addons.mozilla.org/en-US/firefox/addon/greasemonkey/>

For Chrome, use TamperMonkey :

<https://chrome.google.com/webstore/detail/tampermonkey/dhdgffkkebhmkfjojejmpbldmpobfkfo?hl=en>

Then, just go here : <https://greasyfork.org/fr/scripts/9736-hf-trustscan> and click on "Install this script", and then on "Install".

If you want to review the source, just click on "See the source of the script".

If you find any bugs, or if you would like to see any implementations, feel free to PM me or reply back on this thread!

I hope you guys will enjoy !

My others userscripts : [\(Click to View\)](#)[\[Userscript\] Insert a custom text quickly in your posts and send it automatically.](#) by [Hash G.](#)

[\[Userscript\] HF AUTOSIGNATURE || INSERT YOUR SIGNATURE EVERY TIME YOU POST](#) by [Hash G.](#)

[\[Userscript\] Select what's inside the \[code\] tags.](#) by [Hash G.](#)

[\[Userscript\] HF currencyConverter\(\) || REAL TIME CURRENCY CONVERTER !](#) by [Hash G.](#)

Changelog : ([Click to View](#))1.1 :Changed the whole code

Added the "Deal Disputes" button.

Minor bug fix

1.0 :Initial release

Smexy - May 8, 2015, 10:33 am

It does work for me, it only creates my hf really black. and with the button.
is this a bug?

Fr?sh - May 8, 2015, 10:34 am

this looks nice

too bad im not 3p1c or ub3r

Hash G. - May 8, 2015, 10:34 am

Can you PM me a screenshot please ?
Thanks,

Trenchguns - May 8, 2015, 10:35 am

Posting here so I can come back, as well as say thanks do much!

Realizm - May 8, 2015, 10:35 am

I'me definitely going to get this as soon as I get on my computer, thanks you ?

Hash G. - May 8, 2015, 10:37 am

My pleasure :)
Though, remember it's still in beta, bugs may happens.

Raymond Reddington - May 8, 2015, 10:38 am

Damn, that's a really cool user script you have made out there. Thanks for the magnificent addition.

Hash G. - May 8, 2015, 11:00 am

I found a pretty big bug.

Spoiler [\(Click to View\)](#)

Kidding, but I'll be sure to let you know. Need to go home and install it first

Lol, I was like "Wow, a bug already... :(". You got me :p

(May 8, 2015 11:18 AM)Yani Wrote: [\[CITE\]](#) Does this load a popup? Would be good if it did. You mean, as the reputation rating ? As it's done now, it open a new tab, but I can try to add this.

ha4x0r - May 8, 2015, 11:46 am

Very useful button, I approve this. ?

Hash G. - May 8, 2015, 12:40 pm

(May 8, 2015 11:28 AM)Yani Wrote: [\[CITE\]](#) Well I was thinking more of a CSS popup but like the reputation rating would be good too. Could you explain a bit further ? Thanks,

(May 8, 2015 11:46 AM)ha4x0r Wrote: [\[CITE\]](#) Very useful button, I approve this. ? Thanks, you gave me the idea :D

Brendan - May 8, 2015, 6:11 pm

This doesn't really work for me.

The button doesn't show up even when I am out of classic view and my custom theme is disabled.

BITW - May 9, 2015, 4:16 am

Great feature. Many thanks OP for this.

Will inform if see any bugs.

Trenchguns - May 9, 2015, 7:14 am

So far so good! Had it on since last night, and no problems since. Thanks again for this.

Hash G. - May 9, 2015, 2:33 pm

Lana Del Rey_ - May 10, 2015, 9:12 am

Amazing! Thanks for doing/sharing this didn't even know this was a feature.

Fr?sh - May 10, 2015, 9:12 am

got 3p1c today and am currently using this feature

it is really convenient

thanks

Hash G. - May 10, 2015, 10:12 am

Thanks !

I'm currently working on a fix for the users who use the "Classic view".

Hash G. - May 31, 2015, 6:38 am

Just bringing this back to the top. I totally forgot about fixing the Classic View mode though, will do it ASAP.

woahxx - June 22, 2015, 10:52 am

Thanks for this one sir, saves me lots of time.

Roger Waters - June 22, 2015, 2:45 pm

Here's something I had coded, same idea with a few more buttons. Probably not going to release mine, but it's an idea if you want to add on to yours. :)

Hash G. - June 22, 2015, 3:14 pm

(Jun 22, 2015 02:45 PM)Roger Waters Wrote: [\[CITE\]](#)

Oh yeah, I think I'll add it. Thanks you for the suggestion !

Fish - June 24, 2015, 1:37 pm

dam, this is sexy. thanks for the share

b?xxy - June 24, 2015, 1:41 pm

Another nice UserScript dude, keep it up.

Hash G. - June 24, 2015, 2:04 pm

(Jun 24, 2015 01:33 PM)xadamxk Wrote: [\[CITE\]](#) Wait you're the one who made this script and Omni said to remove, or was that someone else?

If you don't release it, atleast make it public.Are you speaking to me or RW ? If it's me, Omni said he had no intention to add buttons like this.

(Jun 24, 2015 01:41 PM)b?xxy Wrote: [\[CITE\]](#) Another nice UserScript dude, keep it up. (Jun 24, 2015 01:37 PM)Fi?h Wrote: [\[CITE\]](#) dam, this is sexy. thanks for the shareThanks a lot, it means a lot coming from you both !

Roger Waters - June 24, 2015, 10:18 pm

(Jun 24, 2015 01:33 PM)xadamxk Wrote: [\[CITE\]](#) If you don't release it, atleast make it public.
Release = Making it Public

Basically the same thing. I might suggest we add the trust scan right into the site itself and not just a userscript. My script also has XMPP functional, which still needs to be done on the site. Might just make a big suggestion thread soon.

Roger Waters - June 24, 2015, 10:45 pm

(Jun 24, 2015 10:31 PM)xadamxk Wrote: [\[CITE\]](#) The only reason you wouldn't release it is because you are scared Omni may eat you.

And if that's the case, I can release it.

I was told I would've been eaten alive if I released that Mentors userscript and he's never mentioned it at all.

ha4x0r - June 25, 2015, 3:59 am

I like how you made it this far very great tool makes things easier.

Hash G. - June 25, 2015, 10:39 am

The v1.1 is out, adding a Deal Disputes button as suggested by Roger.
The full changelog is in the OP.

And thanks you haxor :)

Snake Accident - July 29, 2015, 3:51 am

Works well, I have no complaints. Thanks for the script!

Fliiix - July 29, 2015, 3:54 am

This make my life easier! Thanks

Thanks ! Don't forget to checkout my other scripts :)

<https://hackforums.net/showthread.php?tid=4911772>

Hash G. - September 9, 2015, 10:57 am

(Sep 9, 2015 03:05 AM)Yani Wrote: [\[CITE\]](#) Hey man, this wasn't working in Classic mode so I made my own version:

```
Code // ==UserScript==
// @name      HF Trustscan Button
// @description Add a Trustscan button to posts
// @include    http://*.hackforums.net/showthread.php?tid=*
// @include    https://*.hackforums.net/showthread.php?tid=*
// @author     Yani, credit to Hash G.
// @require    http://code.jquery.com/jquery-1.11.3.min.js
// @version    1
// ==/UserScript==

$(document).find("#posts>table").each(function (i, e) {
    var fullPost = $(this).html();
    var findButton = $(fullPost).find("a[title=\"Find all posts by this user\"]");
    var UID = findButton.attr("href").replace("search.php?action=finduser&uid=", "");

    var newButton = document.createElement('a');
    newButton.title = "Trustscan";
    newButton.innerHTML = "Trustscan";
    newButton.href = "/trustscan.php?uid=" + UID;
    newButton.rel = "nofollow";
    newButton.target = "_blank";
    newButton.className = "bitButton";
    newButton.style.cssText = "margin-left: 4px;";

    $(document).find("#posts>table").eq(i).find("a[title=\"Find all posts by this user\"]").after(newButton);
});
```

This works for classic & non-classic views, as well as for all custom themes.

It's only for the Trust Scan button but you can easily add the Deal Dispute button as well. :)

Would be cool if you add them together as I don't want to be an ass and create my own thread.

Good idea, thanks! I'll update it.

Thanks :)

Esme - September 9, 2015, 10:36 pm

thought it would cause a conflict with the custom theme I'm using but it works great, thanks

Fish - September 19, 2015, 10:00 pm

im not sure why, but i have used this script before and now the buttons are not showing up?

Mcbride - September 19, 2015, 10:26 pm

script doesn't work for me

Hash G. - September 20, 2015, 12:19 am

(Sep 19, 2015 10:00 PM)Fi?h Wrote: [\[CITE\]](#) im not sure why, but i have used this script before and now the buttons are not showing up? (Sep 19, 2015 10:26 PM)Mr. FIX IT Wrote: [\[CITE\]](#) script doesn't work for me

It's working on my end, what browser are you using ? Do you have any other userscripts ?

Edit : alright, I caught the problem. Fixed. It should be downloaded automatically, or you can just download it again from the link in the OP.

Mcbride - *September 20, 2015, 2:16 am*

Alright thanks, I'll check it out when I get back on my computer. Thanks

Edit: works perfect

Fish - *September 20, 2015, 12:14 pm*

yup it works now, thanks.

phunted - *December 16, 2016, 7:18 pm*

Just started using this & liking it alot.

Thanks mate.
