Thread: [Scammed ANOTHER \\$50 by Rice UID 2109906](#)

Circular - May 9, 2015, 7:18 pm

Christ I'm having a bad day today. Refer to [this thread](#) for backstory.

Rice already owed me \$140 for a previous scam which he said he'd pay back. His PayPal wasn't verified (a new one since old one got restricted) and needed to buy a VBA. I was hesitant, but eventually decided to do a \$44 BTC -> \$50 PP deal with him again earlier today. Well, bad idea. Just got an unauthorized chargeback on PayPal from his second PayPal account. Chances are it's a stolen account (new info I learned today, opening community alert about that, separate issue). Just going to have to bite it. Never deal with this user.

PayPal dispute: Spoiler ([Click to View](#))

Call me an idiot all you want, this was an attempt to get the \$140 back he promised to reimburse. Didn't think he'd scam again. Lesson learned - the hard way as usual. Keep in mind, this PayPal dispute was not initiated by PayPal, it was initiated by the buyer.

3clipse - May 9, 2015, 7:20 pm

You're not an idiot, everyone has their bad days.

I hope you're able to sort something out!

If you'd like.... I could give you my next couple of ewhore funds? around \$55 - \$70

Not just a bad day but also you need to get some brains. Why would you try to deal with him despite being scammed for \$140 by him in the past? Sigh. I really no wonder why he isn't in your ignore list, yet.

I hope he makes it back soon and i hope rice can stop being a bitch

I'm not being a bitch, I have my reasons. My friend went on the account and made a claim without my permission.

I was at the restaurant while he did this.

The dispute should be canceled by now. Sorry about that.

You're fucking retarded if you are logging to PayPal from any location but your home, or smartphone WITH data.

That is the reason your PP gets limited.

You're a scammer, and I believe you and your friend are the same person, if you catch my drift.

Enough of the games please. I'm sure PayPal can cancel it if you call. Chances are you'll wait it out, probably win claim and it'll just tack on (and never get repaid)

can't believe you went and did it to another user. Nobody is going to believe after your PP happened to get limited, that your friend logged your other PP and chargedback this guy no fucking way raising the b.s flag up.
