Thread: [Upgrading Contest. L33T/EPIC | No Requirements](#)

Gary - May 9, 2015, 10:26 pm

Welcome to my upgrading contest.

I will be upgrading two users.

How will the winners be decided?

One winner will be selected by Random.org

The second winner will be selected based off their application.

I know the title says no requirements but I do have one.

Make an application on why I should pick you.

List some things you've done for the community and why I should pick you because of it.

When does it end? First upgrade ends later today. Second one ends on May 19th.

Random.org Winner

Congratulations QueensWay

Viktory - May 9, 2015, 10:50 pm

Hey gary, first off thanks a lot for the opportunity.

I think I deserve this upgrade as I spend most of my time on HF helping people out in the W&FH, Beginner and cryptography sections whenever I'm not in Lounge (but a lot of the times my posts get ignored due to not having a shiny username :/).

I've also joined the hacking group Elusive in my time here.

I think HF is a great community to learn new stuff, and having an upgrade would allow me to acknowledge the people who really know what they're talking about but have their posts shadowed by other shitposters (janus, kiuhm, etc etc).

Also the PM box limitation is very annoying, haha.

I guess that's it. Once again, thanks a tonne for the opportunity and good luck to everyone else.

Gary I think we all know I deserve this the most. Thank you.

Modern day Hippy - May 9, 2015, 11:13 pm

i personally think i should get this because i am a smart boy with a brain for making money. I have ideas, just no funds (currently working on it) you can look at my rep and see that i'm a nice guy. I get

messages on HF from people that need cheering up or a confidence boost!

I really hope i get this, thanks for the chance anyways OP!

Teen La Queefa - May 9, 2015, 11:16 pm

I would LOVE this!!

I have absolutely no way to buy it currently , as I'm fair poor , but I like to consider myself a high quality member and I think I deserve the upgrade :)

If not , I hope whoever gets it enjoys it and puts it to good use , good luck!

ahemokay - May 9, 2015, 11:20 pm

I want to get upgraded cause i can't pay with Paypal and i don't got any BTC! :)

I hope im HQ enough to win this ;)!

Good luck. (SRY FOR MY BAD ENGLISH)

SiStemiC - May 10, 2015, 1:25 am

I would love to get upgraded because then I could contribute more to this awesome forum. I would make some HQ threads and help people with their Android and SQLi problems. Also the extra PM space would be handy because people send me PM's to help them and I have to delete messages every 10 days...

Thanks Gary. :)

Gary - May 10, 2015, 1:26 am

i'll upgrade whoever i decide later today im tired asf now 1:26am

Disparity - May 10, 2015, 1:46 am

Hello there. My name's Disparity. I originally came to HF in an attempt to further improve my Website Hacking skill. Upon arriving here, I quickly started to learn. However, I noticed over time I would find myself helping and sharing assistance more than I would have thought I would. Of course I kept learning myself and doing challenges and all, but I found myself dedicating more time to helping other members rather than studying (on the forums) my self. I managed to get myself into the group [Elusive](#), ran by Th3PonyWizard. It's a highly educational group in which I have learnt much from.

As I said, over time I started to help users more and more. I found that many users had rather interesting priorities and philosophies when it came to hacking, so I decided to make this tutorial [here](#). I've found a new passion of mine, and that is helping other members.

Aside from my time spent in various hacking sections, I also spend a fair amount of time in Buyer's Bay as I'm attempting to save up for L33T, and Anime Adventures. I've started to lounge around a lot more than I would have thought I would, but I don't see a problem with it.

I think I've truly found a new passion and reason to be on here, and that is assisting others. I find that it not only blatantly helps them but also improves my own skill and understanding through review and research.

Now I want L33T for various reasons. For one, I like the perks that come along with it, especially the expanded inbox space and the ability to post in SRPP, which is a section I would most definitely be active in, possibly one of the sections I would be most active in. I often lurk there, and would love to be able to actually reply, discuss, and debate the individuals in there. Two, I feel as though it represents a certain trustworthiness which I would like to represent and display myself. I feel as though it's rather prestigious, and it would show dedication to HF. Three, I have large plans for the future on here, and I plan to stay on HF for as long as I can in order to not only learn and teach

others, but to enjoy myself and make friends.

I honestly spend a fair amount of time on here, and L33T would simply make that time so much better. Regardless of whether or not I get this I will continue to spend my time on here helping and learning, as that is what I came here for, and that is exactly what I will stay here for. I have grown to enjoy spending my time on here, and I don't plan on stopping any time soon.

I don't think there's really a reason for me to deserve this rather generous gift over anyone else, though I thought my past on here is necessary. As you can see, I don't have lists of giveaways I've done. That is simply as I cannot afford it. I'm truthfully not anything special, though I still try to contribute in ways that will effectively help others whilst keeping my own budget.

Thank you very much. My apologies for the blocks of text. Congratulations for whoever receives this generous gift. ?

Learner Boy - May 10, 2015, 2:11 am

Thanks Gary for doing this :)

Firstly if you can see I am not a member which has a High Rep or has a high post count. The reason being I joined Hack Forums in Feb 2015 and it has been ups and downs for me since then. I am 18 year old student. Well I can explain why I don't have a high post count or a High because of the fact that ever since I joined Hack Forums I used to be it all day wandering around the monetizing section, the free give away section or for that matter in the Hiring section primarily because I had no money and wanted to make some. I would write posts all around the section to just mix up and feel what is like to be the part of such a huge community I also bought two eBooks both which cost around 17\$ and I guess 13\$ respectively from my savings which I got later. I must say I wasn't much amazed after seeing the eBooks and lost all my savings in it. After that I suddenly had trouble logging in to Hack Forums just because of the fact that I lost my Password and recovery link didn't work for me. This is the reason why I was inactive for 3-4 weeks. I tried to take the help of Factor8 to help me restore my account, eventually it took me like 4-5 weeks to restore my account and I thank Factor8 for doing so ! If you check my profile you can see me wandering around the giveaway section or for that matter showing interest of me being hired to get a quick buck because I don't have any money. Although now I have quite a decent threads and some Paypal giveaways . These are some.

<https://hackforums.net/showthread.php?tid=4802033>
<https://hackforums.net/showthread.php?tid=4793918>
<https://hackforums.net/showthread.php?tid=4787539>

<https://hackforums.net/showthread.php?tid=4760157>
<https://hackforums.net/showthread.php?tid=4799843>

Because I got frustrated from the money I lost through buying through shitty eBooks. I created this thread

<https://hackforums.net/showthread.php?tid=4755528>

Also I mainly wander around the Monetizing section and the Marketplace section to see what's new

and even bought a couple of eBooks from the monetizing section from some money I got afterwards. I must if I had used that much of money on upgrading myself I would had been more then happy and satisfied. In the marketplace section I wander around mostly because I like to see what service people provide and have shown keen interest in them. I have also though of providing some sort of service to people but backed off primarily because of the reason I though due to my low Rep and me being non-upgraded it all would go in a waste.

I also bought some Hacking Tools and some accounts from the Non-Free account sections also and lost my money in that too.

I also rented my signature space free for 2 weeks to show my love. And currently I am in the giveaway of the second signature space for an UB3R member.

I have also provided some services to the people using my website and also tried selling some items to help the community

I have also advised members on various issues and tried to solve their problems.

I also made some decent threads regarding Hacking , Monetizing and some other related queries and also gave some Paypal giveaways you check my thread. I must say if I had also saved that Paypal giveaway money and the money I used in buying the eBooks and the Tools. I could had been in the position to upgrade myself but I chose the community over myself.

So an L33T upgrade would be the best gift I would ever receive on my birthday. Considering what I have gone trough.

Thanks for reading this :)

Thanks for this upgrade giveaway also :)

Regards
Learner

EDIT: Well I turn 18 Today , Its my birthday today :)

Well, I would like to get upgraded, for many reasons. I wanna + rep to people that helped me, and I am here for a long time, and being L33T would be an awesome thing. Thank you for giving this away to people :).

The Last of Us - May 10, 2015, 4:06 am

Hey,

First off, I appreciate you doing this for the community and all members.
I came to learn hacking and learn alot of things.
And I did learn alot of things about hacking and that its not easy :D
I am now focusing on programming and leaning pentesting with Linux.

I would love to get L33T because people will take me more serious and I will have more features.
And selling something without being upgraded is hard without those features.
I am on this forum for almost a year now and in that time I mostly helped people with malware RATs
keyloggers.
I helped what to choose, setting up, what crypter to chose etc.

I dont think I 'deserve' this more then other members but I think complete new members with like 10 posts should not win this but thats up to you ofcourse.

Thank you for this giveaway and goodluck to everyone else!

DeltaGrinch - May 10, 2015, 4:09 am

I've been in HF for a quite some time already, I have joined a lot of upgrade contests, but sadly I had no chance of winning since I'm not really good at explaining. I have done some things like giveaways, made tutorials, free services, and tips to others, It's almost my 3 years in this forum. I have been active for quite a long time already, but I also get inactive due to some certain reasons. That's all I got to say, I hope I'll get a chance to win.

Thanks for the contest, I wish every participant luck!

I really think that I should win this as I feel that I deserve it. You can see my post count and my reputation, I've learned a lot on this forum and as you can see I've created a few high quality threads which has helped many. The extra pm space is much needed now if I have to host some more giveaways. So, I really hope that I win this contest.
Thanks for reading.

Jwan - May 10, 2015, 9:05 am

I've been a member of HF for quite some time now.

I've mostly been spending my time in the graphic section. Slowly improving by the great constructive criticism the members have given me. I've contributed to the community myself by giving people advice on their art and aswell as helping a few individuals with their IRL problems via PM.

I'd love to get I33t so i could reward the great assets to the community by repping them. Aswell so i could get some PM inbox space because it's a pain in the ass to delete stuff you actually want to keep haha.

Thanks for the generous giveaway OP. I appreciate it.

ty the cyber bully - May 10, 2015, 9:09 am

I've been a member of HF for a year now. I really only joined because I wanted to learn stuff.

Over my time here I've helped people bypass steam trade bans, gotten scammed on my first sale, and made \$0.03 BTC for helping somebody with steam rep.

I constantly do Steam Key Giveaways weekly and having L33T would help me giveback even more to the community, now I could giveback more than just keys, I could giveback Rep.

During my few giveaways I've had to clear my inbox at least 3-4 times now and that's sad when you and somebody start talking and nearly become friends. Thanks for doing this upgrade, whoever gets it I hope you enjoy :) .

Nice contest Gary!

Gary - May 10, 2015, 1:59 pm

Update: this is available to all members now
just type out a good application.

Graphiix - May 10, 2015, 2:03 pm

Well, I've always debated on whether I wanted to be an upgraded member or not, because I wanted to prove that you don't need to be an upgraded member to be trusted.

However, there's so many great people out there that I'd like to rep for doing me favors, and helping me learn the ropes of this site.

I've been a member for what.. 2-3 years now? Can't remember my joined date. Lol, I'm too lazy too look. I definitely feel like I'm a fairly HQ member, and I strive to make this community a better place.

Like I said above, I really have never upgraded to L33T because I wanted to prove you don't need to be upgraded to be trusted, but I also just don't have the money. I'm still a high school student, and don't have a job yet. (I just turned 16 6 days ago, I haven't even had time to apply for a job yet!)

But if I don't get upgraded, I guess it's for my own good. I want to prove that you don't need to be upgraded to be a trusted member, but the benefits of upgrading outweigh a normal users.

I can still prove myself trustworthy, even as an upgraded member.

Aiba - May 10, 2015, 4:22 pm

I would like the epic upgrade because: I post really fast, really dislike the 30 second post flood rule

Also hate the 30 second PM rule as well, I get tons of PMs daily and it wastes my time waiting for the flood warning to be up

Bigger PM box also helps too, (Averaging 50 PMs per day)

More security helps a bunch too

Thanks for reading Gary

3Chains - May 10, 2015, 7:13 pm

I understand that I haven't been on HF for very long, but this is why I feel I deserve an upgrade.

Why I deserve the upgrade?I use proper grammar.

I'm a generally smart person.
I'm not a dick to people for no reason.
I really enjoy the community and this site overall.
I respect everyone unless they give me a reason I shouldn't.
I hope to contribute a lot more to this site than I already have, being here for three days, I started a large debate with over 100 replies, I made a few enemies, but also friends, and I found a business partner who I am now working with to run the largest doxbin on the internet.
I plan on contributing many hours a day towards this site, so your money wouldn't be wasted.

Why you should choose me over everyone else

The main reason I would say is because of my kindness, I go out of my way to help people, the other day I saw a user doing a btc exchange for over 1.5k and I sent him a large PM explaining to him all the precautions he should take before doing the deal. Not because I wanted him to +rep me or anything, just to be a nice person, and I would hate to see someone get scammed for 1.5k+.

That is my application for the upgrade contest. Good luck to everyone else. Have a great day.

Geass - May 11, 2015, 12:05 am

Ey i dont make 122.2k a year and i want epic.

Pls be fair to me

IpSiety - May 12, 2015, 8:52 pm

Why do I feel I should win? Well to be honest there is nothing I can do to make myself think I deserve anything. But I will post relevant information.

1. I don't need Epic, but I do want it and to enjoy it's features
2. I'm fairly mid-quality. Once in a while I will post something that's incredibly in depth, other times If I feel like I won't gain any ground or change minds. I just post without thinking.
3. I've tried to help a few people on this forum in the past.
4. I'm fairly active I suppose.
5. If I gain EPIC, perhaps Ill have more of a reason to be high quality. Maybe start posting tutorials. Organizing information for hack forum members, Etc. Ill probably start applying for groups so I can contribute to them as well. Maybe make a couple of donations If I decide to spend the money

I've seen to have grown attached to this little forum, but I can't explain it. Every time I log on here, I keep experiencing this strange feeling to come back and immerse myself in it. Perhaps this is the closest thing I've had to an addiction. I've been wasting my time here although. I've been making too may low quality posts, and not enough actually giving back to the community. I never realized that the more I contribute here, the more I contribute back to myself. To learn to be a better person. Even a few months ago when I was getting into omnicoin, it was yet another one of my failed interests. I wanted to immerse myself in it, but I was trying to involve myself in so many things I short circuited myself. Sometimes I would just sit and look at a thread for 10 minutes, not knowing how to respond.

I can't for sure say why I deserve this. But I can tell you what will happen if you give it to me.

1. I will clean up my profile
2. I will clean up my posts
3. I will clean up myself
4. I will try to create high quality threads every week or so
5. I will try to contribute back to you in some way.

I didn't mean to get off track in my application. But thank you for the giveaway.

Edit: Now that I've read the OP I felt my application didn't satisfy anythign lol

1. I have contributed to SRPP the most with my views, and some people have told me that I've made them reconsider something
2. In my sig I've let people contact me and I've tried to help them with their problems. (a few were trolls)
3. I have tired to give advice to members several times
4. I Think I posted a giveaway for fiverr gigs a while ago.

I haven't contributed much, but I know I can contribute more. I wish I could just junk most of my threads and start over.

I don't know what your talking down on yourself. I am kinda new but have read some of your posts, and you make great arguments for your points. You actually make your own opinions instead of jumping on bandwagons agreeing with whatever is popular I think your a HQ member.

HACKED - May 13, 2015, 4:30 am

Entering for ep1c.

Firstly, thanks for hosting.

Well, I am mainly active in the Marketplace.

I have hosted several giveaways such as money giveaway for all members which are still open or I reopen them when I have some spare time. Also, I give methods, games ebooks etc and I have hosted a contest giving games, You can check my threads for more.

Mostly, I help members around the forum(You can check my reps for this).

I want Ep1c, mainly in order to send PMs more quickly. I had opened a thread(giving away a method for around 7 Steam keys and access to Betas(you check my rep)) which received around 200replies/PMs and waiting in order to send the method was difficult. So, I think that it will help me with hosting better giveaways and delivering stuff more quickly.

I think that's enough! It's onto you to decide!

Good luck!

StevesTrolls - May 13, 2015, 12:04 pm

I would like to be entered into this contest, as I believe that I have been an active member since my initial sign up to this site (just over a month ago), and although I don't have a super high post count or rep, I believe there is a lot I can bring back to the community, either in the form of selling certain products in the marketplaces, or providing HQ tutorials in the webmaster and graphic design sections for others to learn from.

Thanks for opportunity, and good luck to all the other entrants.

I don't know if you read the thread or not.

SprayPaint - May 13, 2015, 12:23 pm

I think that I deserve the upgrade to 3p1c because I am a kind user you could say, I don't go around and trash threads and cause people trouble for no reason.

Thanks for the giveaway

WheatCrunchies - May 14, 2015, 1:42 am

I think I should be upgraded to l33t because I try my best to help out the community where I can and try to do as many giveaways as possible!

Thanks in advance!

Maxi - May 14, 2015, 1:44 am

I would like to get upgraded to epic because I would really need the PM box increased and I don't really like my blue name and a white name would suit me well. I search a lot and that would also be helpful if I got epic, thanks. And I am nice and friendly, if anyone need something feel free to PM me. As I need to answer the PMs about help the PM flood limit would be awesome. I am overall a very nice guy and I am trying to be as helpful as I can and trying to contribute to the community as much as I can. I have a free graphics thread. Thanks a lot my friend.

Wise Owl - May 14, 2015, 1:47 am

Been on HF for a few years now, and i haven't really joined any groups and i would really like to join a good group like epic as my first so doing this will make my dream come true <3 :)

?pth?n - May 14, 2015, 1:59 am

Hey :)

I would like to enter this contest for a chance of an EP1C upgrade.

I've joined HF more than two years ago because I was interessted in the whole hacking stuff and wanted to learn something new.

I got a lot out of this forum and the information it provides. When I started knowing things very well, I decided to contribute to HF too.

I'm eager helping out new and old members with every hacking/computing/similar question.

I've spent many hours helping out others without asking for something in return.

Whenever I can, I try to provide a HQ answer that is actually helpful.

Some useful threads/tutorials of mine:

Since I'm already leet and uber, the epic upgrade is the only one I'm missing :)

On a side note, I like your blacklist for this contest. I used to like the lounge, but it turned into the most LQ forum I've seen in a while.

Thanks for holding this contest and good luck everyone ?

Hi,

I would like to enter for 3P1C upgrade. I think I should win this because I'm going to upgrade to Ub3r (soon I guess) and all 3 upgrades would be cool. I would also like to have increased PM space and Gauth 2-Factor Authentication account security because I don't feel secure. Also user bar is cool as fuck. List something good I've done for community: Well I gave xbox codes, LoL codes and few accounts (you can check my rep, too lazy to put links) and I'm planning to do more. Thanks for hosting this Gary. I know I won't win, but you gotta try. Good luck to all of you non-upgraded members for a chance of winning a L33T.

Matt Bomer™ - May 14, 2015, 2:30 am

More applications guys, make it tough for others so that you could get selected.

OP good luck with your contest.

Headdy - May 16, 2015, 2:39 am

1) I want Ep1c

I just can't live without the ability to store more PM's. I would love to use the Gauth + the freaking search flood.

I am always willing to help members, I have been using Hackforums for quite some time now. I am

approved for Ub3r though, but I also would love to receive an upgrade to 3p1c.

Ep1c seems like it's the most worthful upgrade right now.

Anyways long story short; I would love to be upgraded by you.

You can always hit me up if you want. Always willing to talk. ?

Monitoring - May 16, 2015, 4:40 am

I want L33T. I don't think I deserve it, but I would say I do a little bit since I got scammed for an L33T Upgrade (\$18.05) here: <https://hackforums.net/showthread.php?tid=4822466>

I'm also pretty active, I just recently joined, I'm from TriBot forums and someone told me to join this because there is a runescape section that is pretty active. I made about 54-57 post yesterday, that is HQ. I also made some posts that members appreciated, because I helped them. I don't see myself HQ yet, but it would be nice to replace an L33T upgrade with my money I got scammed for, I just wanted to be L33T, but it seems like not every ub3r is trusted here on HF. Thank you for this contest, I'm really thankful for it even if there is another one that will win this. I wish everyone good luck. ?

i would love to get l33t, that would be awesome :)

nepHaXOr - May 17, 2015, 9:05 am

I am in. I want to change to be leet because i love green and i love to be leet too. I want to help other peoples who are new at HF by the positive response and makes them trust i am not a bad boy.

./nepHaXOr (Cool Dude guy from nepal)

tHANKS in advance

Jim Crow - May 17, 2015, 11:26 am

I want the upgrade because if you don't upgrade me i will send you daily pm TILL THE REST OF YOUR LIFE

CatSec - May 17, 2015, 11:28 am

I don't want to enter because i'm lq but it's nice of you hosting this contest

Lil Durk - May 18, 2015, 5:58 pm

I understand that I haven't been on HF for very long, but this is why I feel I deserve an upgrade.

Why I deserve the upgrade?

I use propper grammar.

I'm a generally smart person.

I'm not a dick to people for no reason.

I really enjoy the community and this site overall.

I respect everyon unless they give me a reason I shouldn't.

I hope to contribute a lot more to this site than I already have, being here for three days, I started a large debate with over 100 replies, I made a few enimies, but also friends, and I found a business partner who I am now working with to run the larges doxbin on the internet.

I plan on contributing many hours a day towards this site, so your money wouldn't be wasted.

Why you should choose me over everyone else

The main reason I would say is because of my kindness, I go out of my way to help people, the other day I saw a user doing a btc exchange for over 1.5k and I sent him a large PM explaining to him all the procautions he should take before doing the deal. Not because I wanted him to +rep me or anything, just to be a nice person, and I would hate to see someone get scammed for 1.5k+.

That is my application for the upgrade contest. Good luck to everyone else. Have a great day.

I want epiC1

I deserve it because im a sly dude who smokes cigs and wears a leather jacket.

Sent this user the money on PayPal, he's going to have to get it exchanged :x

Sorry to everyone else. Please look forward to my new contest coming soon.
