I will provide a test on your target in before any purchase is made and show you that it can be taken down a 100% guaranteed.

I can take down anything, wether is OVH or Black Lotus Dedicated Servers to websites under Cloudflare Enterprise.

Regular price is 5\$/hour for most sites and those very well protected can be between \$8 to \$15/hour

I also offer other services related to DDoS add me on skype or PM me for more info.

Skype: showtime.now

BTC Only.

Lol op claims he can take down enterprise cloudflare, yet the largest ddos attack ever recorded couldn't even do that.

Op most live on a different world, because he claims to beat earths world record.

Post some proof of you taking down enterprise cloudflare Imfao
