Thread: [1 year+ in depth feedback](#)

Joshz - May 12, 2015, 9:21 am

My feedback thread. Not gonna bother with fancy thread and all just the needed parts. If you know my old hf I'd prefer you dont post it, some of you definitely will. I was autismy back then and don't wish to associate with it.

Heyy hf . This is my 1 year+ feedback thread. It's been a y road. Got a ton of questions about why I'm unbanned and why I know things from before I joined so this was needed.

Back in February 2014 I joined hf to buy og gamertags. Then I saw they cost 300\$+ for a username and said fuck thay and quit for a bit.

Month or two later I came back. My first deal I bought a kik and a snapchat for 20\$ combined. Sold the snapchat for 10\$ and traded the kik for an upgrade and I started using hf. I got active and started to enjoy the forum, until a couple months later I got repfucked and banned for severe rep abuse. This was around when tenaxium was closed as well.

After that I quit for a couple months. Multid a few times, sadly I lied to xch4ng3 and f8 (not really to him but yknow) on some of my accounts and because they aren't retarded admins and staff like some websites cough foru\*mkorner with scamming owner cough and yeah.

Then it came to this multi. This is a couple months after I previously contacted omni to try and get pardoned and failed. I made this account, got l33t almost immediately. Right when I made this account, omni pmd me saying ">insert my old hf which I don't want to reveal here<, is that you again? At that point I suspected he knew but was looking for proof.

I applied for uber the day I could. After accepted and paid, omni pmd me again. This time it had a link to my old hf and a simple word, "explain". I replied with explain what and he said "why you are multiing". So I did explain. Omni let me stay and I'm here now posting this feedback.

Staff feedback (and previous staff from my time).

F8: probably my favorite of the team, most helpful to me personally (even though he's never on skype) :( also most active in the marketplace. Advice to you: if you made your middleman a 2\$ flat fee like phyber everyone would use you and there'd be less scams due to lack of mm. Just my opinion. Most trusted guy on forums imho.

Xch4ng3: when I went full retard and tried to se you on my multi I regretted it immediately. Honestly not sure what you did specifically as admin, haven't seen it publicized. You were a bit inactive and as far as I knoe that's why you stepped down, not much to say.

Emylbus: not much to say lol. You were an asshole the one time I contacted you.

RDCA: Was nice the couple times I've contacted you on my old hf. While I'd like it to remain private there's notes on my acc you can check who I am. Very nice guy, no idea what he does as a member of the team but I respect him.

Viral D: I used to talk to you regularly on skype, we lost contact. .\_. You're a bit too serious imo and it's a pet peeve of mine when people sign off at the end of their posts. Very nice guy in general, if you're still going through health problems good luck with them.

Judge Dredd: as some famous guy once said: "if you don't have anything nice to say don't say anything at all."

Skorp: very helpful. All I can say I don't knoe him at all lol. Gave me my first warning on this hf and 2nd ever, it's deserved.

Paradoxum: robot

Omni: when I hear people bitch about how you're too strict, trigger happy on bans, should ban scammers etc I always say "well he has the largest and most successful mybb board, he's obviously

doing something right." You're an excellent admin, not an asshole like people like to say either. This isn't a dickriding thread, I will say you're too ban happy to loyal members but just my pov I obviously don't know the full stories. Example sir, his big offense was creating the unofficial wiki. I get he ignored a ruling, but eh. More importantly than a random dick rider getting banned, the news kinda sucks now lol. Anyways not a sir debate. Overall you're doing excellent and keep it up. Btw excellent job recently, trust scan especially was an insanely good addition

#### Site Suggestions:

- 1) add a paypal email db. People can post all the emails of people who charged back and you can search the db. Must provide screenshot of dispute ofc. Details aren't important but in general this would be great imo.
- 2) perm denied ubers allowed to apply again after 1 year of perm. Just give them a chance, ie Dabangg and Circular.
- 3) appoint a moderator in currency exchange. They can monitor threads for scammers and remove their threads. I'd recommend <https://hackforums.net/member.php?action=profile&uid=1048392> but there's others as well.
- 4) remove resolved disputes from the trust scan against.

#### Group feedback (didn't put groups I have no opinion on):

Instinct/nightfall: cough gangrep cough

Null: scamming leaders smh

Echo: best group on hf atm only group I applied to lol. Best leaders as well

Specialists: mostly buyin retards

Fortune: lol, this is the group orchid should be in

Polymath: used to be my fav group and I like Lani shield and robust, rip. ZSerity is a nice guy doe hope it goes well.

Zero: Zeus got dita

Animefan: male hentai porn ftw

#### Section feedback (only sections I use included)

RANF: Roger and Adam pretty much moderate this section, sometimes staff intervene. -sam- also p active here.

Suggestions: useless section tbh lol. Nearly nothing gets accepted. Omni honestly knows what he's doing and doesn't need suggestions imo.

The lounge: Clark and grin 4 mods 2016. Spoiler [\(Click to View\)](#) boring section usually. Some cool threads. Nowadays kids post threads asking how to post in the marketplace or how to get rep or w.e and instead of actually getting negs they get 10 pos saying "You're gonna get negged by ubers so here". Rofl.

Online accounts: pretty dead now noone buys sms, but it's a Decently hq section. It and CE are my fav.

Gamertags: just merge it with online accounts. Too inactive to warrant it's own section now. Lol.

Premium account section: cancer, see ebook feedback for details.

Ebook section: Holy aids. "!!!!BEST EBOOK ON HF! >EARN 10K A DAY AUTOPILOT OR FULL REFUND < ONLY 5.99\$\$\$!" why this is allowed is beyond me. I honestly can't even look at this section, the thread titles are too off putting. Worst area of hf.

CE: So much profit, so little time. Best hf section. Hands down.

Secondary sellers: lq af. Not a fan at all.

Crypto Currency: fun to browse.

#### Member shoutouts:

Don't get salty if I don't shout you out. Too many ppl to mention lol.:

[Ellie](#): one of my longest friends. <3

[Cas](#): a fuck nigga

[Game Freak](#): bad @ gambling

[Gr3k](#): literally hacked ebola topkek

[ty](#): p much my irl lives 20 mins from me rofl

There's more. Cba doing shoutouts for long kids get salty lol.

Might update thread with more. Typed on mobile my cpu broke, ignore stupid autocorrect. Sheeeet.

Not always do I enjoy reading feedback threads. This was a good read with hardly any asskissing. Short and to the point. Thanks.

**Prince™** - May 12, 2015, 9:39 am

Had a nice read. Especially loved reading your feedback on e-books and paradoxum being a robot. XD

**Cibor** - May 12, 2015, 1:20 pm

About suggestion 1), what happens if someone puts your email to the database even though you didn't chargeback?

It would be abused too much.. Im sure Omniscient won't add it.

**Charlemagne** - May 12, 2015, 4:11 pm

I really liked that. I especially liked seeing your relaxed views on the site.
